

Brain Massage®: Show No. 805 The Adonijah Coup / Evidence & Proof—Are "They" Are Trying to Steal This Election?

Jerry Scheidbach

Original Air Date: 11.21.20

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.

4 Well, well, well! It's TRAITORS versus PATRIOTS. THEY versus
5 WE THE PEOPLE! But all is WELL with my SOUL! God threw His
6 boulders at the enemy of liberty. King Jesus set His grip upon HIS
7 SWORD and turned it upon the WICKED! They are scattering. I'll
8 explain!

9 As we talk about "servers" and treason! About Georgia exploding!
10 About Never-Trumpers crawling on their knees to Trump
11 Supporters — NO GOP without TRUMP!

12 Trump wins — America wins — but the BATTLE FOR AMERICA
13 WILL CONTINUE! The *Adonijah* conspiracy will fail because the
14 KING will PREVAIL.

15 Democrats call Thanksgiving a myth! They hate God, and
16 Thanksgiving is one of the godliest holidays on our calendar, so I'm
17 not surprised. The children of disobedience rose in great force to
18 overwhelm us and cower us, and STEAL OUR LIBERTIES. But,
19 don't despair. KING JESUS RULES!

20 Okay, we probably won't get to the newest revelations, the latest
21 scientific studies showing masks are not only ineffective as a
22 preventative of air-born virus infections, but actually HARMFUL
23 to our health, and likely to INCREASE exposure rather than
24 decrease it. I'll cover that in a VISIT — but today, I want to do my
25 best to help you understand what Dominion does not want you to
26 know about their voting machines.

27 It's time for your Brain Massage.

28 [TRUTH]

29 FIRST: Dominion refused to appear before the PA congress to
30 testify. They were invited to offer an explanation for the anomalies
31 discovered in the vote. Stuff we've been hearing about—well, that is
32 if you listen to REAL NEWS—if you are hiding in the FAKE
33 NEWS BUBBLE you probably don't know anything concrete about
34 any of this, and have been programmed to simply repeat to
35 yourself over and over—no voter fraud—no voter fraud—nothing
36 to see here—no evidence of voter fraud—and not enough voter
37 fraud to change the outcome—no hard evidence—and you can
38 trust the results because "robust safeguards" are in place to insure a
39 fair and honest election—(or something like that. I noticed FB is
40 not posting that one, at least after looking about twenty posts
41 where I would expect to see that notice. I found only the one that
42 takes you to a page where BIDEN is the PROJECTED WINNER—
43 with articles headed *How Biden Won!* and so forth).

44 So—why did Dominion at first agree to testify before the PA
45 congress, to answer questions about the integrity of their voting
46 machines, and then at the last minute bail out! Actually, run and
47 hide. Yeah! They are turning tail and literally fleeing the
48 jurisdiction — meaning they are removing themselves from the
49 reach of the LAW. They are lawyering up! They are closing offices
50 and moving out! Reports are of some fleeing the country.
51 Dominion is on the run. (The KING has pointed His SWORD at
52 them—He poked them—their eyes opened to SEE the JUSTICE
53 COMIN FOR THEM.

54 Sidney Powell tells us some Dominion employees have sworn
55 affidavits testifying to corruption of Dominion Election Systems.

56 Those of us who do not have our heads stuck in the shifting sands
57 of FAKE NEWS are getting the TRUTH, and the truth that sets you
58 free keeps you FREE!

59 So, by way of introduction to my discussion of how these voting
60 machines were used to steal the election—first, did you hear about
61 Dominion agreeing to testify before the PA congress, but then
62 cancelled and now they are no where to be found? Why would they
63 do that? If Dominion has nothing to hide, why are they hiding?

64 SECOND: The scuttlebutt has been that Dominion voting
65 machines, along with the others that use software called
66 Smartmatic, send our votes to an offshore server. The votes are
67 stored on that offshore server, and tabulation results are kicked
68 back to the American machines. That *was* scuttlebutt! Rumors!
69 Those rumors have been verified. The servers have been seized. It
70 was discovered that the CIA owned these servers. Yep! These
71 servers that were kept in Frankfurt, Germany, were CIA servers.
72 You know these servers were put in place by CIA, under guys like
73 Brennan, during the OBAMA years! That's who I mean by
74 "THEY." *They* are TRAITORS—who violated their oath to defend
75 the Constitution, you know, that old outdated document drafted
76 by dead white men. These are the BAD GUYS. "WE" on the other
77 hand refers to "WE THE PEOPLE," PATRIOTS, lovers of America
78 as founded, defenders of the Constitution—protectors of liberty.
79 WE are the good guys.

