

Brain Massage: Show No. 703 Is Trump "Gassing Children" At The Border? / Update On 'Spygate' — Dan Bongino's Latest Book Is An Eye Opener

Jerry Scheidbach

Original Air Date: 12.01.18

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in
2 Santa Maria, CA—and your brain masseur—get ready for your brain massage.

3 The moon's last lap around the earth concluding earth's current trip around the sun
4 began today — Happy December! We are all thinking about Christmas, right?

5 The Dove and I completed our first vacation in I don't know how long it's been — had a
6 great time together and we are glad to be home!

7 Okay, let's see what's going on! Voter Fraud is deciding some elections, but they failed to
8 pull it off in Mississippi — and the Florida voter fraud machine, it appears, is finally
9 getting shut down, for now. No news yet on getting voter fraud under control in
10 California!

11 Trump wont meet with Putin during the G20 meet in Buenos Aires yesterday — right,
12 Nov. 30th. Reason? Russia has not returned the soldiers and the ships taken during their
13 invasion of the Ukraine.

14 The money Sarsour raised for Pittsburgh Synagogue shooting victims — wasn't that a
15 nice gesture? A Muslim raising money to minister to the victims of a white supremacist,
16 Jew hating, Nazi loving radical. Well, the money went to an Islamic Center with terrorist
17 ties — so! From one Jew hater to another! Oh well!

18 The hypocrisy on the left continues to plumb new depths of depravity — wow!
19 Remember Hillary's private server where her Chinese friends were able to capture her
20 email correspondence — and it has been proved some of these were considered classified
21 communications — and remember how we strained to hear a peep of protest from the
22 Left about this but all we got were crickets? Ivanka used her private email for
23 correspondence during her transition into service for non-classified communications and
24 the left is going bananas — no kidding! They are pressing for a full investigation into
25 Ivanka for using her private email to conduct communications during her transition into
26 government service. It's amazing!

27 And then, there's the View ranting about Trump gassing children, and the latest on
28 Mueller's efforts to trip Trump — but, before I get into that — I think I'll speak to this
29 discussion about gassing the children at our border, and then in segment two I want to go
30 over some things Bongino brought out in his newest book, *Spygate*; it's really a
31 vindication of almost everything we already suspected about the Mueller investigation
32 and more, much more — so, get ready for your brain massage.

33 [TRUTH]

34 Speaking to the issue of Trump gassing children (as you know, tear gas was been used to
35 disperse crowds attempting to cross our border after being told to halt, and after they
36 began to throw rocks at US Border Agents; so instead of killing them, they use tear gas to

37 disperse them) and when Sunny Hostin on *The View* is told this was done repeatedly
38 under the Obama Administration, she flips out.¹ Whoopi, it appears, was at least honest
39 about it, and cited a National Review article reporting Obama's administration tear gassed
40 illegal immigrants crossing the border and did it repeatedly — Joy Behar was incredulous
41 and wondered why there was no picture of this going on while Obama was in office —
42 good question! McCain added, "Homeland Security data does validate that it happened
43 multiple times, more than once a month, during the Obama years."² Abby Huntsman
44 brought out that in fact over a period of four months, HHS (Health And Human
45 Services) placed unaccompanied children into the hands of traffickers, who forced them
46 to work on egg farms — and that this led to a federal and criminal indictment. She
47 admitted, "These are things we don't talk about."³ Well, at about this point in the confab
48 Hostin had heard enough — she blurted: "The last I checked President Obama is no
49 longer in office. Trump in in office!" And Behar jumped in, "And he's destroying the
50 country!" And Hostin continued: "I don't care what Obama did!" "I care about what
51 Trump is doing right here right now!"

52 And that, my friend, is that! But you know what, I must say, I'm encouraged, at least a
53 little, that a few on *The View* seem to be able to get the point — Whoopi was willing to
54 bring up the National Review article, and Abby did admit, "we don't talk about that" —
55 that is, we don't talk about what Obama did.

56 So tender eyed and softheaded Hathaway lamented, "My country gassed children"⁴ — it's
57 unbelievable! (Of course, she means the government of this country authorized the use of
58 tear gas to disperse men, women, and children, who were attempting to cross our border
59 illegally.)

