

Brain Massage: Show No. 808 Let's "Ring" "Jing's" Clock for Christmas /
Rally To The Lone Star State to Save America

Jerry Scheidbach

Original Air Date: 12.12.20

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.

4 Continued confusion over deadlines to stop the steal! I'll clarify!

5 Understanding how the left is reacting to the Texas lawsuit! What
6 is their argument? How does their argument against Texas, et al.
7 measure up?

8 Now that we know the left has attempted to fraudulently steal the
9 election from Trump by targeting the Democratic controlled
10 precincts (with a history of voter and election fraud—the difference
11 is voter fraud is an act perpetrated by an individual, while election
12 fraud is perpetrated by Election officials appointed and/or elected
13 to office)—in the five swing States, here are the END game
14 scenarios 1-5—with an additional scenario that only recently
15 developed and centers on the fall of the Biden crime family with
16 indictments impending.

17 The Coming War for Liberty Will Likely Be Fought On Our Soil—
18 a war with China through their proxy communists planted within
19 our country with possible assistance from Canada (4.3), and
20 Mexico (6.9).

21 The essential operating principle of DIVINE INTERVENTION
22 explained — when, and how can we expect GOD to show Himself
23 openly.

24 CHRISTMAS WARS REPRISED! 808.3.2

25 I'll have to use my evening visits to address some of the other stuff
26 going down. Usually, news cycles move week to week, but these

27 days, the cycle is moving so fast the landscape changes almost
28 every hour. Mercy!

29 It's time for your BRAIN MASSAGE!

30 [TRUTH]

31 Continued confusion over deadlines to stop the steal! I'll clarify!

32 America is engaged in a real time civics lesson—we are learning
33 more than most of us ever wanted to know about our Constitution
34 and the intricacies of how our Founders provided for an orderly
35 transition of power. Confusion can create serious problems, so let's
36 clarify one matter that keeps causing distress and can make us
37 vulnerable to being manipulated by the DEMONCRATS.

38 As you know, the Devils who are trying to steal this election, and
39 our liberties, are working overtime to DECREE Biden the
40 president. Constantly, we are barraged with messages that are
41 designed to get everyone to accept the candidate the Left has
42 chosen. For example, they keep referring to Biden as President-
43 Elect. The media do not have the authority to decide an election.
44 The fact is, unless one of the candidates concedes, or the Electoral
45 College vote is certified by Congress — no one is President-Elect.

46 So, the left keeps pushing these fake deadlines. Like election
47 certification by the States. Nope! That does not determine who is
48 elected President. That only directs the states to designate their
49 electors to this or that candidate. This is partly because
50 certifications can be challenged, rescinded, and then recertified—
51 we have watched this happen in Georgia. State certification does
52 not FINALIZE the election. Now the MSM is trying to push the
53 idea that December 14 it's over. That's when the electors are slated
54 from each state. But no! That can be overturned in a number of
55 ways. If the Legislature finds cause to intervene and act on their
56 Constitutional authority to appoint electors to replace those put in

57 place before. This is something that is developing in these states
58 where the election results are in question.

59 The next date is January 6. This is when the Electoral College votes
60 and the Congress counts the votes to declare the President-Elect.
61 However, even that can be challenged by any Elector, or by any
62 State Legislator and cause the matter to be put before the Congress
63 to decide. What happens in this case is the Electors votes are set
64 aside and the Congress itself acts in its Constitutional authority to
65 install a President and Vice President.

66 Another important point to remember is that none of these dates
67 are stipulated by the Constitution and can be altered by the actions
68 of the Congress.

69 The last date is January 20 — this is the only date that is stipulated
70 in the Constitution, and this is the date the term ends and a new
71 term begins. This is a hard date. It's the only date that is fixed by
72 the Constitution and to change it would require an amendment to
73 the Constitution, which is a process that would require something
74 like a year or more to complete.

75 Trump continues to be President until January 20. He has ALL the
76 powers of the Presidency until then.

77 Is there something that could happen between Jan. 6 and Jan. 20
78 that could disrupt the transfer of power? Yes! And I'll discuss that
79 when I lay out the END GAME SCENARIOS 1-5 plus 1.

80 Okay! Next!

81 Let's take a look at the Texas lawsuit! The left's main argument
82 against the Texas lawsuit is that there was no proven fraud—I'll
83 explain the basis for that spin in a minute—and the Court is not
84 going to want to DECIDE and ELECTION. The argument boils
85 down to that, and that alone. I've read bout four different liberals
86 response to the Texas lawsuit and none of them actually address
87 the argument of the suit itself. The idea is that there was no proven

88 fraud, and the Court does not have the Constitutional authority to
89 appoint a President. I can't even begin to tell you how weak their
90 position is.

