

Brain Massage: Show No. 807 The "Left" Is Diving Into The Rabbit Hole /
The "EVIDENCE" Barr Is Blind To! / The "Martial Law" Option

Jerry Scheidbach

Original Air Date: 12.05.20

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.

4 We had a WONDERFUL time with Pastor Marshal Stevens,
5 faithful supporter of the Brain Massage show, and Calvary Baptist
6 Church for the Home Missions Conference — raised close to 50k
7 to help church planters. You can catch the conference meetings
8 online by going to <https://cbcac.org/> and click on their Livestream
9 button.

10 It's getting increasingly intense as we approach the tape. I
11 remember running a Cross Country race and they had a funnel
12 that forced the track to narrow down to allow only one runner in
13 the lane—as I approached, I was gaining on two runners ahead of
14 me and they tried to block me out — I had to maneuver cleverly
15 and use my elbows and watch my footing to wrestle through the
16 blockade and get into the funnel ahead of them. That's where we
17 are right now—it's time to throw elbows boys!

18 The battle for America is ON! The SMOKING Gun video—the
19 SMOKING GUN Truck Driver's Testimony hauling completed
20 ballots across state lines—the Kemp shuffle—summarizing and
21 making sense of the Dominion scandal¹—a look at Georgia and the
22 hearing held Thursday—the FOLDERS and the SOLDIERS—praise
23 God, Trump is a SOLDIER and not a FOLDER!

24 And with all of this going on, Trump continues to get his job done!
25 Spanks China for "capitalizing" on "slave labor" to — are you ready
26 for this — "pick their cotton." Boom!

¹<https://archive.org/details/dominion-voting-systems-report-final-12-2-20.docx-1/mode/2up> (This is the Dominion manual.)

27 It's time for your Brain Massage.

28 [TRUTH]

29 The Battle for America is ON!

30 See that smoke swirling up over there in Georgia? That's the
31 smoking gun!

32 Thank you Matt Morgret for feeding me articles and videos that
33 keep me abreast of developments, my dearly beloved Dove who
34 tracks news all week and feeds articles and videos she knows I'll
35 want to see, the Masons who do a great job watching for news the
36 Brain Masseur can use and all of these always attach links to
37 articles and to documentation that helps me follow up and follow
38 through. Of course, I personally check it all out, and research the
39 material I bring forward on this show—and lay it all out from a
40 Biblical perspective—dedicated to the TRUTH!

41 Did you see the smoking gun video? I've watched it several times.
42 In case you have not seen it, and to provide context for what
43 insights follow—let's take a look.

44 Okay, this is a developing story but here is what we know at
45 present. Lin Wood obtained the video. He filed suit in the U.S.
46 District Court of Northern Georgia on Monday (November 23)
47 and he won a subpoena to demand the executive president and
48 chief legal officer for the NBA's Atlanta Hawks, whose home court
49 is the State Farm Arena in Fulton County — one of the Arenas
50 used as a polling place.

51 The Arena runs security cameras 24/7. I did not have time to read
52 the petition for the subpoena, but as my friend suspects, it appears
53 someone who works at the Arena knew fraud was going down and
54 tipped Wood off on the video. In any case, Wood got the
55 subpoena, which forced the surrender of the video. When it was
56 reviewed, they discovered the fraud I'll describe in a moment.

57 Once they obtained this smoking gun video, Trump, it appears,
58 changed his earlier plans to have his rally in Georgia to come after
59 the video was released to the Georgia legislature. I watched that
60 presentation, and it is STUNNING! However, Democrat state
61 senator Elena Parent — yep, that's her name — dismissed all the
62 testimony of witness after witness testifying under penalty of
63 perjury, and the condemning video—as all an Alice in Wonderland
64 moment for her. This snake slithered and slimed about — I mean,
65 literally — in her chair weaving her wicked web — I mean, watch
66 her, she is moving her hands about like she is weaving and
67 slithering about in her chair like a snake — dismissing the
68 character and obvious objective evidence set before her as
69 something all fuzzy and confusing and distorted like looking
70 through the "looking glass." The testimony offered in that hearing
71 was solid and convincing proof that the DEMOCRATS have
72 attempted to STEAL this election by MASSIVE FRAUD.

73 I got an alert a little bit ago that one of these workers has entered
74 into witness protection. I will assume this witness provides some of
75 the information that helps us understand what we see on the video.

