

Brain Massage®: Show No. 770 It's A Study In CONTRASTS: The Party of LEADERSHIP Versus the Party of POLITICAL POWER PLAYS.

Jerry Scheidbach

Original Air Date: 03.14.19

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.
4 From a tweet I saw—Trump will give us all the FREE stuff we really
5 need: free market, freedom of religion, freedom of speech, freedom
6 to bear arms — you get the idea!
7 Impossible to get away from the virus—but let me remind you of
8 the virus you really need to be concerned about.
9 The DEMS are on a tear to jin up a coronavirus panic — why? At
10 least a few elements in my answer might surprise you! Let's just say
11 it this way. If the justice department won't act on spy-gate and
12 Hillary-gate, and Schiff-gate and Biden-gate — gates of hell all —
13 Judicial Watch will.
14 COMING to a sanctuary city near you: ICE CRACK DOWN. Oh
15 yeah!
16 More Biden bumbling—friend, this is getting really sad! But the
17 devious Dems have a plan and we had better WATCH AND
18 PRAY!
19 Fellow Friend of Liberty and Tyranny's foe —
20 It's time for your BRAIN MASSAGE
21 [TRUTH]
22 I'm guessing you're about as sick of all the hype about the virus as
23 any have been made sick by the virus and lived to remember it.
24 But I'll tell you what—if the media had hyped the Swine Flu like
25 they are hyping this one, it might have saved at least a few lives. So,
26 did they learn something from Swine flu? Uh, no, that's not it.

27 Okay, let's set the record straight.

28 The Swine flu ran its course in about one year — that's about how
29 long almost all these pandemics last. Remember SARS — 2003,
30 SWINE FLU — 2009, MERS and ZIKA — 2015, and 16.

31 The SWINE flu was particularly nasty — 60.8 million cases
32 identified in the U.S., 273,304 cases were hospitalized, and 12,469
33 died in the US from the Swine Flu.

34 Obama declared a national health emergency in April, 2009, when
35 the Swine flu appeared in the U.S. with 20 Americans diagnosed.
36 (This one immigrated from Mexico where it started in pigs and
37 jumped from swine to human—which is what a coronavirus is.)
38 Probably, some in Mexico contracted the disease, but it was not
39 diagnosed as a coronavirus.

40 The measures taken were customary, requested 7BN to fund
41 treatment; but it turns out the measures were inadequate. 60.8
42 million got the virus, almost 300k were hospitalized and over 12k
43 died.

44 The difference between declaring a health emergency and declaring
45 a national emergency involves the amount of Federal resources
46 that can be directed to address the emergency.

47 Those who accuse Obama of not declaring an emergency until
48 October 2009 are referring to the fact that he did not declare the
49 Swine flu to be a NATIONAL emergency until October, and that
50 was after the disease had afflicted hundreds of thousands and
51 claimed 1000 American lives. What no one seems to remember,
52 however, is how the Obama Admin was fumbling trying to deliver
53 the promised vaccine—frustrated by slow response to calls for the
54 vaccine, and vexed by mounting suspicion that the vaccine being
55 distributed was not effective—hundreds of thousands were
56 suffering and hospitals and doctors were unable to get enough
57 vaccine to take care of their patients.

58 Obama had take his vaccine shot on national TV in order to
59 encourage Americans to trust it. It was a mess! But the lame stream
60 media did its best to cover it all up.

61 About six months later, Obama finally, in October, recognized this
62 pandemic as a NATIONAL EMERGENCY, let's see, yeah, and then
63 by November 22, several million Americans were suffering from
64 the disease, and 4,000 had died. By the end of the pandemic,
65 February in 2010, 60.8 million Americans were afflicted, 273,304
66 were hospitalized, and 12,469 Americans died.

67 But why bring this up? Why did Trump bother to point out that
68 Obama did not declare the Swine Flu pandemic a National
69 Emergency until a thousand Americans had died from the disease?
70 Sort of petty, and beside the point, don't you think?

