

Brain Massage: Show No. 774 The COVID Conspiracy: (Conclusion) The
Wallace Cry For Freedom!

Jerry Scheidbach

Original Air Date: 04.10.19

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.
4 Let's get started by listening to the President's Easter message for
5 us.
6 [INSERT PRES. SPEECH—this is three minutes or 1.5 to 2 pages.
7 Must conclude segment one at about 4 pages.]
8 Thank you Mr. President. A more clear declaration of the meaning
9 of Easter could not have been spoken. He referred to Jesus as our
10 LORD and SAVIOUR, and declared his death, burial and
11 resurrection. Well spoken, sir! Thank you!
12 I appreciate this President more every day. He wanted to see this
13 end before Easter—the devil and his minions closed ranks to make
14 very sure that did not happen, and it is very apparent that some
15 under the control of the antichrist spirit are doing everything they
16 can to shut down the Church for Easter — I'll give you some
17 examples in a moment. It broke my heart to hear our President say,
18 "Though we will not be able to gather together with one another as
19 we normally would on Easter," but I was greatly encouraged by the
20 sentiment expressed after this, when he said, however, "we can use
21 this time to focus on prayer, reflection, and growing in our
22 personal relationship with God, so important."
23 There are a few things I've been thinking about, that I've wanted to
24 speak to with regard to this pandemic, but I needed more time to
25 collect information and test my own spirit in the matter, and it's a
26 good thing because, my instincts were telling me there is
27 something very wrong with what is going on here, and, as I will

28 show, I was right. However, let me go ahead and explain something
29 before I launch into this.

30 Instincts are instructed by experience and past knowledge. It is
31 possible to become too confident of our instinctual response to
32 things. Especially as we get older. I've experienced a lot, and I've
33 accumulated a significant amount of information along the way—
34 and my instincts are instructed by these things so that something
35 in me knew there is something very wrong about our response to
36 this pandemic. I'm glad I waited, I'm glad I practiced my own rule
37 and tested my instincts and held back watching and praying and
38 studying this — because now I believe I can speak freely about this.

39 I'm not saying I have completely settled all the questions I have
40 about this, but I can say I am very clear on what I believe is really
41 important about all this. So, get ready for a deep massage —
42 because, it's time for your Brain Massage!

43 [TRUTH]

44 It's Easter! We should be talking about why we use that word,
45 maybe a little traditional banter about bunnies and Easter eggs—
46 right? Well, certainly we should be talking about our LORD'S
47 RESURRECTION and what that means. And, I will!

48 In fact, our local radio station owner, Shawn Knight, called me and
49 asked me to deliver a special Easter message broadcast live from
50 the studios of KUHL at 8:30 Easter Sunday morning. I really
51 appreciate Shawn and his willingness to step up at this time and
52 provide Easter Services for those who are shut in because of
53 COVID-19.

54 You will enjoy the message; it will be a straight up Easter message,
55 encouraging and hope-filled, and I hope you will tune in Sunday,
56 8:30 am on this station.

57 As I said, I have had some things stirring in my mind and heart
58 about all this COVID stuff for some time, but other issues were

59 more pressing and, frankly, it was not easy to get the clarity I like to
60 have because, well, let's just say, the Devil is wily and I'm still trying
61 to sort this out. But, I think it's time to openly address some of
62 these things. We will talk about LEADERSHIP, and FREEDOM—
63 I think Trump has demonstrated exceptional leadership in all of
64 this. Whatever you believe about the COVID-19 Conspiracies, a
65 bunch of nonsense cooked up in the fevered brains of guys and gals
66 wearing tin-foil hats—or serious exposure of a hidden agenda to
67 use this manufactured crisis as an excuse to push America into the
68 arms of Socialism and into the grip of tyranny. Or whether you
69 believe our government is responding appropriately to a genuine
70 health threat and that we should look at this similarly to how we
71 would if China had dropped a mega-ton bomb on New York and
72 was landing troops in Long Beach and raining rockets on LA — in
73 any case, the masterful manner in which Trump has calmly, but
74 with energy and laser like focus on taking effective action against
75 the enemy is reassuring. What I'm saying is, look at this guy. If this
76 is a "test run" to show if he has what takes to lead this country
77 through a genuine crisis — I say he has passed with a score of
78 110%. He has organized, planned, and executed with amazing
79 speed, and efficiency, and effect. Trump makes Obama look like
80 guy wearing girl pants riding a bike gleefully ringing his bike bell.
81 Remember where Obama was when Americans were dying of the
82 Swine Flu—playing golf and taking vacations. (Don't send me a
83 bunch of articles and links to videos where Obama was speaking
84 about the pandemic and so forth — please! I do my homework. I'm
85 not saying he did nothing—but when compare when he did,
86 between golf games and vacations, to the leadership Trump has
87 shown, you will see the difference between a "show-case President,"
88 and a REAL LEADER.