76 What does the video show? It shows that at about 8 am, November
77 3, ELECTION DAY, a lady identified only as "the blonde-braids
78 supervisor" places a long table in the counting room covered by a
79 black cloth. The table was not carried in, set up, and then covered
80 with the cloth. It was dragged in already covered. (That's already a
81 bit weird, especially when you notice that nothing was ever placed
82 on this table. The other black tables in the room were being used
83 actively; this one was not. At about 10:25 pm, on ELECTION DAY,
84 blonde-braids comes into the room and interrupts the counting,
85 declaring authoritatively that counting is done for the night. She
86 orders all to go home and return at 8 the next morning.

87 The video shows them leaving, all except four workers and blonde-
88 braids. They remain. And after all the observers, and media, and

89 other workers were gone, these went to work COUNTING
90 BALLOTS.

91 Now, here is a little flash back to Election night! On MSNBC
92 Rachel Maddow interviewed a witness explaining why after the
93 shut down the vote was called at about 10:30 and the workers,
94 observers, and media all left the State Farm Arena, five
95 REMAINED BEHIND, and when the room was cleared, these
96 continued counting. The witness explained that these were
97 counting ballots that had ALREADY been processed—suggesting
98 to their viewers that count watchers had already vetted them. Then
99 Rachel said something very interesting: Chuckling, with a big smile
100 — remember, at this point in the election, Trump was WINNING
101 BIG TIME — some Rachel, who practically cried when Trump won
102 in 2016, is smiling — remarked that the fate of the nation was in
103 the hands of five workers; at the conclusion of the interview, she
104 says, "Talk about having the fate of the nation in your hands."

105 Is she aware of what she said? Think about this. In what context
106 would she make a statement like that? If they were merely counting
107 ballots, or merely continuing the count of "already opened ballots"
108 in what way would THESE FIVE PEOPLE HAVE THE FATE OF
109 THE NATION in their hands — that is, IN THEIR CONTROL?

110 That was the night this went down. Now, add to this, this! After the
111 workers were ordered to leave the room, someone from the press
112 tipped off some of the workers and told them that COUNTING
113 CONTINUED after they were told COUNTING had STOPPED.
114 Perhaps they saw this interview. Anyway, they went back and
115 arrived about 1 am just 15 to 30 minutes or so after the workers left
116 but received eyewitness testimony that in fact it was true.

117 Now, fast forward to today! Wood gets the video of what actually
118 went on in that room when the FATE OF THE NATION was
119 placed into the hands of FIVE ELECTION WORKERS under the
120 supervision of blonde-braids. (Actually, we now know their names,

121 well, we know the name of one worker, Ruby, and her daughter is
122 blonde-braids supervisor — the others will soon be identified.

123 Did the Maddow interview provide adequate cover for the voter
124 fraud operation caught on the video? It might have, except the
125 VIDEO reveals what was REALLY GOING ON.

126 We know, from the video, that after all but the FIVE cleared the
127 room, the five went to work. And they pulled suitcases out from
128 under the table that blonde-braids had brought in earlier. (These
129 were roller boards, like you put into the overhead when flying, only
130 some of these looked somewhat larger.)

131 They pulled these out from under that table, and took them to the
132 counting machines and began feeding ballots into the machine.

133 You should know that this is not the way ballots are brought into
134 the counting rooms.

135 Sometime between blonde-braids placing that table in the room,
136 and 10:30 PM, some how these large suitcases full of completed
137 ballots were placed under the table. Those presenting the evidence
138 before the Georgia Legislature in the hearing said they have not
139 had time to go through the fourteen plus hours of video — and that
140 as they fast-forwarded through it, did not see when the suitcases
141 were placed under the table. It's possible the suitcases were placed
142 under the table and tied up so that blonde-braids brought the table
143 in with the suitcases already under the table.

144 I noticed that the table was not carried in, set up, and then covered
145 with the black cloth. She dragged it in already set up and already
146 covered — it is very possible the cases were already put under the
147 table when she dragged it into the room.

148 Folks, this is not an "irregularity" and this was not a "worker error,"
149 and it was no machine "glitch." They were indeed counting ballots
150 that had already been opened —because they were counting ballots
151 that had never been in an envelope. They had been pre-prepared,

152 placed into the suitcases, secreted into the vote counting room, and
153 then, when it was clear Trump was thumping them again, blonde-
154 braid did her job, walked in and there is no evidence she even had
155 the authority to do this, but she walked in, cleared the room, and
156 then she, with her mother, and three others, got busy STUFFING
157 THE BALLOT BOX.