71 Here is why. Laurence O'Donnell, Breaking News, on MSNCB said,
72 “MORE PEOPLE ARE SICK IN AMERICA TONIGHT BECAUSE
73 DONALD TRUMP IS PRESIDENT. MORE PEOPLE ARE DEAD
74 AND DYING IN AMERICA TONIGHT, BECAUSE DONALD
75 TRUMP IS PRESIDENT.” And that is only one example of the sort
76 of vile and wicked political hack job attacks Trump is getting from
77 these weasels. From what I just told you, I would be far more just
78 in saying, AMERICANS DIED DURING THE SWINE FLU
79 PANDEMIC BECAUSE OBAMA WAS THEN THE PRESIDENT.
80 And, in truth, a case could be made to support that statement. He
81 did too little, too late. Let's look at what Trump has done and is
82 doing.

83 Trump's admin declared the CoVID-19 virus a health emergency
84 at the outset of revelations about the outbreak in China.

85 The CDC released an alert to any traveling to or from Wuhan,
86 China. January 20, an American who had returned from Wuhan
87 China heard the alert and discovered he had the disease. Trump
88 declared the disease a health emergency Jan. 30.

89 He initiated travel bans to protect Americans. And liberals wailed
90 and moaned and criticized him for doing this. That's right. They
91 literally mocked him for initiating travel bans to and from China,
92 and from other European countries where the disease had
93 appeared.

94 During this time, CNN called it the Wuhan virus, MSNBC, ABC,
95 CBS, NPR, all repeatedly referred to it as the Chinese coronavirus,
96 and alternately the Wuhan virus—I counted at least 20 times.

97 Trump is expected to declare it a NATIONAL EMERGENCY
98 today—show prep day for the Brain Masseur.

99 At present, world wide, there are 137,445 reported cases, in 117
100 countries, with and 5,088 deaths. In America, we have 1,820
101 confirmed cases, in 47 states, with 41 deaths. The number of cases
102 includes those from the Diamond Princess cruise ship and
103 evacuees from Wuhan, China.

104 80% of the confirmed cases are rated as MILD. Deaths are almost
105 exclusively of older persons with preexisting conditions — younger
106 people have a very good chance of full recovery.

107 To get some perspective, it works out the same way with every
108 other flu we experience routinely during every flu season.
109 Thousands of older people, especially, with depressed immune
110 systems, and especially if they have other health complications, die
111 from what we would call the "common flu" or influenza — more
112 than 10,000 have died in America from influenza already this flu
113 season.

114 The one difference is that we do not have a vaccine for this latest
115 coronavirus—but get this, they are already in phase one testing.
116 The National Institute for Health is in phase one of testing a
117 vaccine right now, and there are about ten others who are testing a
118 vaccine right now—and this is unprecedented. Dr. Anthony Fauci,
119 of NIH, reported "getting a coronavirus vaccine into Phase 1 of

120 testing has occurred the fastest that anyone has ever done literally
121 in the history of vaccinology."

122 Trump's response to all of this as compared with how the DEMS
123 are reacting, is a study in LEADERSHIP versus, well, I guess I
124 would say the antithesis of leadership.

125 Let's look at Trump's response to this.

126 First, he declared a health emergency and used the powers under
127 that to restrict travel to and from China and as the disease
128 appeared in other countries, expanded the ban to those countries
129 also. This has almost certainly saved hundreds of lives.

130 Second, he requested special increased funding from Congress to
131 address the disease, he thought 4 BN additional funding would do
132 it, but the Dems wanted to upstage him and so they put a bill
133 together to provide 8 BN — (But then, here is what these wicked
134 people did. They put together a bill bloated with pork—infected
135 their bill with a SWINE virus of their own—in a bill purported to
136 be about providing funds to assist Americans impacted by this
137 most recent flu pandemic these muck wallowing swine injected
138 MONEY TO KILL BABIES BY LEGALIZED ABORTION.)

139 Third, Trump issued an executive order that will "decrease
140 American dependence" on China in the fight against this
141 pandemic.

142 Fourth, Trump is declaring the matter a National Emergency,
143 broadening the government's ability to dedicate resources to
144 address this issue.

145 Fifth, Trump has also sought to provide perspective on this issue to
146 tamp down the panic that the left is trying to stoke—everyone
147 dealing with a public emergency knows the importance of
148 providing honest information and countering panic.