89 So, today, we will discuss questions like, have we lost sight of the
90 maxim that anyone who trades liberty for security gets neither and
91 deserves neither liberty or security? Anybody remember that one?

92 Does no one else notice that this pandemic is being handled way
93 differently than any before it, and that everything being done
94 advances the agenda of the left?

95 Am I the only American who remembers Reagan's warning about
96 how the left would implement socialism/communism in America?

97 Here, I have had to edit this because of time restraints, but I've
98 posted the full version on my FB page, Twitter and LinkedIn —
99 but, take a minute and hear Ronald Reagan's prescient warning:

100 [INSERT CLIP]

101 I'll need to go to break, so hold on because I've got some eye
102 opening insights for you coming up!

103 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
104 at the Lighthouse, your brain masseur, and Paul Revere's lantern
105 lighter, lighting the lamps in the church belfry arch, signaling the
106 enemy is on the march, an enemy that would steal from us our
107 liberty.

108 The answer to what is probably the most important question in all
109 of this continues to be elusive—what is fundamentally different
110 between COVID-19 and other pandemic flus — the nearest
111 comparable being the Obama Swine Flu. (If you winced at me
112 calling it the Obama Swine flu please remember that wince when
113 you begin to hear the Trump COVID-19 Pandemic, or the Trump
114 Flu. Okay?)

115 There seems to me to be an effort to erase the Swine Flu from
116 America's memory. I have pointed to a few examples the most
117 striking was the Science Daily that ostensibly provided a
118 comprehensive list of all the pandemic flus but literally skipped

119 over the Swine Flu — yeah, just left it out as if it never happened.
120 There has been an attempt, it seems to me, to categorize it in such a
121 way to remove it from any discussion of flu pandemics. Hmmmm?

122 And I've noticed that any attempt to bring up the Swine Flu is met
123 with scorn, dismissal, and, sometimes, anger. Why?

124 And think about this. With COVID-19 they want to count every
125 death as a COVID death whether or not the person actually died of
126 the disease—if they can be said to have the infection, and die for
127 any reason, they are counted in the statistics of COVID deaths. I
128 think Trump and Pence insisted this be made public, and the
129 explanation is plausible—the reporting mechanisms in place are
130 such that otherwise we will not have an accurate number of
131 positive cases—???? But, I think that's double talk. How hard would
132 it be to simply add a check box to the reporting forms for check
133 here if this guy tested positive for COVID-19? So, not sure I'm
134 buying this. I wonder if this is not being done to ratchet up the
135 numbers for this flu as high as possible. Why would anyone want
136 to do that? Remember, friends, when something does not make
137 sense, ask, what sense does this make?

138 So, you understand that they have not actually shown us why they
139 believe COVID-19 is so over the top dangerous — more than any
140 pandemic every in our history, or even if they could show,
141 scientifically, that this flu is so much more serious than the Swine
142 flu — they have provided justification for the destruction of the
143 American economy and virtual house arrest of its citizens, the
144 forced quarantine of healthy people, and the gross encroachments
145 on our liberties—trying to use this to take away our inalienable
146 rights protected by our first and second amendments.

147 No one has even tried to say here is the science showing that
148 COVID-19 is a far greater threat than H1N1 (Swine Flu).

149 Look, the Swine flu killed 17,000 people, that seems to be the
150 number every has settled on, and hospitalized 275k and infected
151 60.8 million Americans — that sounds pretty serious to me.

152 We are nearing what everyone is calling the peak of this infectious
153 flu and there are a whopping 1,681,964 confirmed cases —
154 WORLD WIDE. That's a long ways from 60.8 million in
155 AMERICA ALONE for the Swine Flu. And it's not testing
156 disparity—we have tested more aggressively than anyone else, and
157 back in Swine Flu days, the testing issue was even more of a
158 problem in most nations.