80 Earlier, when this rumor rolled out, my friend and fellow
81 PATRIOT Matt Morgret informed me it was at that time a rumor
82 and said if it's true, we don't know whether the good guys in our
83 government got them, or the bad guys. Then Sidney Powell was
84 asked whether such a server existed and if it had been seized. She
85 verified the servers were seized but expressed concern that at that
86 time she was unsure whether THEY got them, or WE got them.

87 Today we received confirmation that WE GOT THEM. They are in
88 the possession of our DOJ and under the provenance of our
89 President—America friendly forces have them!

90 Included in the earlier scuttlebutt, the rumor circulated from
91 highly reputable sources, according to Louis Gohmert about a
92 week or so ago, included revelations about this election found on
93 the servers. The data from the servers show that TRUMP won by a
94 Tsunami — 400+ Electoral Votes. This is not yet confirmed! WE
95 now know the servers exist, that they were part of a CIA plot to
96 control our elections, and that they are under the control of
97 AMERICA FRIENDLY FORCES — but the contents of the servers
98 is not yet made public. If this part of the earlier leaked report
99 proves true, it will prove that what is going on in America right
100 now is a COUP by election FRAUD, an effort to STEAL our
101 ELECTION — to disenfranchise the American voter — to take
102 away our RIGHT TO CHOSE OUR LEADERS — to turn us into a
103 Venezuela — to bring WE THE PEOPLE under a socialist
104 dictatorship, you know, like what we have in CA under Newsome
105 (haha. Well, that's not far off!)

106 So, first, the questions raised by the impossible anomalies we have
107 found in PA, MI, WI, GA, NV and possibly also AZ, related to the
108 Dominion voting machines used in these states were supposed to
109 be answered by Dominion officials—they were scheduled to testify
110 before the PA congress—but at the last minute cancelled and
111 scattered. They are emptying offices, no doubt trying to destroy as
112 much evidence as they can, and running to hide. If they have
113 nothing to hide, why are they hiding?

114 Second, we now KNOW for a FACT that our votes were sent to be
115 stored on an offshore server. (These are kept, no doubt, to secure
116 leverage over the politicians they PUT INTO OFFICE.) We know
117 that these were CIA owned servers, meaning the OBAMA CIA -
118 the DEEP STATE CIA were involved in this operation. And now
119 we know that WE got the servers from THEM. America has seized
120 the COMMUNISTS servers where the true election results are
121 stored.

122 Now we wait for the confirmation that the real election results
123 verify what WE all know intuitively, what WE all know from every
124 empirical witness to this election — that TRUMP WON IN A
125 LANDSLIDE and that the DEMONCRATS tried to STEAL this
126 election—tried to STEAL AMERICA. Tried to STEAL FROM US
127 OUR LIBERTIES.

128 And THIRD: The *Adonijah* conspiracy will fail because the KING
129 will PREVAIL. I Kings 1 — at the transition of power at the time of
130 king David's passing. The throne was promised to Solomon, but
131 one of his older half-brothers decided to declare himself king. He
132 hired fifty men to run before him declaring ADONIJAH is KING,
133 he succeeded at getting Joab, general of the Army to side with him,
134 and almost all other key people in the government to get behind
135 his effort to pull off a coup — but Nathan the Prophet went to
136 Solomon's mother, Bathsheba, and warned her, explaining that if
137 Adonijah succeeds, it will mean her life and the life of her son,
138 Solomon. He advised Bathsheba to go in to king David and inform
139 him of what was going on. And when she did, Nathan came in
140 behind her and confirmed that Adonijah had attempted to steal the
141 THRONE. Virtually all the kingdom thought Adonijah had been
142 dutifully anointed to be king — until king David declared
143 SOLOMON would be king. And that ended the COUP and they all
144 scattered in fear.

145 Biden has been DECLARED President by the AP (when I read that
146 I laughed out loud). Biden has the backing of almost all the
147 "leadership" in the government, all the DEEP STATE supports him.
148 But the prophet of God has alerted the BRIDE of the KING and the
149 BRIDE of the KING has gone before HIS THRONE and petitioned
150 Him to RULE on the MATTER — and the people of GOD have
151 cried to the KING — our KING is JESUS — and JESUS is the
152 ultimate authority who sets up kingdoms and brings them down,
153 He is the ultimate authority who appoints over the kingdom

154 whosoever He will — And KING JESUS is the authority over the
155 SWORD of CIVIL JUSTICE ordained by HIM to execute WRATH
156 upon EVIL DOERS — and His CHURCH has pled for MERCY —
157 and with it JUSTICE, JUDGMENT and EQUITY to PREVAIL.