158 Now, one more thing before I go to break. When I received this
159 video, the fact checkers labeled it as suspicious — and the notice
160 said, "This claim of voter fraud has been disputed." So I thought,
161 okay, let's go see what the other side has to say about this video. So
162 I clicked the link and it took me to a page with authoritative
163 sources, one after the other, that said "Voter fraud of any kind is
164 exceedingly rare in the US, election experts confirm." And another,
165 "What you need to know: — voter fraud of any type is incredibly
166 rare in teh US, according to The Associated Press and Reuters."
167 (Snicker!)

168 And from the authoritative USA Today — Non partisan
169 investigations of previous elections have found that voter fraud is
170 exceedingly rare." Oh, and, by the way: On November 11, "State
171 officials from both parties, as well as international observers, have
172 also stated that the 2020 election went well."

173 Then some more assurances from AP — The US election was not
174 tainted by widespread voter fraud or irregularities, despite
175 President Trump's claims. Trump says some of the votes are 'illegal'
176 but he hasn't offered any proof and courts have rejected most of his
177 legal challenges."

178 And it goes on, and on in this way.

179 NOT ONE FORMAL ALLEGATION OF VOTER FRAUD IS
180 ADDRESSED. NOT ONE. Not one of the hundreds of affidavits of
181 eye witness accounts of voter fraud is addressed.

182 They simply DUCK DOWN into their RABBIT HOLE and hide in
183 wonderland from the TRUTH.

184 Trump is playing 4D chess with people who commit crimes in
185 front of cameras. (Thank you Matt!)

186 Hold on through the break. I'll be right back.

187 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
188 at the Lighthouse, your brain masseur, and Paul Revere's lantern
189 lighter, lighting the lamps in the church belfry arch, signaling the
190 enemy is on the march, an enemy that would steal from us our
191 liberty.

192 Friend, the amount of information coming out regarding this
193 election is overwhelming. It's difficult to keep up with it, and even
194 more challenging to sort it all out for you.

195 In the first segment, we discussed the latest bombshell that
196 exploded in Georgia. A video that shows at the time Trump was
197 leading in Georgia by something like 100 thousand votes, the
198 counting station was suddenly cleared out by order of someone
199 whose credentials to call off the count are in question—and after
200 everyone cleared out, five remain behind to continue the count
201 unsupervised—and in full view of the security cameras, these
202 workers drag suitcases out from under a table filled with ballots
203 and start feeding those ballots into the machines. This is FRAUD!
204 Lin Wood, who obtained this video, asked could anyone spell
205 FELONY.

206 Two of the people viewed in the State Farm Arena video show up
207 in another one. In this one we see these two obviously attempting
208 to hide from those around them what they are doing as they pass
209 USB devices — and we know that the votes from these machines
210 are stored on USB devices, and you've probably heard about foul
211 play — where in one case, something like 40 of these devices came
212 up missing!

213 We see smoke rising in another place and it is certain that when we
214 track its source, we are going to find another SMOKING GUN. A
215 truck driver who is not an employee of the USPS, was hired to haul
216 a load from New York to Pennsylvania. Details are still emerging.
217 But what we know is as follows: he was hauling completed ballots,
218 between 170 to 250 thousand, from New York to Pennsylvania. It
219 did not occur to him until later that this is odd. Why would anyone
220 be shipping ballots from one state to another state?

221 When he arrived to a clearing station where they would off load,
222 and so on, he was not allowed to view the offloading of the trailer.
223 He had to wait in a waiting room. This was unusual. The amount
224 of time, something like 6 hours, was waaaaaayyyy too long and he
225 became agitated — finally, a high official, someone he said he
226 would usually never have had any conversation with, told him he
227 could take the truck to the next stop—and when this man
228 demanded the slip he needed to verify why he was late with
229 delivery, and that would allow him to get paid for his overtime, the
230 high ranking official refused and ordered him to take the load.

231 The driver was unhappy, but what could he do. He carried the load
232 to destination, unhitched and when he went back the next day to
233 finish the delivery, his trailer was gone. So you have transportation
234 of ballots across state lines and a missing trailer, and consequently,
235 missing well over 100 thousand ballots.