159 Listen to Dr. Fauci speaking about the Swine Flu during the
160 Obama administration:

161 Here is his advice for how to avoid getting sick or spreading the
162 disease:

163 "1. Wash your hands frequently. 2. Avoid contact with sick people
164 in crowded places where someone is sick, but, and I quote, "Of
165 course you can't isolate yourself from the rest of the world for the
166 whole flu season, but you should use good judgment."

167 Oh, that's interesting! How about self-quarantining? He said, "Stay
168 home from work or school IF YOU ARE SICK."¹

169 Another thing you will notice during the Swine Flu under Obama's
170 administration, the focus was on progress toward getting a vaccine
171 and getting everyone vaccinated. The tone was very low key.

172 Here you go! When asked about whether people should be
173 concerned about the risk of receiving the vaccination, he said, "we
174 are in the middle of a pandemic and we are seeing a lot of people
175 getting infected, and some of them are getting seriously ill,
176 particularly people in high risk categories, pregnant women,
177 children, and people with underlying conditions ..." What is

¹ https://www.youtube.com/watch?time_continue=8&v=hsXEgJqR_vY (5:30 minutes into the video)

178 different between what they were saying about the Swine Flu and
179 COVID-19? Nothing!

180 Then, get a load of this that I found from way back in the day of the
181 Swine Flu and Fauci reacting to people who were concerned about
182 taking the vaccination they trotted out—in a mildly frustrated tone,
183 Fauci said, "If this H1N1 pandemic influenza virus had appeared in
184 November or the beginning of December we would have
185 incorporated it into one of the components of the seasonal flu and
186 no one would be asking the question is this a brand new vaccine
187 for a brand new virus. Because the viruses change each year and we
188 change the vaccines each year."²

189 In other words, as far as Fauci was concerned, the Swine Flu
190 pandemic was another flu—like other flus that have come along.
191 When they first appear, the population's herd immunity is not
192 prepared to fight it — over time, the populations begin building
193 antibodies, naturally, by the way, the build resistance to it, it then
194 settles into the family of flus that take turns rising up every flu
195 season — you understand we have lived with the FLU SEASON
196 thing for a very long time — every year! No one has shown us why
197 this one is so different from the Swine Flu and I've waited long
198 enough for the answer to that question to have become convinced
199 the reason they will not directly, unequivocally, state the danger of
200 this flu so far exceeds Swine Flu is because they cannot
201 scientifically prove it, or show it. So they do not want to answer
202 that question. Either the devastation of the Swine Flu could have
203 been greatly mitigated with all these draconian measures but
204 protecting the Obama Administration was more important than
205 saving American lives, or these draconian measures have very little
206 to do with addressing the danger of the Swine flu and everything to
207 do with addressing what the Liberals perceive is the greater
208 danger—another four years of President Trump.

² <https://www.youtube.com/watch?v=mhh62fqioAA> (4:42 minutes into the video)

209 Because there is one thing I know is different between the Swine
210 Flu and COVID-19. Obama was president during the Swine Flu
211 and Trump is president now.

212 Let's turn our attention in another direction for a minute.

213 Why is Xi (she) Jin'ping smiling so broadly these days? Every
214 picture you see, that evil, dictator, Christian hating, and murdering
215 man goes about grinning — you know, sort of like the cat that
216 caught the canary, or, should I say, the Dragon that caught his
217 quarry. (Speaks of the action of going after something — digging in
218 the earth for minerals, etc. or to go hunting.)

219 Is he enjoying the reports of seven or more American police
220 officers ganging up on a man riding a bus without a mask yanking
221 him off the bus—one officer grabbing the guy by the leg and
222 screaming at him to step off the bus — stupid! How about
223 Christians being fined \$500 for attending a drive in church service.
224 Yeah, Temple Baptist Church gathered to their church and
225 remained in the cars with windows rolled up, to listen to their
226 pastor's message on the radio and the dictator of Greenville, MS
227 decided to have the police go issue tickets to Christians who dared
228 to go to church—even though they were practicing social
229 distancing.³

230 If you believe the COVID-19 invisible to the naked eye virus can
231 travel from one closed car into another closed car and infect people
232 I'll bet you are an unbeliever that does not believe in God because
233 you can't see Him or prove His existence. Because, in my
234 experience, the "fool has said in his heart, there is no God" and only
235 a very foolish person would think Christians ought to get a ticket
236 for sitting in their closed car listening to a sermon preached over
237 their radio — but it's perfectly understandable to you that liquor
238 stores remain open.