158 And no sooner did we pray JESUS would step in and RULE in this
159 matter, and take the SWORD that is HIS and point it at the evil
160 doers trying to steal this election — than suddenly it comes out
161 that in fact — the WICKED HAVE BEEN SERVED NOTICE TO
162 THEIR EVIL CONSCIENCE THAT JUSTICE IS STIRRING,
163 JUDGMENT IS COMING.

164 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
165 at the Lighthouse, your brain masseur, and Paul Revere's lantern
166 lighter, lighting the lamps in the church belfry arch, signaling the
167 enemy is on the march, an enemy that would steal from us our
168 liberty.

169 The voter machine scandal is centered on a company called
170 Dominion Election Services. There are other companies involved
171 in this, but Providence has ordained that the scandal will be
172 centered on a company that is almost always referred to by one
173 word—DOMINION.

174 Those who have read my book, God's WAR: Why Christians
175 Should Rule the World — the case for Christian involvement in
176 every sphere of civic and social life — understand why that is
177 interesting. It's all about a battle over *the dominion* — which in the
178 Bible is defined as control of the resources of this planet, and the
179 power of the SWORD—the power to enforce LAW. The wicked
180 want to control the resources of the Earth and they want the power
181 of the SWORD to use FORCE and VIOLENCE to hold it, and
182 bring all mankind under their power.

183 DOMINION voting machines were designed specifically to TAKE
184 kingdoms by VIOLENCE (violation of law) to gain power over the

185 SWORD to use it to OPPRESS THE PEOPLE and CONTROL THE
186 RESOURCES OF THE EARTH to SERVE the interests of the
187 ELITES.

188 So, let's talk about how this works. Understand that my
189 presentation is purposely not technical—it is a summation of the
190 technical information available right now explaining how these
191 machines are used to steal elections.

192 But before we get started, you need to understand the difference
193 between *evidence* and *proof*. *PROOF* in a court of law should not be
194 confused with what is called *PROOF* in a scientific study.

195 When speaking casually, we will often confuse these things.
196 *Evidence* provides compelling support for a conclusion in a legal
197 matter, and it is not required to carry the burden of what we would
198 call scientific *PROOF*. Let me explain.

199 In science, you begin with a reasonable hypothesis, and contrive an
200 experiment to test it. If the experiment verifies the hypothesis, and
201 the experiment can be replicated with consistent results, this is
202 then regarded as proved.

203 In legal matters, it's different. What is required is not the sort of
204 "proof" you must demand in a scientific study. What is required is
205 EVIDENCE — that is first and foremost TRUTHFUL — and then
206 evidence that compels any reasonable mind to accept a certain
207 conclusion as TRUE.

208 In other words, we have a former General in the Venezuelan Army
209 that swears an affidavit that he heard and saw Chavez make a deal
210 with smartmatics to create voting software that would manipulate
211 the votes to insure victory for Chavez—or any candidate, or other
212 matter put to the vote in his country. We were not there! So his
213 testimony is not *PROOF*. But if you were there, your testimony
214 would not be proof either. But it is EVIDENCE. What has to
215 happen is the EVIDENCE must to be tested for its veracity, which

216 often comes down to three things: 1. the veracity and integrity of
217 the witness; 2. the absence of any other evidence contradicting his
218 testimony; 3. the presence of corroborating evidence supporting
219 the testimony. So, friend, all these affidavits ARE EVIDENCE!

220 This is not a scientific experiment attempting to prove masks are
221 effective in preventing viral infection (haha — uh, by the way, there
222 are NONE!). We are talking about EVIDENCE that DEMANDS A
223 VERDICT.

224 No one with any sense at all can look at all that we are discovering
225 in the way of FACTS and conclude there is nothing to see here. On
226 the contrary, it's OBVIOUS there is SOMETHING GOING ON
227 and it must be looked into.

228 Doing this, we take TESTIMONY from people who are first hand
229 witnesses to the sorts of things that EXPLAIN the weird stuff that
230 we KNOW happened.

231 That evidence must be measured for veracity—are the witnesses
232 persons of integrity? Is there any evidence that contradicts the
233 testimony and does it come from a reliable witness or established
234 facts? Is there any evidence that corroborates the testimony in the
235 way of FACTS or further TESTIMONY of WITNESSES? That's the
236 difference between *evidence* and *proof*. Only an unreasonable
237 person would demand scientific proof before any verdict could be
238 rendered on a preponderance of EVIDENCE.