236 So, this is being run down, and pretty soon we'll find the gun from
237 which this smoke is swirling over Biden's head.

238 Now, what about the Dominion machine debacle? Well, my friend,
239 here is what we now KNOW FOR SURE!

240 We know that the vulnerabilities of these machines to be used to
241 commit voter fraud has been documented and has been well
242 known for many years. Texas rejected them because of these
243 problems, but 29 other states bought them and use them. Every

244 one of these 29 states KNEW about the problems inherent in these
245 machines.

246 These machines were used in every state where we have massive
247 anomalies in the election counts. Anomalies such as a sudden spike
248 in votes for Biden that switched the lead from Trump to Biden, an
249 anomaly, by the way, which can only explained by exploiting the
250 vulnerabilities built into these machines—of course, we are talking
251 about the software used in these machines.

252 Which, according to the sworn testimony of a former Venezuelan
253 General, the software used in the machines was created for Chavez
254 to allow him to control the outcomes of every election in his
255 country. He swears under penalty of perjury that the software used
256 in Dominion machines was designed to steal elections. And he has
257 first hand knowledge of how it works.

258 This company, Dominion, uses this software, and in their manual,
259 they spell out exactly how to use the machine to commit fraud.
260 Obviously, they don't have a chapter on FRAUD and HOW TO
261 DO IT. But they explain the features of the machine that allow for
262 operators to manipulate the ballots in a manner that would allow
263 them to control the outcome of the election. It's complicated, but
264 I've gone over it a few times before and I'll do some more of this in
265 my VISITS — but here is one glaring feature of the machine that
266 SHOULD CAUSE EVERY HONEST AMERICAN PATRIOT to
267 scream for the dismissal of every "politician" that approved using
268 these machines for counting votes in an AMERICAN ELECTION.

269 I remember seeing this quite a while back and wondering what was
270 going on. I saw a tabulation of votes from one of these machines
271 and noticed that the numbers were not whole numbers. In other
272 words, every total was fractionalized. I mean, I noticed the totals
273 were, for example, 1,256.25, or .69, and stuff like that. Now, folks, I
274 don't know who casts a fractional vote—I thought that went out

275 with slavery! Right, when they decided to count slaves as a fraction
276 of a whole person for reasons of representation — ?

277 A vote is a whole number — 1. It cannot be a fraction of a number.
278 And if you add up a long list of integers you get a whole number
279 result — you only get fractions if you introduce fractions in the list
280 of numbers — and I think you see what I am saying.

281 This allows these wicked people to weight votes. Each vote for
282 Trump can be set to register as having the value of .25 and every
283 vote for Biden could be set to register as having the value of 1.25.
284 You can see what this would do to the OUTCOME of the TALLY.

285 There is hard evidence that this happened. This is another story
286 where the details are eking out as it develops. A computer expert
287 dude named Garland was able to get a Dominion machine used in
288 Ware County, a small county in Georgia. He did what they call a
289 forensic analysis (forensic refers to the application of scientific
290 methods and techniques to investigate a crime). He is able to
291 demonstrate how the Dominion software can be used to SWITCH
292 VOTES, and testifies that he discovered 37 votes were switched
293 from Trump to Biden in the machine he studied.

294 37 votes do not seem like much. But this is a very small county and
295 it just so happens that 37 votes amounts to about 2.9% of all the
296 votes cast in the county. That's of interest because it turns out that
297 is very close to the margin of victory for Biden in this election.

298 First, it shows that vote switching is a FEATURE of the Dominion
299 software and that it's something that can be done by anyone
300 knowledgeable of this vulnerability. Second, the percentage is very
301 curious since the accusation is that Dominion calibrates the
302 machine to switch votes according to an algorithm that kicks in
303 when the target candidate reaches a certain threshold of votes.

304 This supports Wood's and Powell's allegation that what happened
305 is Trump landslide victory broke the algorithm. Or, in other words,

306 Trump was getting so many more votes than Biden that their
307 calibrations were insufficient.

308 Trump's landslide victory was so powerful, it became obvious he
309 was going to win in spite of the Dominion machine outcome
310 control feature, and the "widespread" voter irregularities —(listen,
311 friend, an "irregularity" done repeatedly, and on purpose is not
312 IRREGULAR — it's a REGULAR PATTERN OF FRAUD)—
313 Trump's votes were coming in at a pace the thousands of dead
314 people voting, the trick of re-counting batches multiple times, the
315 trick of getting a ballot rejected so the workers can DUPLICATE
316 IT — and all of this going on while Republican observers are
317 ushered out of range to actually see what they were doing, and in
318 many cases ordered out, and not allowed to see — but, man,
319 Trump was winning so big, they had to go big!