³ https://www.theblaze.com/news/church-members-get-500-tickets-for-sitting-in-their-vehicles-with-windows-closed-during-radio-service-in-church-parking-lot?utm_content=bufferel70d&utm_medium=referral&utm_source=twitter&utm_campaign=tw-theblaze

239 The infamous governor of Virginia has declared Churches non-
240 essential and bans services that include more than 9 people, and
241 violators are punished with up to a year in jail and liable to also be
242 fined 2500. Exempted from the law are liquor stores—don't touch
243 king alcohol, but you can snub King Jesus. Oh, a little something
244 you should know. In Virginia, liquor stores are owned and
245 operated by Virginia's state government, which holds a monopoly
246 on that State's liquor business. So we can see what "spirit" they are
247 of.⁴ Aye?

248 And since his edict, the government owned liquor stores have
249 raked in over 30 million dollars—maybe Northam can run on how
250 well his liquor stores did during his handling of the pandemic.

251 Oh, and of course murdering babies, that's essential too. But
252 protesting the murder of babies, that's verboten in the goose-
253 stepping Northam administration.

254 What happened in this country? Where is it written in the
255 Constitution that our liberties are protected except in emergencies.
256 We need to have a very serious discussion in this country about the
257 meaning of inalienable rights, and the willingness of the
258 government employees we hire to trust the people to make good
259 decisions when they have truthful information—

260 Michigan governor Gretchen Whitmer directed residence to remain
261 in their homes and stop traveling between residences in the State.
262 "All public and private gatherings of any size are prohibited."⁵

263 It went from suggestions, recommendations, you know, they way a
264 servant (government leaders appointed by the People) might advise
265 a master (WE THE PEOPLE, the holders of ultimate power in our
266 government)—to they are the MASTER and YOU ARE THE
267 SERVANT.

⁴ <https://nationalfile.com/ralph-northam-says-churches-are-non-essential-bans-services-of-10-or-more-people/>

⁵ https://www.theblaze.com/news/michigan-democratic-gov-gretchen-whitmer-bans-travel-between-households-statewide?utm_content=buffer9f9db&utm_medium=referral&utm_source=twitter&utm_campaign=tw-theblaze

268 These stories are all over America. In Santa Ana, CA the "Police
269 Dep crack down on the annual tradition of cars cruising on Easter
270 Sunday" ... "People may not leave their homes for ... drive-up
271 services or to pick up non-essential items such as pre-packaged
272 Easter eggs or bags filled w/ candy & toys."⁶

273 That's right—you stay home! You are grounded!

274 I understand some are issuing "papers" declaring their are outside
275 conducting business covered under essential activities—so will the
276 police soon be stopping you with "papers please."

277 I totally get the importance of taking reasonable precautions and
278 cooperating with efforts to curb the spread of this or any disease,
279 but it is becoming increasingly obvious this has nothing to do with
280 protecting health and everything to do with finding out just how
281 far the dictators-in-heart Democrats can stretch us on the stretcher
282 before Americans start crying —

283 FREEEEEEEEEEEDOOOOOOMMM.

284 I have lit the lamps in the Church belfry arch and now you let me
285 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
286 ON and you will ride like Revere and spread the warning,
287 (essentially, it means you agree with what I'm saying) or you say
288 LIGHTS OFF -- which means you reject what I'm saying and
289 disagree strongly with me. So, what will it be today, lights on, or
290 lights off?

291 Email me by going to our web site at branmassage.net. That's
292 brainmassage.net. Find the CONTACT button and send me an
293 email.

294 You can leave a message on our Lights On hotline: 805.314.2114.

295 God bless you. God bless America! I'll see you in Church.

⁶ <https://www.latimes.com/california/story/2020-04-08/southern-californi...virus-restrictions-for-easter-sunday-parks-closed-no-drive-in-services>

296