239 By the way, plausible deniability is something the wicked use all the
240 time to skirt justice but when the EVIDENCE is overwhelming,
241 when it reaches something called a preponderance of evidence, it
242 becomes increasingly clear the plausibility of their denials collapses
243 and the TRUTH is seen CLEARLY. A preponderance of solid
244 evidence overwhelms plausible deniability — and makes it an
245 implausible denial. That's what we HAVE!

246 However, now that we have the servers, this can provide hard
247 evidence supporting the testimony. But, you do realize this is not
248 "PROOF" — unless we can replicate the whole thing, and then how
249 do you PROVE who contrived to do all this? And then ... you get
250 the idea. It will be done on the basis of witnesses, whose testimony
251 is corroborated by facts. In other words, we have witnesses, then
252 we have in our possession a machine we can show has stored in it
253 all the original voting data, and from that data we can show that
254 Trump won the election—it's still not the same level of PROOF
255 demanded in a scientific study—but it's very close to that—it
256 provides an preponderance of EVIDENCE that ALLOWS for only
257 ONE REASONABLE VERDICT—someone tried to steal this
258 election, TRUMP WON BY A LANDSLIDE. From here, the DOJ
259 has to go to work finding all the scoundrels that participated in this
260 effort to steal our election and prosecute them.

261 But that's a separate thing. We don't have to know everyone who
262 participated in the fraud to know fraud occurred, we only need a
263 preponderance of solid EVIDENCE that convinces a REASONABLE
264 mind to demand: 1. Declare Trump the victor; 2. Hand count every
265 disputed state; 3. Redo the entire election.

266 Now, let's look at the evidence that the machines used in America
267 are prone to abuse by bad actors, and evidence that they were in
268 fact used to steal an election in America.

269 FIRST: Dominion makes the voting machines used in 28 States in
270 America. All the states where the election is disputed are Democrat
271 run states that use these machines. The software used in these
272 machines comes from Smartmatics. Without following the
273 intriguing twists and turns in the origins and the history of
274 ownership of these companies, let's summarize:

275 Smartmatics created an Election Management System (EMS)
276 software for the former Venezuelan president, Hugo Chavez,
277 which was designed to guarantee he would never lose another

278 election. Chavez used it to steal every subsequent election and used
279 his usurped power to destroy that once great country. We refer to
280 the software as Smartmatics—it was designed to steal elections.
281 The software sends the data to an offshore server, where the
282 original data is stored. During the early years of operation this
283 server was kept in Barcelona, Spain. But our CIA deep state
284 operatives placed the servers in Frankfurt, Germany. This was
285 insurance, allowing whoever held this data control over the
286 persons in office who benefited from what is next. Back to the
287 voting machines in America. These machines using this software
288 were designed with certain features that allowed the DNC to steal
289 our elections. One of their special features was vote flipping —
290 taking a vote from one candidate and giving it to another. There
291 are other vulnerabilities, but I have to summarize, so, we'll look at
292 vote flipping.

293 Smartmatic is now owned by "a company whose Chairman is Lord
294 Mark Malloch-Brown.¹ He sits on the House of Lords in England
295 — and on the BOARD OF GEORGE SOROS' OPEN SOCIETY
296 FOUNDATIONS. He has been with Soros for a while — before this
297 gig, he was "vice-chairman of Soros' Investment Funds." (IBID).

298 This is the software that is used in the Dominion voting machines
299 in America.

300 Now, let's talk about the company that makes machine in question:
301 Dominion.

302 We know Dominion was founded in 2003 by a company in
303 Toronto, Canada, and that in 2009, headquarters were set up in
304 America, in Denver, Colorado. This company was founded to
305 make machines that count votes.

¹ <https://dailycaller.com/2016/10/18/soros-connected-company-provides-voting-machines-in-16-states/>

306 These machines are made with components made in China. Just
307 saying!

308 Before the midterms in 2018, Dominion was acquired by a New
309 York based hedge fund company called Staple Street Capital. "A
310 former ambassador named by former President Barack Obama sits
311 on the board."²

312 The vulnerabilities of Dominion voting machines are well known
313 and documented. Anyone taking the time to give just a little bit
314 more than a casual look into this company and this machine, with
315 its software, would see the red flags raised about the multiple
316 vulnerabilities of these machines to abuse, to be used to perpetrate
317 voter fraud. It's as obvious as the vulnerabilities of abuse inherent
318 to mail in ballots.

319 But really, Democrats are on record having raised red flags
320 concerning Dominion voting machines as early as 2016. Experts in
321 the field have written extensively exposing the problems with these
322 machines. But in 2018, apparently, the DNC decided to make use
323 of these machines to re-secure their power over America by
324 stealing from the PEOPLE their RIGHT TO CHOOSE THEIR
325 LEADERS. Because in 2018, an Obama operative was put in
326 charge of the company that acquired Dominion: Staple Street
327 Capital.