91 First, remember that Gore sued in Florida court to hold back
92 certification of election results and won. Bush v. Gore in 2000 was
93 a counter suit that ended up before SCOTUS asking for that case to
94 be reviewed. Gore contested the election results because of
95 perceived problems with the count in Florida—the big hanging
96 chad debacle. So, when the Democrats are trying to "overturn the
97 results of an election" it's okay to ask the courts to intervene.

98 Second, SCOTUS did intervene, reviewed that lower court's
99 decision, and reversed it. This was not intended to decide an
100 election—it was a decision based on the merits of the case—it was a
101 legal ruling, not a political one; but for the Dems everything is
102 political.

103 Second, while the case envisions concerns about all the evidence
104 about voter fraud, and "irregularities," the case does not depend on
105 establishing proof of that fraud. The case focuses on Constitutional
106 issues that arise from undisputed facts—in other words, the Texas
107 case does not ask the court to rule on whether or not the States in
108 question violated the Constitution—the FACT that the states
109 violated the CONSTITUTION is an open and established FACT.

110 The FACTS are these. The Constitution of the US stipulates that
111 the Legislature of each state shall determine in what manner the
112 electors of that state are appointed. The Legislatures of these four
113 states, GA, PA, MI, and WI, have duly ordered how an election is
114 to proceed and how the electors of each state would be awarded to
115 the winning candidate. This is an undisputed fact, of course.

116 Now, also undisputed is the FACT that Election Board officials,
117 and in some cases the Governor of these States used COVID-19 to
118 CHANGE the LAWS—to actually implement rules governing the

119 election in those states that were in some cases DIRECTLY IN
120 CONTRADICTION to the LAWS enacted by their Legislative
121 bodies, and in one case, they VIOLATED THEIR OWN STATE'S
122 CONSTITUTION—one State has a Constitutional prohibition
123 against mail-in ballots. (Different from Absentee ballots.)

124 Texas, who has been joined by 19 other states, and the President,
125 argue that because the Constitution of the US gives the power to
126 Legislative bodies of each state to direct in what manner electors of
127 that state are apportioned, when GA, PA, MI, and WI made
128 changes in the rules and laws governing elections without apart
129 from their LEGISLATIVE BODIES, and in fact, made such laws
130 and rules that contradict the laws of those Legislatures, THIS
131 VIOLATED THE CONSTITUTION OF THE UNITED STATES—
132 and that this VIOLATION undermined the elections in all other
133 states—literally overtaking the election by their illegal activity. This
134 is unjust, unfair, and ILLEGAL! It means that the voters in all other
135 states were not treated equally—and so their action further violates
136 the EQUAL PROTECTION clause of the 14th amendment. It
137 means that voters in those states who were adverse to the voters in
138 the harmed states got an unfair and illegal advantage in this
139 election because their Election board/Governor, etc. VIOLATED
140 THE CONSTITUTION —!

141 Now, this would seem to be a pretty open and shut case. SCOTUS
142 rules on LAW not on politics. SCOTUS should be concerned, A.
143 with the fact that the Constitution was not followed by these States,
144 and B. that the result was a clear infringement of the rights of other
145 states under the equal protection provision.

146 Now, when you read the reaction of the States to these allegations,
147 the essential FACTS of the case are not argued! This is the reason
148 you never hear any one on the left argue that Texas is wrong — the
149 election in these states proceeded according to the State's
150 Constitutional authority, and according to the law stipulated by the

151 Legislature of these states. It is clear this would be a losing
152 argument! They know that! So, how do they argue their case.

153 Now, here is where it gets nuanced, and you need to pray that the
154 clever snakes defending these states will not bamboozle the
155 COURT. The defendants are essentially saying the State
156 Legislatures did not take action, or intervene in the matter, and so
157 it's an internal State issue that is none of the business of the other
158 States (they will go all 10th amendment here). In other words, this
159 is our problem, you but out! If it is argued that it compromised the
160 integrity of the election results for the entire Nation, which is a
161 matter of critical concern and interest of each other State—the
162 answer is NO PROOF OF FRAUD HAD BEEN BROUGHT
163 FORWARD.

164 This is one of the reasons the lower courts have refused to hear any
165 case on the issue of voter or election fraud—they KNOW the
166 evidence is THERE and that it is COMPELLING. So the DEMS
167 don't want that evidence to get before the general public. The
168 DEEP STATE controlled media and social media have blocked
169 every effort to inform the general public about the plethora of
170 evidence that has been compiled by Giuliani and Powell, and
171 several others by the way.

172 Because there has not been a hearing in a court of law with a ruling
173 that fraud has occurred, the left are using that as cover to keep
174 saying NO EVIDENCE OF FRAUD HAS BEEN BROUGHT
175 FORWARD, or presented. (To learn how to listen to lying
176 Democrats you have to add the clarifying terms they leave out.
177 They are actually saying, No evidence of fraud has been presented
178 in COURT and no court has ruled that there is any evidence
179 proving voter or election fraud.)

