9 That's in Arroyo Grande, on the corner of Grande and Oak Park,
10 from 1-3 Saturday, May 15.
11 The Judicial flimflam persecution of General Flynn continues.
12 Phony Fauci throws Trump under the bus? How Fauci lied, and
13 people died.
14 LA Mayor threatens small business with cutting off their utilities

16 The CA Governor's emergency powers reexamined in the light of

18 On the lighter side: My personal experience at COSTCOMMIE and
19 Home DESPOTES.
20 [TRUTH]
21 The Judicial flimflam persecution of General Flynn continues. Back
22 in 2014, Flynn got crossed up the Obamster — the official story is
23 that Flynn had a bad attitude, but the rumors are that he was
24 meddling in the Obama-Biden-Brennan skimming scheme in

25 which these guys were siphoning off billions of foreign aid money
26 into their own, and their cronies' pockets. So, we'll see!!!!

27 Whatever it is, it must be huge! We know Flynn is susceptible to
28 being controlled by intimidation when it comes to his family—
29 that's how they finally beat him into signing the phony admission.
30 He could not bear to have his family dragged through all this
31 devilish and wicked business—he did not lie to the FBI—that's
32 Hillary's thing. But why?

33 After they finally got Flynn where they wanted him—silenced,
34 discredited, jailed, with a criminal record—and who knows what
35 they have threatened to do to his family if he said anything, by the
36 way—that's yet to be brought out into the LIGHT—when Trump
37 became President, Obama "warned him not to hire Flynn."
38 Hmm? That might have got him the job! See the picture of
39 Trump shaking Obama's hand in White House after election?
40 Neither is happy, and that happened to be the pic used for the
41 article that tells us Obama warned Trump — don't hire Flynn?

42 They had a meeting to discuss what to do about Flynn—Biden,
43 Brennan, Comey, Clapper, and Obama's chief of staff,
44 McDonough. Uh huh! And you heard about what Comey did after
45 this meeting, right? Yeah! He sent two FBI agents to visit Flynn on
46 a mission to get him fired, and/or to lull him into a perjury trap—
47 try to trip him up to say something that was not exactly factual so
48 they could prosecute him for lying to the FBI. They documented
49 this was their mission. And it's all blowing up on them now. But
50 the question keeps coming back to why? Why are these wicked
51 people so obsessed with Flynn?

52 So, was Obama concerned about Flynn becoming part of the White
53 House staff because that provide the legal cover Flynn might be
54 able to use to expose the Obama-Biden-Brennan skimming scam?
55 What makes Obama so obsessed with Flynn?

56 And after the DOJ receives these revelations about how the FBI set
57 out to entrap Flynn, and drops the charges against him, a liberal
58 judge steps in to defy the order, and the DC Circuit's decision, and
59 attempt to delay the formalization of his release by legal maneuvers
60 that are by all accounts illegal, and in defiance of law—so, what is it
61 about Flynn that has these people so obsessed with destroying him?

62 And when will we discover what threat against his family has been
63 used to cow this great man into submission?

64 The liberal news media is crowing about Flynn's case not being
65 over until their liberal judges says it's over — but I say, this case is
66 not over until all the TRUTH about why the liberals are sooooo
67 afraid of Flynn is brought out into the light.

68 The judge is hanging on to Flynn's admission that he lied to the
69 FBI. As I'm sure you know, that is a very old COMMUNIST trick.
70 You know, just sign this confession and we wont hurt you
71 anymore. And then when you sign it, they parade the "signed
72 confession" about as PROOF they were justified in all they did to
73 you. NEVER fall for that one, folks.