320 That's why they had to go to the nuclear option, and revert to old-
321 fashioned BALLOT BOX STUFFING techniques. This means they
322 needed a lot of ballots to stuff! So they had to STOP the COUNT so
323 they could scramble to get those ballots from New York to
324 Pennsylvania where they were desperately needed. They had to
325 activate their back up teams, like the Fulton County Five at the
326 State Farm Arena—and they needed to get those Republicans out
327 of sight of what they were doing.

328 But, by God's grace, someone either did not think to TURN OFF
329 THE SECURITY CAMERAS, in the State Farm Arena, or disable
330 the one watching this operation, or the security guard tasked to
331 cover that got a conscience (something we have specifically prayed
332 for)—but the Fulton County Five got caught on CAMERA
333 performing their Undercover VOTER FRAUD operation.

334 But what does it all mean? We cannot allow this to stand. We
335 cannot allow this election to be stolen. The RIGHTS of 74 million
336 Americans must not be ignored, dismissed as irrelevant. We will

337 do better next time is NOT ACCEPTABLE. This election must be
338 set right, and there are many ways this can be done.

339 The DOJ can kick it in gear and start LOOKING AT THE
340 EVIDENCE because there is plenty to be seen.

341 But they are doing the same thing with this they are doing with
342 Biden and Ukraine, and Obama, Hillary et al and Russia
343 Collusion—and I'm sick and tired of these people who SIT on the
344 HANDS OF JUSTICE and let the WICKED PREVAIL. Done!

345 I mean, if Billy Barr won't do his job and investigate and prosecute
346 these things, if the State Legislatures refuse to step up to their
347 responsibility and use their Constitutional power to inject
348 themselves into this and straighten it out—you are aware that the
349 State legislature has a Constitutional authority to step in and there
350 are precedents already in place for this—but if they refuse for
351 political reasons—or because they have been bought off, or because
352 they are protecting someone, or because they are being held
353 hostage by threats—and if all the courts fail to execute JUSTICE
354 and JUDGMENT in this matter, and it goes to the Supreme Court
355 and ALL CONSTITUTIONALLY APPOINTED POWERS FAIL
356 TO PROTECT THE CONSTITUTION AS THEY HAVE BEEN
357 SWORN — then it falls to the last line of defense of the
358 Constitution and that is the President's power to declare martial
359 law—fire all the rascals that refuse to DEFEND THE
360 CONSTITUTION FROM ALL ENEMIES FOREIGN (CHINA)
361 AND DOMESTIC (CHINA CONTROLLED POLITICIANS AND
362 NEWS MEDIA) and imprison for charges of treason those who
363 attempt to stop A DULY ORDERED REVOTE — WHERE WE
364 DON'T USE MACHINES OWNED BY CHINA (They do, by they
365 way, own Dominion—400 million was paid by UBS Fund into the
366 company that owns Dominion and Smartmatic software, and UBS
367 is owned 75% by the CCP—

368 If every Constitutional protection set in place by our founders has
369 come into the power of DEVILS working for CHINA — then let us
370 thank God our President has not been bought!

371 Let us pray, earnestly, it does not come to this. But friend, if
372 virtually every Constitutional provision for defending our liberties
373 has come into the power of ENEMIES of this STATE — then it's up
374 to our President to lead the nation back under it's Constitution and
375 it's up to us to SUPPORT HIM in every way necessary.

376 Praying God will continue to REVEAL THE TRUTH — for as our
377 CHIEF CAPTAIN told us — the TRUTH will MAKE YOU FREE.

378 I have lit the lamps in the Church belfry arch and now you let me
379 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
380 ON and you will ride like Revere and spread the warning,
381 (essentially, it means you agree with what I'm saying) or you say
382 LIGHTS OFF -- which means you reject what I'm saying and
383 disagree strongly with me. So, what will it be today, lights on, or
384 lights off?

385 Email me by going to our web site at branmassage.net. That's
386 brainmassage.net. Find the CONTACT button and send me an
387 email.

388 You can leave a message on our Lights On hotline: 805.314.2114.

389 God bless you. God bless America! I'll see you in Church.