60 Ms. Hathaway, your government was gassing children repeatedly during the Obama
61 administration — Ms. Hathaway, your government turned children over to human
62 traffickers during the Obama administration — Ms. Hathaway, your government sold
63 guns to drug Cartel murderers who used them to kill a border patrol agent — fast and
64 furious — Ms. Hathaway, your government, under Obama, was arranging for Russia to
65 get its hands on our uranium in the full knowledge that Russia was using it to help the
66 Iranians develop their nuclear program — Ms. Hathaway, why are you so moved by the
67 fact that our government used tear gas (TEAR GAS, folks — painful, unpleasant, an
68 effective irritant and deterrent to be sure — BUT NOT FATAL), and used it to disperse a
69 gang of migrants throwing rocks at border patrol officers, but none of these other far
70 more egregious offenses have bothered you about "your country."

71 Ms. Hathaway, your government has sanctioned the murder of more than 50 million
72 babies since 1973.

73 Look, these foolish mothers who drag their children into harms way in this way, these
74 foolish, thoughtless fathers and mothers who would expose their children to this — they
75 are the ones responsible.

76 "My country gassed children"? Really! Trump sent repeated warnings that these migrants
77 were not going to be allowed to push their way into our country illegally — some of them
78 are right now demanding that the US speed up the Asylum process — yeah, that's the
79 quality of the people trying to bust in right now! — Oh, and 1/3 of them have diseases
80 ranging from head lice to TB and HIV.⁵ Oh, and they have caught some MS-13 gang
81 members trying to break in with the crowd.⁶

82 Oh, and as for SIAs (special interest aliens) aka terrorist connected thugs being embedded
83 in the horde coming to our borders — 15 terrorists have been caught trying to illegally
84 cross our borders since 2001.⁷ As lately at 2017, one from ISIS, caught in Canada, a guy
85 named Abdullah Sharif; Ibrahim Qoordheen, from Somalia, caught in Costa Rica; March,
86 2017; believed to be part of Al-Shabaab terrorist organization some Taliban, some from
87 the Tamil Tigers, from Harkat-ul-Jihad-al-Islami Bangladesh — and even though so
88 many liberals these days refuse to allow us to think logically, reasonably, to use common
89 sense — the fact is these terrorists organizations are not stupid and this horde gathering
90 to cross our border is a perfect opportunity for them to sneak some operatives in — and
91 we would be fools indeed if we did not concern ourselves with that very real possibility.

92 How many are embedded in the hoard, we don't know. But Hathaway is concerned about
93 use of what she called "monstrous force" — tear gas, monstrous force? Wow!

94 But Hathaway, and Behar, and Hostin, will be pleased to know that our CA attorney
95 general wants to restrict use of any force at the border. I wonder how much *force* he is
96 willing should be used to *enforce* that?

97 Well, well, well! The schools, some of them, are deciding they do need to do something to
98 protect against these school shooters — one school is distributing hockey pucks to
99 teachers and students that they can throw at a shooter — another one is distributing small
100 bats to teachers and other school personnel⁸ — don't misunderstand, I applaud these
101 efforts. I'm just trying to get my head around how this works. Isn't this something rather
102 like bringing a knife to a gunfight?

103 And, can't a hockey puck do some serious damage. Right! And a bat, can't a defense bat
104 do some serious damage on the cranium of an assaulter, or a fellow student — I mean, if a
105 mean kid gets hold of one of these defensive hockey pucks, can't he put some serious hurt
106 on someone, or the bat? So, the idea is to provide a way to discourage an attacker by
107 means that have at least a high probability of being non-lethal — sort of like using tear gas
108 to disperse a mob rather than slaughter them with 30, 40, or .223/5.56 caliber bullets.

109 Now, Joy Behar, and Hostin will certainly accuse me of comparing school shooters with
110 mothers trying to cross our borders with their children illegally — and so totally miss the
111 point!

112 The point is, liberals are not willing to provide our teachers with the capacity to use lethal
113 force to protect our children from school shooters, but will provide them with means that
114 have a high probability of being non-lethal — a compromise that they hope will mitigate
115 the threat to our children — but if the government, responding to a violent mob, uses tear
116 gas, plainly in order to avoid using lethal force, then Trump is a monster — but who is
117 the monster?

118 The monster that refuses to provide adequate protection from school shooters for our
119 own kids, or the monster that compassionately attempts to stop intruders from entering
120 our country illegally, especially when we have a reasonable expectation they are not nice
121 people, evidenced by the fact that they were throwing rocks at officers, by use of non-
122 lethal force? It's confusing how liberals these days think. Hold on — I'll be right back!

123 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse,
124 your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church
125 belfry arch, signaling the enemy is on the march, an enemy that would steal from us our
126 liberty.

127 Corsi has filled a complaint against the FBI for prosecutorial misconduct.⁹ As you know,
128 Mueller's witch-hunt is destroying a lot of lives — like all witch-hunts, a lot of people get
129 burned that aren't.