149 His speech was excellent. And I'll address it on the other side of the
150 break.

151 To conclude this segment, Trump reminded us that these things
152 happen, and have been happening since history began and it will
153 continue. And he assured us he is taking REAL action to protect
154 Americans.

155 Jesus said the same thing. He listed the sorts of things that have
156 gone on throughout history, and that He said would continue until
157 the end of this world—included in His list are wars, and rumors of
158 wars, with nation rising against nation, kingdom against kingdom,
159 famines, pestilences (diseases—like CoVID-19), earthquakes — all
160 of these things, He said, are the BEGINNING OF SORROWS —
161 none of this portends the END — these are the Braxton hicks
162 pangs that remind you of what is coming, but do not signal the
163 arrival.

164 That's a good place to take our break—Jesus told us pestilences will
165 afflict us along the way toward the end—these things remind us of
166 WHAT'S COMING, but they do not announce the arrival!

167 Jesus said there would be pestilences in the lead up of His return,
168 and we should take the REMINDER it provides us—but we should
169 not go into a panic because He also assured us this does not mean
170 the end is here. It's funny how *funny* modern Christianity is—so
171 many are like new mothers who panic at the first experience of
172 Braxton Hicks — and get the whole household in uproar only to
173 discover it was a false alarm. Here is a mega church in California
174 cancelled it's "faith healing hospital visits" because of concern about
175 the coronavirus!!! Wow! There are not enough fingers and toes on
176 a thousand of us listening right now to count those that will run to
177 their pulpits and declare this virus is a sign of the end of the world.
178 DEMONCRATS are not the only ones to use unfounded fear to
179 drive their agenda forward. Hold on through the break; I'll be right
180 back.

181 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
182 at the Lighthouse, your brain masseur, and Paul Revere's lantern
183 lighter, lighting the lamps in the church belfry arch, signaling the
184 enemy is on the march, an enemy that would steal from us our
185 liberty.

186 Folks, take every appropriate precaution against contracting any
187 flu, and be extra careful when there is some bug running amuck
188 amongst us — but hoarding sanitizers and food is neither
189 necessary nor generous to your neighbors. Everyone ought to have
190 a store of food and everyone should have taken care to have a
191 source for water for emergencies, but hoarding—it's uncomely,
192 ungenerous to your neighbors, and in this case, unnecessary.

193 Let's look at Trump's speech for a few minutes. It assured
194 Americans that his administration was taking positive action to
195 address the outbreak. As I go through the speech, I'll draw
196 particular attention to the statements the DEMONCRATS have
197 cherry picked to criticize.

198 First, he referred to the virus as the "coronavirus outbreak that
199 started in China." Trigger words: "started in China."

200 He provided important background information about the origin
201 and current status of the outbreak. He said, "This is the most
202 aggressive and comprehensive effort to confront a foreign virus in
203 modern history." Trigger words: "a foreign virus."

204 So now the msm are attacking him relentlessly for referring to the
205 virus as the China virus, or China coronavirus — but, as I pointed
206 out earlier today, in December and January, CNN talking heads
207 referred to it as the Wuhan virus twenty time, at least. MSNBC,
208 ABC, CBS. NPR, all of them, called it the China coronavirus, or the
209 Wuhan virus—but Trump comes out and refers to it in this way,
210 and the same wicked, evil, perverted people start "shifting the
211 narrative." That's what one of them actually accused Trump and

212 Republicans of doing — shifting the narrative. Trying to make it
213 out that the virus is Chinese, calling it the "foreign" virus, or the
214 Chinese coronavirus — it's outrageous folks. But Americans are on
215 to them now.