74 Maybe it's just a case of pride—like WITCH GRETCHEN of
75 Michigan. Hear the latest there? A 70+ year old barber decided to
76 open his shop because he has to make a living. The legislature in
77 Michigan has refused to extend her lockdown order but this she-
78 devil insists that as goddess-governor of Michigan, she is above the
79 law. She sent the police to close him down, but the police refused to
80 execute and said they would not do it because the Governor has no
81 authority to keep the man from working. She tried to get a district
82 judge to order him to shut his shop, the judge ruled against her and
83 said she has no authority to shut down his barbershop. So this
84 wicked witch of the East Coast got the licensing bureau — you can
85 usually count on liberal bureaucrats to do the bidding of their evil
86 masters —she got them to revoke his license to practice hair
87 cutting—or barbering—and threatened to fine him \$1000 per

88 haircut, or it might be per day—he is still trying to sort all that
89 out—and put him in jail for one year for each offense. There is no
90 known prior relationship between this hapless Barber and Witch
91 Gretchen—it appears, as he put it, he has become a worm in her
92 brain—she is fixated on beating Michiganders into submission to
93 the goddess of Michigan—and it's so typical. Those who get power
94 that refuse to bow the knee to KING Jesus invariably become little
95 despots demanding all around them bow their knees to them and
96 their god—Tyrannus.

97 Phony Fauci throws Trump under the bus? He lets liberal reporters
98 bait him into saying if Trump had acted sooner. CNN's Jake
99 *Trapper* asked a leading question of Fauci: *what might have*
100 *happened if the federal government promoted social distancing in*
101 *February rather than in March, when the White House rolled out it*
102 *"15 days to slow the spread" guidelines?* (I'm telling you folks, it
103 looks like Trump is being set up—pray it backfires on these wicked
104 people. — But, back to Fauci.)

105 Here is what Fauci answered: “It’s — it’s very difficult to go back
106 and say that. I mean, obviously, you could logically say, that if you
107 had a process that was ongoing, and you started mitigation earlier,
108 you could have saved lives,” Fauci said, and if he stopped there, we
109 would be talking about how Fauci has done this several times,
110 taking the bait on a leading question and undermining Trump, and
111 I would begin to say this is a pattern with this guy, he does not
112 learn, or, more likely, he is playing along with the liberal agenda
113 carefully keeping his heels on the right side of the line he is
114 stepping on and wondering outloud about what team this guys is
115 on—is he really pulling for America, or is he pulling for Bill Gates
116 and his depopulation agenda foundation, but he did not stop there,
117 he added: “But there was a lot of pushback about shutting things
118 down back then.”

119 This clearly positions himself as having recommended an
120 economic shutdown to protect us all from COVID but there was "a
121 lot of pushback about shutting things down back then." This man
122 is a traitor to the country and is in collusion with those who want
123 to destroy the American economy in order to make Americans
124 angry at Trump—so the liberals are going to be in uproar that
125 Trump did not do enough, and the conservatives are going to be in
126 uproar that he allowed these fakers to fool him into participating in
127 the total destruction of the American economy — but I'm praying
128 and you are praying that this will all blow back on them.

129 You might have seen CNN's timeline on the COVID thing. It's a
130 joke, just like their entire organization—it's FAKE NEWS. I've got
131 it here for you if you want to read through it.¹ They conveniently
132 left out the Fauci foibles that any honest news organization would
133 have included in any meaningful timeline.

134 But to appreciate it, we need to consider what Fauci is saying now.
135 He is issuing dire warnings that if we open too soon, lives will be
136 lost. (Well, Dr. Fauci, if we continue to encourage people to use
137 marijuana and drink alcohol calling them essential business during
138 this outbreak, lives will be lost, since those things actually suppress
139 our immune system. And, you know, if you let people live and
140 breathe, lives will be lost ... anyway, the point is, it is looking more
141 like he is part of the Deep State that is working to destroy the
142 American economy and just like I predicted, he is now apparently
143 beginning to throw Trump under the proverbial bus.) One more
144 thing to know before I begin this expose' — on Easter, Fauci was
145 being interviewed by a liberal hack who asked him when did he
146 know this coronavirus was a serious threat. Guess what he said?
147 Well, okay, I hate that question too—but it sets you up to give
148 special attention to the answer — right? No! Well, okay, listen
149 closely anyway. Hehe. Fauci said "we" — that means he and his

¹ 779.31.10 <https://www.cnn.com/interactive/2020/03/politics/coronavirus-trump-cdc-timeline/>

150 cronies knew we were dealing with something very serious in about
151 mid January. Mid January? Oh, really? Hmmmm. Well, then how
152 do you account for this, Mr. Fauci?