130 Dan Bongino is a former FBI agent who has become an outspoken advocate for truth,
131 justice, and the American way! He debunks liberal lies, *like a boss*. Dove feeds me tweets
132 from Bongino from time to time and I have consistently found them to be insightful, and
133 spot on! Anyway, I listened to a speech he gave explaining what's really going on with the
134 Mueller investigation¹⁰ and among the many things I found informative and insightful
135 and intriguing are these: first, he confirms with documentation everything, well, virtually
136 everything, I have been saying about the Mueller investigation right from the start. I have
137 always believed it was intended to distract from the crimes of Hillary and Obama, and
138 Bongino has put together evidence that shows this is exactly what it's all about; second, it's
139 coming from the perspective of someone who has worked within the FBI; and third, he
140 uses MSM sources to support his conclusions — which is like using the confessions of the
141 perpetrator's accomplices. Also, he is not restating what most of us in the conservative
142 media have been saying about this right along — he has assembled the evidence
143 supporting his case from primary sources. So, what I want to do for my audience is offer a
144 synopsis of that case. Hopefully, you will want to go buy his book and look at all of this
145 more fully. It's called *Spygate*!

146 I'm not merely repeating Bongino's speech — I'm simply using the speech as a primary
147 resource among many others.

148 Let's begin with Nixon — why will be clear as we proceed. Nixon fired the special
149 prosecutor investigating Watergate when that prosecutor, Archibald Cox, demanded
150 release of Nixon's White House tapes. Nixon could not find anyone to fire the guy; all
151 who were in a position to do so resigned rather than comply, finally, Robert Bork, then
152 the Solicitor General who was acting head of the Justice Department, obliged Nixon, and
153 fired Archibald Cox, the special prosecutor investigating Watergate. Nixon was pressured
154 to allow another special prosecutor to be appointed, who succeeded to secure a subpoena
155 demanding release of Nixon's White House tape recordings at the Supreme Court, this
156 followed by discovery of the missing eighteen and one half minutes, along with John
157 Dean's testimony, all led to Nixon's resignation — Hillary Clinton was a young lawyer
158 who helped with the Watergate investigation. But what, really, was Watergate all about?

159 Watergate was about President Nixon's alleged involvement in a break in that occurred at
160 the DNC headquarters then maintained at the now famous Watergate complex in the
161 Foggy Bottom neighborhood of DC. The burglars were attempting to do some
162 "opposition" research against Nixon's political enemies — and it involved use of campaign
163 money to pay for this opposition research — they were trying to, ready for this, bug the
164 office of the DNC chairman— his name was O'Brien. They were caught trying to
165 photograph documents in O'Brien's office — so that's enough for now. You get the idea
166 and see the relationship.

167 Nixon finally went down not because anyone was able to actually prove he ordered the
168 break in, or even knew about it before hand, but because he got tangled up in the effort to
169 cover it up.

170 Fast forward to 2016. The DNC tried to illegally use the expansive NSA database to do
171 opposition research on Trump, but got caught, decided to obtain a legal warrant to tap
172 Trump Tower, it backfired, Trump got elected, and then they went into panic mode. They
173 organized an effort to keep the truth about their misdeeds from ever coming out into the
174 light by a massive diversion — all eyes were diverted to a bogus charge that Trump
175 colluded with Russia — and with the media's complicity, so far, this has been successful.

176 Here we go.

177 First, the Obama Administration had already weaponized the government against
178 American citizens. Remember the IRS scandal, where Obamabots targeted conservative
179 groups to slow walk or deny their application for tax-exempt status based on political
180 profiling — conservatives were targeted. Then there was the Jim Rosen of Fox News
181 scandal where the government was weaponized against a journalist Obama did not like,
182 then there was the AP Phone records scandal where Obama's Justice Department seized
183 phone records of journalists for AP without prior notification and contrary to the
184 Constitutional rights of the journalists. So, Obama had already weaponized the
185 government against private citizens and had grown accustomed to getting away with it.

186 Next: NSA has a massive database that probably has more information about you than
187 you mother has.

188 It collects more than 29 million gigabytes of information about American citizens every
189 day.¹¹

190 It's supposed to be used only for national security concerns — specifically, to protect the
191 country from another 9/11 — the parameters for access to this database are supposed to
192 be very strict. According to the NSA "The government cannot conduct substantive
193 queries of the bulk records for any purpose other than counter-terrorism."¹² But we know
194 that has not been the practice.