328 At least Texas did due diligence when looking at this machine and
329 because of the irregularities and voting problems associated with
330 the vulnerabilities of these machines they declined to use them.
331 Trump won Texas handily.

332 When we explore the question, why would any state use Dominion
333 voting machines we find that very intense pressure from top DNC

² <https://heavy.com/news/dominion-voting-systems-glitch-clinton-pelosi-michigan-georgia/>

334 operatives in Blue States, together with bribes and intimidation,
335 were used to get these State election boards to look the other way
336 and deploy these faulty machines in their states. And
337 EVERYWHERE we have a problem it's where THESE MACHINES
338 were used.

339 Then we come to the sworn testimony of Russ Ramsdale—on the
340 management team of Allied Security Operations Group, LLC, a
341 company that specializes in cyber security. The people that deal
342 with hacking issues, and protecting digital data, and stuff like that.

343 In November of 2018, his group was approached by Dallas, Texas
344 with concerns about a company that uses Smartmatics based
345 software in their vote counting machines built by ES&S (Election
346 Systems & Software.) They found problems, and showed that the
347 vulnerabilities of the software were exploited. This led to various
348 legal challenges against the election and the flipping of some
349 contests.

350 Ramsdale's company decided to look more deeply into this matter,
351 and conducted an 18 months study into the Election Management
352 System services used in Michigan, where they used the Dominion
353 machines. They looked at the machines used for the 2020 election
354 and verified they still had the same vulnerabilities noted before.

355 They documented that these systems contain a large number of
356 vulnerabilities to hacking, tampering — allowing hackers to
357 manipulate votes, to switch them, to add votes that then the
358 operators have to provide ballots to cover.

359 Now, I've run out of time, so let me conclude with this.

360 Ramsland provides very disturbing evidence that the 2020 election
361 was manipulated by these computers and the offshore server. I
362 hope I can explain this in a manner easy to follow; it's better if you
363 can see it. But, here goes.

364 CNN was reporting on the count in real time as it came in. They
365 had their screen set up with their talkers and beside them an inset
366 window showing the results as they came in. This was the race
367 between Democrat Beshear and Republican Bevin. I'll just say
368 Democrat and Republican from here on to make it simpler.

369 The window showed the Democrat with 673,948 votes and the
370 Republican with 662,235 votes. About 12k vote spread.

371 Also along the bottom of the CNN screen you could see the crawl
372 ribbon — where the information appears in a ribbon along the
373 bottom, and then updates as information changes.

374 At this point, the numbers matched—the Democrat number in the
375 window matched the number in the ribbon, and likewise for the
376 Republican. Got it so far? Good!

377 Suddenly, an update occurred, and the window on the screen
378 flashed — but before you could focus on it, it disappeared and the
379 talking head filled the screen. And as he talked, the ribbon was
380 updated as he announced the new number for the Democrat —
381 vote count increased by 560 votes. Then it went back to the screen
382 they had been using, with the inset in the main window, and you
383 could see that, once again, the numbers in the window matched the
384 updated numbers in the ribbon.

385 Ramsdale noticed something—he noticed that the Republicans
386 numbers went DOWN? How can that happen?

387 So he went back screen by screen to when the updated window
388 flashed and then disappeared, and he froze it.

389 Amazing! The numbers in the window were updated before the
390 ribbon was updated. And because of that, you could see that the
391 Republican's vote count in the window no longer matched that
392 displayed on the ribbon.

393 What???? But, yeah! And guess what? The Democrat gained 560
394 votes, and the Republican LOST 560 votes — that only happens if
395 someone manipulated the machines sending these updates so it
396 took 560 votes from the Republican and gave them to the
397 Democrat. That's not a "GLITCH" friend! That's a FEATURE of
398 Dominion voting machine software — that was working exactly
399 like it was created to work. The DNC are so panicked about losing
400 power right now, for reasons I think you can appreciate, that they
401 are willing to DO ANYTHING to regain power. I said
402 ANYTHING.

403 And it's not over yet.

404 Pray and fast, SPEAK THE WORD OF TRUTH — stand in the
405 GAP, get in church. The Bride has the EAR of the KING!

406 I have lit the lamps in the Church belfry arch and now you let me
407 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
408 ON and you will ride like Revere and spread the warning,
409 (essentially, it means you agree with what I'm saying) or you say
410 LIGHTS OFF -- which means you reject what I'm saying and
411 disagree strongly with me. So, what will it be today, lights on, or
412 lights off?