153 On January 21, 2020, that's a little past mid January, right? Fauci
154 was asked about the new coronavirus and he said Americans do
155 not need to worry about it. Take it seriously, and take precautions
156 as you would any flu during an outbreak — but Americans did not
157 need to worry.

158 January 29, 2020, okay, now we are definitely past mid-January,
159 and Fauci was asked again whether Americans should be
160 concerned, and he said the risk is very low for Americans, no
161 extraordinary mitigation efforts were recommended. The top
162 infectious disease doctor in the country assured us, use reasonable
163 precautions, but, otherwise, no need to change your regular
164 activities.

165 January 31st, Trump restricted flights coming in from China and
166 declared a public health emergency. The MSM criticized him for
167 restricting flights from and to China. They did not see this as a big
168 deal then, either.

169 February 29, okay, now we are way past any mid-Jan thing, and
170 Trump has taken action, and called this a national public health
171 emergency, and Fauci was asked about the new coronavirus and
172 again pooh-poohs any concern—says, no need to change anything
173 you are doing on a day to day basis, a concern, of course, but no
174 dire warnings of millions dying.

175 March 8, Fauci pooh-poohs the idea of Americans needing to wear
176 masks. He mentions the concern that there is a mask shortage, and
177 they should be left to those who "really need them."

178 March 13, Trump declared a national emergency over the COVID-
179 19 pandemic and soon thereafter the economy was destroyed by
180 liberal governors overreaching their authority.

181 Trump began making overtures toward re-opening the country,
182 and Fauci began making subtle counter overtures.

183 March 30, Fauci rolls out the worst-case scenario that millions will
184 die thing saying it is not likely, but more likely around 100-200
185 thousand — but did not want to be held to that either because, the
186 fact is, we cannot predict. The fact is, he hasn't got a clue. The fact
187 is, there is only one thing he knows for sure, and that is, don't open
188 to economy.

189 April, CDC updates their recommendations and now recommends
190 all Americans wear masks — you see, the shortage was addressed.
191 So now you all should wear masks. It's no big deal, does very little
192 for you, blah, blah, — now shortage is over, okay, now, oh my, you
193 had better wear a mask —

194 April 12, Fauci is talking about how he knew this was a big
195 problem in about mid January, and today he is testifying about dire
196 warnings of death if the country moves forward with reopening the
197 economy.

198 If we give Fauci the benefit of whatever reasonable doubt we may,
199 if we say some of this is naiveté and he was being baited by wicked
200 propagandists with the MSM with leading questions, and he had a
201 lapse of memory about when he understood this new coronavirus
202 was a serious concern, and he really did not mean to throw Trump
203 under the bus, and he is the "nice guy" that Trump believes he is—
204 the bottom line is Trump was pretty much ahead of all of them
205 from the start and throughout all this. In other words, maybe lives
206 would have been saved if Fauci had not been lying to people about
207 this disease. Including the plan to lie about the number of COVID
208 deaths—but we've brought that out fully before — so, let's take a
209 break. I'll be right back.

210 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
211 at the Lighthouse, your brain masseur, and Paul Revere's lantern

212 lighter, lighting the lamps in the church belfry arch, signaling the
213 enemy is on the march, an enemy that would steal from us our
214 liberty.

215 Because my RIGHTS are essential, and EVERY JOB IS
216 ESSENTIAL! And CHURCH is ESSENTIAL, and no politician
217 should have the power to use an emergency to shred the
218 Constitution, I'll be at the next OPEN CA Rally in Arroyo Grande,
219 on the corner of Grande and Oak Park Saturday between 1-3.
220 That's in Arroyo Grande, on the corner of Grande and Oak Park,
221 from 1-3 Saturday, May 16.

222 Man, I've just got too much material here today.

223 Let me go over Article 13, the Emergency Powers act — specifically
224 section 8627.5 and 8629. The rest of it tells us the Governor has the
225 power to declare a State of Emergency and explains how this is to
226 be done, and defines the extent of his powers in such emergency.

227 Section 8627.5 lays out the extent and limits of the governor's
228 powers during an emergency, and 8629 stipulates how a state of
229 emergency is terminated.

230 According to CA law, the governor can declare a state of
231 emergency for any reason he deems appropriate. And he has the
232 power to terminate it when he deems the emergency is over.