216 Look, it's like Bongino said recently, think about this. The same
217 jackals who worked with Russia to drag this nation through two
218 years of Russia-collusion conspiracy theories are the ones working
219 with China to create a fake COVID-19 crisis—instead of actually
220 doing something to help with this, they are trying to use it to
221 advance their political agenda. Trump is trying to LEAD this
222 nation through this mess, just like he has led us through the
223 financial morass Obama created, just like he has led us to recover
224 freedom of speech, and freedom of religion, just like he has led this
225 nation back from the brink of utter destruction from the Almighty
226 over the shedding of innocent blood in this land—he is taking
227 reasonable, sensible, and effective steps to address this virus—and
228 what are the Dems doing? They are fighting against him all the
229 way. Even pretending to care and provide funding for relief to
230 American suffering because of this virus and they try to use it to
231 advance their baby murdering agenda—they infect it with so much
232 pork—and not just any pork — SWINE FLU PORK — baby
233 murdering pork. These people, Pelosi, you are the worst of them,
234 these people are calloused, greedy, power hungry, evil crazed
235 perverted souls so bent on getting their way politically they don't
236 care how many babies are murdered, sacrificed to their political
237 agenda, they don't care how many lives they expose to danger from
238 this disease — But!

239 Americans have access to the truth — and the fact is those lying,
240 two faced, scoundrels are the ones attempting to "shift the
241 narrative." It's called the Wuhan virus because THAT'S WHERE IT
242 BEGAN.

243 The DEMS are truly on a tear to jinn up a coronavirus panic —
244 why? Well, the obvious answer is they will do anything they can to
245 make Trump look bad—but, you and I know, and they know too,
246 that Americans are far more comfortable with Trump leading us
247 through this than they would be with any of those yahoos — most
248 especially bumbling Biden, or crooked Hillary. Biden and Hillary
249 are the perfect poster-child of corruption.

250 Their response to the virus is to make it a political attack on the
251 President who is trying to protect American lives. You know what
252 Biden brings to the issue? Nothing!!!! He only says, travel bans,
253 that's not the answer. He only says, Trump's response is
254 inadequate, inept, etc. That's it! He never says what he would do
255 differently. But I'll tell you what that jackal would do differently.
256 He and his cohorts would open the borders, invite the virus into
257 our country, their policies would result in 60.8 million Americans
258 getting sick, 270K+ hospitalized, and more than 12,000 dead.
259 That's their record.

260 They care about one thing. Getting power, and getting revenge for
261 Hillary. And, more importantly, regaining power so that they can
262 finally and completely BURY THE TRUTH about their
263 CORRUPTION — the Demoncratic Party is CORRUPT at its core.

264 I think this is about deflecting attention from some things going on
265 that terrify them.

266 Judicial Watch will finally get Hillary under oath to testify about
267 her shennanigans — after six years of litigation, FINALLY, Judicial
268 Watch has compelled Hillary to testify UNDER OATH about her
269 secret email server and about her Benghazi records. And Adam
270 Schiff is sweating — Judicial Watch has filed a lawsuit against him

271 "Judicial Watch announced it today filed a lawsuit against Rep.
272 Adam Schiff (D-CA) and the House Intelligence Committee
273 for the controversial subpoenas issued for phone records,

274 including those of Rudy Giuliani, President Trump's lawyer.
275 The phone records led to the **publication** of the private phone
276 records of Giuliani, Congressman Devon Nunes, journalist
277 John Solomon, Trump attorney Jay Sekulow, attorney Victoria
278 Toensing, and other American citizens." This is a CRIME! If
279 you did it, you'd be sitting in jail right now. That's where Adam
280 Schiff belongs. He violated the civil rights of American citizens
281 and did it under the color of law, he abused his power as a
282 member of the Congress, and must answer these very serious
283 allegations.

284 Somehow, it seems, the Left has made Barr quiet — we can hope
285 there is some strategy here, but thank God if the justice department
286 won't act on spy-gate and Hillary-gate, and Schiff-gate and Biden-
287 gate — gates of hell all — Judicial Watch will.

288 Well, folks, we really do have good leadership in place and we have
289 been through these pandemics many times.

290 According to one email circular one of these pestilence outbreaks
291 occurs in every election year: SARS in 04, Avian-Flu in 08, Swine
292 Flu in 2010, Mers in 2012, Ebola in 2014 and 2018. ZIKA in 2016,
293 and now the CoVID-19 in 2020. Wow! What a coincidence!