195 In fact, a little something you probably have not heard about, and this is directly from the
196 NSA.gov site — "On May 23, 2018, NSA began deleting all call detail records (CDRs)
197 acquired since 2015 under Title V of the Foreign Intelligence Surveillance Act (FISA) ...
198 NSA is deleting the CDRs because several months ago NSA analysts noted technical
199 irregularities in some data received from telecommunications service providers. These
200 irregularities also resulted in the production to NSA of some CDRs that NSA was not
201 authorized to receive."¹³ 2015 is when the Obama team was busy trying to use the NSA
202 database to do opposition research on the Trump campaign, which takes us to the next
203 point.

204 Next: using private contractors, the FBI conducted NSA database searches to collect intel
205 on Obama's political opponents. But a good guy at NSA noticed, a man named Mike
206 Rodgers: he noticed that someone was tapping into the NSA database making what he
207 discerned were political queries. In other words, making queries that had nothing to do
208 with national security, but that would be of political interest to certain, shall we say,
209 interested parties, parties such as the Hillary campaign.

210 A FISA court produced a report on these ABOUT queries (searches that gather
211 information *about* this or that subject). On page 80 of that report,¹⁴ which I have perused,
212 it was revealed that private contractors working with the FBI were spying on US citizens
213 using this NSA database.

214 Once it was discovered private contractors were accessing the NSA database working with
215 the FBI doing political opponent research, they adjusted their tactics. They, and by *they* I
216 mean Obama's operatives working inside the government to facilitate Hillary's election —
217 people like Obama's counsel, and his operatives in the Department of Justice, and the FBI
218 — Comey, Stryzok, Rosenstein, and others. Mueller comes into play later.

219 And by tactical adjustment, I mean they decided if they can't spy on Trump outside the
220 law, they would do it within the law. (The reason it's preferable to do it outside the law is

¹⁴ United States Foreign Intelligence Surveillance Court, Washington, D.C., *Memorandum Opinion And Order*, filed United State Foreign Surveillance Court, APR 26 2017, LeeAnn Flynn Hall, Clerk of Court. (On file: 703.FISA Report On NonCompliance with minimal redaction.)

221 that you can better control who knows about it, and more easily hide it from scrutiny, and
222 avoid leaving a paper trail.) But, what are you going to do when you have people like
223 Mike Rodgers bugging up your plot.

224 And, besides, Hillary is going to win, so none of this will see the light of day anyway. To
225 work up a case to get a FISA warrant to legally tap Trump tower and access the NSA
226 database, they needed to establish a plausible case that Trump or his associates were in
227 collusion with Russia — a foreign power — in activity subversive to the interests of
228 America.

229 With a FISA court approved warrant, Hillary's team could gather Intel on Trump, his
230 associates, and on anyone two steps removed from each of those persons — something
231 called the two hop rule.

232 Remember these people are arrogant, they totally assumed their party, via Hillary, would
233 win the election so they assumed they had total political cover for any of their actions,
234 they operated in an environment where using government to attack political opponents
235 was established practice in the Obama Administration, and add to this that their plan A
236 had been disrupted, and they are scrambling to adjust, this is being done *on the fly*.
237 Which is why it got sloppy, and they made critical mistakes.

238 They needed to present to a FISA court judge a plausible argument that Trump and/or his
239 team, were working on behalf of a foreign power in violation of at least one US law. But,
240 of course, they had nothing on which to build such a case.

241 Hillary's opposition research team was Fusion-GPS. Glen Simpson, co-founder of GPS
242 Fusion, had written an article back in 2007 detailing how Russians manipulated American
243 politicians. The article was titled *How Lobbyists Help Ex-Soviets Woo Washington*.¹⁵ It was
244 published in the Wall Street Journal.

245 Now, read that article side by side with the now infamously named Trump Dossier — it's
246 obvious that whoever wrote the dossier used the article written by the co-founder of
247 Fusion-GPS, the organization Hillary hired to do opposition research on Trump, and
248 simply inserted Trump's name into the article. It's virtually identical. The only difference
249 is that Trump's name was written in. (By the way, Mary Jacoby, wife of Fusion-GPS
250 cofounder, was meeting with Obama during the time this dossier was being created.)

251 Now, how do we get this dossier into the hands of the FBI so they can use it to secure
252 "legal" surveillance warrants to spy on Trump and his campaign? Enter Christopher
253 Steele.

254 Someone remembered this guy, Christopher Steele, a former British agent who worked in
255 Russia that the FBI had used in the past. The Dossier could not come to the FBI from
256 Fusion-GPS, that would not do. They decided to have the dossier come from Russia —
257 who better to arrange that than a former British spy who worked in Russia?