233 There is no sunset clause on a governor's declaration. In Michigan,
234 I think it's sixty days, after which it must be ratified by the State
235 legislature. That legislature refused to extend the order, but they
236 are fighting about that right now in Michigan.

237 In CA it's a much better situation; at least it would be if we actually
238 had a balance of power in our legislature. Our laws provide for the
239 legislature to convene at any time after the governor declares an
240 emergency and end it by simply passing what is called a concurrent
241 resolution. A resolution does not have the force of law, and does
242 not require a signature by the Governor. By concurrent is meant

243 both chambers pass the resolution concurrently. This means the
244 legislature can end the state of emergency if both chambers will
245 pass a resolution declaring it over.

246 This is good, because it means that if a governor went crazy and
247 declared an emergency over a virus that kills about 2% of those
248 infected, and is essentially harmless to children, and of only any
249 real concern to older people and sick people, whose safety could
250 easily be addressed without draconian measures like suspending
251 the Constitutional rights of all Californians arbitrarily and
252 indefinitely (until further notice) — putting Americans in virtual
253 house-arrest and picking and choosing what businesses are
254 essential and which are not, and saying the small business owner
255 must close, but the big box stores can stay open, where hundreds
256 can gather in WalMarts but church assemblies are prohibited (an
257 unequal application of law which is forbidden by the Constitution)
258 and if this guy went on and decreed Abortion, Marijuana and
259 booze essential—since one kills babies, something COVID does
260 not do, and the other two suppress the immune system making
261 users more vulnerable to infection—gotta pump up the case
262 numbers, but the Barber shops can't be open, of course, for their
263 own good, and go on with policies that are destroying the
264 livelihood of thousands of Californians but by all means protect the
265 jobs of every single government employee—(I don't think any
266 government employee should lose their job over this, and
267 NEITHER SHOULD THE REST OF CALIFORNIANS LOST
268 THEIR JOBS OVER THIS) — BUT, of course, from a liberal
269 Governor's point of view, all government employees are essential—
270 BUT YOUR JOB IS NOT ESSENTIAL—right? gotta keep the
271 DMV revenues coming in, gotta make certain those liquor licenses
272 are getting attention, and of course all the teachers are going to get
273 paid anyway, cause, well, they are important, and all the
274 bureaucrats at the department of energy, all of them, need to be on
275 the job, need a full staff at fish and game, need a full staff at records

276 offices — there is not a single government employee that loses
277 their income but VIRTUALLY EVERY SMALL BUSINESS
278 OWNER IS GETTING WIPED OUT — well, you see, this
279 provision allows the representatives of the PEOPLE to convene and
280 pass a concurrent resolution ENDING THIS IDIOCY.

281 But that would only happen if you had a balance of power in
282 California legislature, or, the other way this could happen, is if you
283 had a REPUBLICAN controlled legislature—yeah, that would do it
284 too. Because conservatives don't believe in overturning the
285 Constitution!

286 Our liberal dominated CA legislature is not going to overturn our
287 liberal governor because they believe the way he does. They want to
288 destroy the California economy totally, they already have us
289 teetering on bankruptcy, so they want to go ahead and go for
290 broke. Crash the economy, drag the rest of America down with it,
291 somehow contrive to blame Trump for it, get Biden or some other
292 Soros-Gates dupe into office, and then socialize the government
293 and BAIL OUT CALIFORNIA.

294 God in Heaven helping us, we will break from the oppression of
295 illiberal liberalism and vote for Trump in 2020 who will then be
296 empowered to CLEAN HOUSE and Drain that stinking swamp.

297 But what Section 8627.5?

298 ***§ 8627.5. Authority of Governor; nonsafety regulations on***
299 ***delivery of food products; pharmaceuticals; and other emergency***
300 ***necessities; form of orders and regulations; effect; duration***

301 Let me stipulate that I understand this heading establishes the
302 context for what follows applies to the delivery of food products,
303 medicine, and other emergency necessities and the government
304 bureaucracies that regulate those activities. But, well, just watch!

305 I must read fast because of time, but I'll slow down where you need
306 to hear it, then you can get this from our website and read the
307 whole thing.