180 Well, Giuliani is a fighter and he is sharp. He and Jenna took their
181 evidence directly to the State Legislatures. This provided for a
182 public hearing of the evidence—but even that was blocked by MSM

183 and DEEP STATE CONTROLLED Social Media. It's getting out—
184 but the important thing is the Legislatures of these states are
185 hearing the evidence and finding it compelling. However, because
186 our team got a chance to put the evidence in front of the
187 Legislatures in Georgia, and Pennsylvania, and Michigan and now
188 Wisconsin guess what? Those legislatures have ALSO joined with
189 Texas in their suit against these states.

190 So those who oppose the Texas lawsuit hope the court will be
191 intimidated by their HIGH PRESSURE and ARM TWISTING —
192 and BRIBERY EFFORTS, and BLACKMAIL EFFORTS — to bully
193 the court into backing away from the case. (This is the most
194 important thing to pray about going forward. You must
195 understand that these Jurists are under ENORMOUS political, and
196 personal pressure to refuse to take this case.) Meanwhile, the
197 argument will be the internal affairs of the States is their business,
198 and the complaint is moot because there was no harm—because
199 there is no proven fraud.

200 The Texas suit purposely avoids getting drawn into the quagmire
201 of proving fraud, not because there is no proof, but because such a
202 case would take weeks, and maybe even months to prosecute. It
203 depends. Texas, et al. could opt to zero in on one or two smoking gun
204 examples, but if the COURT will rule strictly according to LAW, I
205 don't see how it could legitimately rule against Texas—clearly, the
206 Constitution was violated, and the states joined in the complaint
207 were obviously harmed because their equal protection under the
208 law was violated. In other words, the COURT needs to focus on the
209 matter of their concern: LAW! 1. Was the LAW FOLLOWED?
210 And 2. Were RIGHTS violated? The answer to the first is NO! And
211 the answer to the second is YES!

212 Pray SCOTUS will be protected, will not succumb to the intense
213 efforts to bully them into submission to the Deep State, and will
214 not fall for the specious arguments the DEEP STATE will use to

215 provide cover for the COURT from accusations of miscarriage of
216 JUSTICE that will certainly follow any failure on their part to
217 RULE ACCORDING TO LAW.

218 Hold on through the break! I'll be right back!

219 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
220 at the Lighthouse, your brain masseur, and Paul Revere's lantern
221 lighter, lighting the lamps in the church belfry arch, signaling the
222 enemy is on the march, an enemy that would steal from us our
223 liberty.

224 We know the left has attempted to fraudulently steal the election
225 from Trump. Only a fool would actually believe otherwise. Biden
226 said out loud in front of God and everybody that he and Obama
227 put together the most expansive and inclusive voter fraud
228 organization in American political history. He was not kidding!

229 As for voter fraud, we don't have time to unpack all of it. Just look
230 at that video taken in the State Farm Arena. I read a big rebuttal of
231 that as evidence and I'm telling you folks, that video has them on
232 the ropes. The rebuttal attempted to reinterpret what we see clearly
233 but it's really strange how they keep talking about "seeing the whole
234 video" all of it, and when you see all of it — but leave out
235 significant segments themselves, and never show any video proof
236 that supports their "explanation." It's like, see this segment that
237 Trump's team did not show you? Well, that proves it. They did not
238 show you that, did they? So, what is it in we were not shown that
239 changes our view of what we did see? NOTHING! Nothing
240 happens in those segments that would change your understanding
241 of everything we have seen. So, when that sort of thing is tried, you
242 know they are in very deep trouble.

243 Add to that the 700 affidavits of eyes witnesses testifying to fraud
244 and "irregularities," and this, from Georgia's State records — did

245 you hear that? What I'm going to lay before you is hard facts taken
246 from Georgia's own State records:

247 2,560 Felons voted; 66,247 underage voters voted; 2,423 voted were
248 not registered; 1,043 voters gave a PO Box address; 4,926 voted
249 who were registered to vote in another state; 15,700 moved out of
250 the State before the election; 40,279 voted who had moved to
251 Georgia but failed to register; and according to State records
252 anywhere from 30,000 to 40,000 lacked a proper signature
253 verification before the vote was counted. All of this is ILLEGAL—
254 and by Georgia's own ADMISSION this accounts for over 130
255 thousand votes. In the Texas lawsuit, 170,000 votes in Michigan
256 cannot be connected to a registered voter! ????? Remember, the
257 trick the left uses is that, well, this does not "prove" fraud because a
258 COURT of LAW has not RULED on it. And, friend, that is only
259 the tiniest tip of the massive iceberg of evidence that we have. And
260 their Titanic is heading straight for it. In fact, they've hit it! Many
261 who realize it are scampering about looking for a lifeboat while the
262 MSM are playing Autumn — because when someone requested
263 Nearer My God to Thee — they had a vote and the Democrats
264 decided to vote God out! Haha!