294 Well, sort of. SARS was over in 03 but at least someone talked
295 about it in 04. The bird-flu of 08 — well, it was not a problem in 08,
296 but the Democratic Party mentioned it once or twice. The Swine
297 Flu was over in February of 2010! So, that's close! And MERS was
298 first diagnosed in 2012—in Saudi Arabia—and no one in American
299 politics mentioned it. It did arrive here in election year 2014, and I
300 think James Carny mentioned it, once. So! Ebola has been around
301 for a long time—first appeared in 1995—but it's true that two
302 Americans were infected with the Ebola virus in 2014, so, but in
303 2018, the only "democratic Republic" to have been afflicted with
304 any outbreaks of Ebola was the Democratic Republic of the Congo

305 and Uganda. I will say, however, that in 2014 National Public
306 Radio provided a story on how Ebola was used as a political chip by
307 both Democrats and Republicans in the 2014 election. In 2018, it
308 did not come up. As for ZIKA and 2016 — well, ZIKA has troubled
309 African continent countries since 1952. It first appeared in the US
310 in 2015 and 2016 through travelers. In 2016 a ZIKA outbreak in
311 the US peaked with over 5000 ZIKA virus cases reported—but it
312 only got one mention by Clinton and Trump during their
313 respective campaigns. So, here we are with COVID-19 and it will
314 come and go as all the others. One difference, however, is that we
315 can thank God we have an executive with the leadership skills of
316 Donald Trump to guide us through it.

317 Okay, I need to close the show for today. I want to emphasize the
318 importance that you take every reasonable precaution to protect
319 yourself and your family from COVID-19, and from the other flus
320 that are still out there — like SARS, like EBOLA, like MERS, all of
321 them. You do understand that all of these flus are still "out there"
322 lurking about in the wide world. Pray God will guide our medical
323 people to find a vaccine that will prove effective against this—and
324 remember, Jesus told us how it would be as we wait for His return.

325 He told us there would be wars, rumors of wars, with nation rising
326 against nation, and kingdom against kingdom, that there would be
327 famines, and pestilences, and earthquakes in divers places—he
328 assured us that these things are the beginnings of sorrows. And so
329 we should soberly reflect on His words when this sort of thing
330 comes up—Jesus told us this would happen. He told us these things
331 remind us of WHAT IS COMING — but He also purposely
332 assured us none of these things signal that the end has come—and
333 that means we will continue on! A vaccine will be forthcoming, and
334 we will live to see another pestilence come along before it's over.

335 Don't let the DEVILS that control the DEMONCRAT party scare
336 you into unreasonable panic and confusion.

337 We know they are planning to incite violence if they feel it's the
338 only way to overthrow the President and all those who voted and
339 who support him. They are not going to yield power back to the
340 right without a fight — and remember, they are of that spirit that
341 "takes the kingdom by force."

342 I heard from a friend who has some inside information about
343 things going on and he informed me of a conference call with the
344 White House and the CDC in which it was revealed that special
345 "urban disturbance squads" have been stationed throughout key
346 places in the country by the Department of Homeland Security to
347 respond if anarchy breaks out. The concern is that the threat seems
348 to be larger than we have adequate forces to address — can you
349 believe this? The concern is that the left will succeed to inspire
350 widespread panic that will lead to food shortages resulting in
351 anarchy and general panic in certain Urban areas — now, I hope
352 this is simply an effort to be prepared for a "just in case" situation,
353 and not because the Bernie crazies are actually mobilizing —

354 It's getting, forget it, it's gotten very, very, weird out there. The
355 Demoncrats are capable of going to the extreme of open violence
356 to take this country out from UNDER GOD and into
357 SOCIALISTIC TYRANNY — we had better watch and pray!

358 And by watch — I mean take all appropriate measures to be
359 prepared, and PRAY, I mean fervent, effectual praying!

360 I have lit the lamps in the Church belfry arch and now you let me
361 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
362 ON and you will ride like Revere and spread the warning,
363 (essentially, it means you agree with what I'm saying) or you say
364 LIGHTS OFF -- which means you reject what I'm saying and
365 disagree strongly with me. So, what will it be today, lights on, or
366 lights off?