308 (a) The Governor may make, amend, or rescind orders and
309 regulations during a state of emergency that temporarily suspend
310 any state, county, city, or special district statute, ordinance,
311 regulation, or rule imposing nonsafety related restrictions on the
312 delivery of food products, pharmaceuticals, and other emergency
313 necessities distributed through retail or institutional channels,
314 including, but not limited to, hospitals, jails, restaurants, and
315 schools. The Governor shall cause widespread publicity and notice to
316 be given to all of these orders and regulations, or amendments and
317 rescissions thereof. (b) The orders and regulations shall be in
318 writing and take effect immediately on issuance. The temporary
319 suspension of any statute, ordinance, regulation, or rule shall
320 remain in effect until the order or regulation is rescinded by the
321 Governor, the Governor proclaims the termination of the state of
322 emergency, or for a period of 60 days, whichever occurs first.

323 So, first, if we limit the stipulation of statutes, ordinances,
324 regulations, or rules, to bureaucrat officials exercising oversight in
325 the areas mentioned, delivery of food, medicine, and so forth, that
326 is the statutes pertaining to their authority and then say this does
327 not apply to those statutes, ordinances, rules and so on that secure
328 our LIBERTIES that are protected by our California Constitution
329 and Constitution of the US, then pray tell, what were these
330 nincompoops thinking?

331 Local statutes and so forth are soooooo vitally important to protect
332 that you have to have a sunset clause stipulating a LIMIT to how
333 long the governor can suspend those laws — IN OTHER WORDS
334 PROTECTING THE RIGHTS OF BUREAUCRATS TO
335 EXERCISE THEIR CONTROL OVER OUR LIVES is too
336 important to allow any governor to just come along a indefinitely

337 suspend their rights — BUT BLESS GOD WHEN IT COMES
338 YOUR RIGHT TO FEED YOUR FAMILY, OR TO SIT ON THE
339 BEACH, OR WALK AT LIBERTY, OR GO TO CHURCH, OR IN
340 OTHER WORDS, LIVING YOUR LIFE AS A FREE MAN OR
341 WOMAN, YOUR FUNDAMENTAL INALIENABLE RIGHTS —
342 those can be suspended indefinitely —

343 How about we take a common sense approach to this, and read the
344 clause that says "The temporary suspension of any statute,
345 ordinance, regulation, or rule" to mean in fact ANY STATUTE —
346 — including those that provide security for our fundamental,
347 inalienable RIGHTS protected by both the California and the US
348 Constitution with all it's amendments—a la—the Bill of Rights?
349 Let's suppose the Californians who put this together had
350 ENOUGH SENSE TO UNDERSTAND YOU CANNOT GIVE TO
351 ANY MAN SUCH ABSOLUTE POWER ALLOWING HIM TO
352 INDEFINITEY AND ARBITRARILY SUSPEND OUR RIGHTS —
353 That is insulting to the intelligence of any rational human being
354 that California would take measures to protect the rights of
355 bureaucrats to boss us around, but would carelessly allow our
356 fundamental, inalienable and natural rights to be put under the
357 absolute control of any man.

358 So, with regard to natural law, and the recognition that our
359 RIGHTS are FUNDAMENTALLY connected to our NATURE AS
360 HUMANKIND, and in recognition of the truth that we are
361 ENDOWED BY OUR CREATOR WITH CERTAIN
362 INALINEABLE RIGHTS — rights that are inalienable cannot be
363 ALIENATED from us by ANY MAN for ANY REASON He
364 contrives. And so by the law of nature and nature's GOD, and in
365 accordance to spirit of CA LAW as stipulated in Article 13 — I
366 declare California FREE!

367 And I say any provision in his stay at home order that violates
368 these superior laws are and of right ought to be null and void call

369 on our Governor to rescind them forthwith, and if he refuses, the
370 legislature should be demanded by the PEOPLE they represent to
371 act with their legislative power to declare this emergency ended
372 according to Article 13, and if they refuse to do that, WE THE
373 PEOPLE must simply remind all of them that the power is vested
374 in THE PEOPLE and not in masters; that we appoint MINISTERS
375 not MASTERS.

376 Well, I'm not going to have the time I wanted to tell you about my