¹⁵ Wall Street Journal <https://www.wsj.com/articles/SB117674837248471543>

258 So Steele comes up with the Dossier supposedly from his "sources" in Russia and provides
259 this to the FBI because he was concerned about the implications involving a candidate for
260 the Presidency of the U.S. That and something

261 The Dossier was used to obtain a FISA court warrant to tap Trump Tower, and to begin
262 aggressively investigating Trump for Russian collusion. However, they knew that was not
263 true — their real purpose was to get warrants to tap Trump tower and conduct
264 surveillance on him and his campaign team in hopes to get other damning information
265 they could use, or find ways to support the Dossier — that is, find some connection
266 between Trump and Russia that they could exploit to buttress their made up story.
267 Nothing was forthcoming — so a copy of the Dossier happens to land on McCain's desk,
268 and it gets leaked to the press. Phony baloney Comey — oh yeah!

269 In their effort to make some connection between Russia and the Trump campaign, they
270 destroyed some perfectly innocent people, and sidelined some others — such as Flynn, an
271 example of personal destruction politics, and Sessions, an example of sidelining threats.
272 But someone at Fusion-GPS used the NSA database to do research on Trump's team
273 looking for any connection between it and Russia and found a Michael Cohen who had
274 traveled to Prague, and decided to use that as a way to establish a Trump Campaign-
275 Russia connection. It backfired when it was discovered they got the wrong Michael
276 Cohen — Michael Cohen's passport shows he never went to Prague. (Update: However,
277 they have threatened to ruin him like they have four others, and beat him into submission
278 — I understand Cohen has copped a plea deal with Mueller and confessed he lied about
279 some irrelevant issues that were politically motivated, but things that in fact were not
280 illegal. Trump has explained this — he is a businessman and continued doing his business
281 during his campaign until it became apparent that he was going to win. That he was
282 considering a building project in Russia is not surprising.)

283 But anyway, back to the timeline here. They violated law by using the NSA database
284 illegally to do opposition research on Trump and his campaign, they got caught, changed
285 their tactic; the Hillary campaign hired Fusion-GPS to get this phony dossier put together
286 from a research paper the co-founder of Fusion had written ten years earlier, they put
287 Trump's name in it, hired Christopher Steele to pretend he wrote it and delivered it to the
288 FBI, who then used it to get a warrant to tap Trump Tower and spy on his team. However
289 they were not getting any actionable Intel so they provided the Dossier to McCain and
290 leaked it to the press hoping to damage Trump politically with it, then this all comes
291 crashing down when Trump actually wins the Presidency. Oh no! Now what? All of this is
292 going to get exposed and heads will roll.

293 So now they move into cover up mode. Brennan has a melt down, the left goes totally out
294 of their minds, and Mueller is called in to take care of clean up. Bob Mueller is assigned
295 the task of keeping the heat on Trump and off of Obama, Hillary, and those politically
296 connected to them.

297 From here Bongino shows the curious connections between all the players right now,
298 Obama's counsel, Katherine Rumbler, the connections between her and Mueller, and
299 Rosenstein, and — well, let's put it this way. Virtually everyone on the Mueller team

300 prosecuting Trump are on record as Hillary supporters and Trump haters — but let
301 Trump assign Whitaker to hold Sessions office until he makes an appointment, and since
302 Whitaker is on record as a Trump supporter, all of these howlers cry to their moon god in
303 protest.

304 Bongino also shows the relationship between all of this and a concern that a Trump
305 presidency might not only expose all their criminal misdeeds in the election, but that
306 other things might come out, like the fact that Obama's administration was knowingly
307 providing uranium to Russia while Russia was assisting Iran in going nuclear. Stuff like
308 the fact that an FBI paid informant admitted we, that is the US, were giving Uranium to
309 Russia while the Russians were facilitating building the Iran nuclear program. Can
310 anyone spell treason? It does have an odd spelling — it goes like this, O B A M A H I L L
311 A R Y.

312 I have warned you to pray earnestly, I mean in prayer and fasting, with sackcloth,
313 repenting before GOD like Daniel did in Daniel 9, and pray for our troubled nation as he
314 prayed for his. The spiritual warfare right now is so intense — we must break through. I'll
315 speak to this in my Issachar report Sunday night at 6 pm.

316 I have lit the lamps in the Church belfry arch and now you let me know if you see them.
317 It's LIGHTS ON if you see the LIGHTS ARE ON and you will ride like Revere and spread
318 the warning, (essentially, it means you agree with what I'm saying) or you say LIGHTS
319 OFF -- which means you reject what I'm saying and disagree strongly with me. So, what
320 will it be today, lights on, or lights off?