265 So, here are END game scenarios 1-5—with an additional scenario
266 that only recently developed and centers on the fall of the Biden
267 crime family with indictments impending.

268 1. State Courts rule the election results were tainted by fraud and
269 order the precincts where the fraud occurred to either redo the
270 election, or decertify their election results. (Which would take us to
271 no. 2. Or this failing, no. 2)

272 2. Legislators in each of these states step up, call foul, and appoint
273 electors. (I've heard this could play out in two ways. One, the
274 Board of Elections set forward s slate of electors dedicated to Biden
275 while the Legislature sets forward a set dedicated to Trump, which
276 effectively neutralizes that states vote in the electoral college; or

277 two, the legislature cancels the electors dedicated to Biden and
278 send only electors dedicated to Trump.)

279 3. The Supreme Court receives the Texas case, or some other, and
280 rules in favor of the suit which cancels the elections in each of
281 those states on the ground that it was done contrary to the
282 Constitution. This will create a scenario in which neither Biden nor
283 Trump can receive the necessary 270 electoral votes, and throws
284 the election to Congress.

285 4. Congress receives the burden of electing the President and Vice
286 President. The House elects the President and the Senate the Vice
287 President. In the House, each state receives one vote. Presently, in
288 terms of States represented (not in terms of numbers of
289 Representatives, but States represented) the Republicans have the
290 majority. The Senate, of course, is held by Republicans.

291 5. Trump invokes the Insurrection Act, rounds up the named
292 culprits who have attempted to perpetrate a coup by stealing our
293 election process in USA, and orders a redo on the national election.
294 (4.1-2)

295 6. AND NOW THIS DEVELOPMENT: The case against the Biden
296 family moves forward, Biden is apprised of the fact that he is about
297 to be indicted, along with his son and brother, Biden makes a deal
298 to concede for remaining out of jail—Trump becomes President.

299 The Coming War for Liberty Will Likely Be Fought On Our Soil—
300 a war with China through their proxy communists planted within
301 our country with possible assistance from Canada (4.3), and
302 Mexico (6.9).

303 The Navy has deployed the USS Carl Vinson off the West coast
304 floating about in the waters near Oregon/Washington border. The
305 USS Essex is floating off the coast of San Francisco. The Theodore
306 Roosevelt along with its strike force is patrolling the coast of
307 Connecticut, the Gerald R. Ford is off the coast of New Jersey, the

308 USS Iwo Jima off South Carolina — along with a significant
309 deployment of ground troops to Ellis AFB in Nevada — one would
310 think we are anticipating an attack on the Continental US. Some
311 think when Trump is declared the winner of the election, the
312 DNC's next move will be to call on the UN to attack America and
313 depose Trump, and others that Soros and company will launch
314 their Antifa-BLM mobs to attack the streets of America in the Blue
315 States — from what I've seen from the Demoncrats today, I think
316 you should be prepared for both A and B, plus an effort to
317 assassinate Trump and Pence, or their families — please PRAY!

318 I heard some suggest that China is behind this whole thing, that
319 China has set up operations in Canada, and Ezra Lavant has
320 brought out some disturbing revelations from internal documents
321 in Canada showing Trudeau inviting China to establish a military
322 presence in Canada—joint exercises and so forth—remember,
323 Trudeau said China is the country he admires MOST and
324 explained why—because their "dictatorship allows China to turn
325 their economy around on a dime." Naval power in the China Sea —
326 Well, here is one of those shows where I wish I had an hour! Okay.

327 The essential operating principle of DIVINE INTERVENTION
328 explained — when, and how can we expect GOD to show Himself
329 openly.

330 God has ordained government officials to serve as ministers for us
331 for good (Romans 13:1-6). Their primary responsibility is to
332 execute wrath upon evildoers. We understand *good* and *evil* are
333 used in the context of the BIBLE and so they take those meanings.
334 In other words, government is ordained to protect the good as the
335 word *good* is understood in the Bible, and to execute wrath upon
336 the Biden and Clinton crime families—I mean, the evildoers, as the
337 Bible defines them. You know, people who commit crimes against
338 the people, who betray the good and sell them into the power of
339 evil men and women for their own personal gain.

340 We wonder sometimes, where is God in these situations? Friend,
341 He gave the sword to us—we need to USE IT!

342 America distributes power over a pretty wide array of offices in the
343 US all of them ultimately answerable to We the PEOPLE. This
344 provides a series of what we call checks and balances—if one level
345 fails, we turn to the next, and so on. We have allowed many evil
346 men and women to creep into power in our land and now we are
347 paying for it. As each level of power fails to execute wrath upon
348 evildoers, God waits for the next to respond and take care of it. He
349 expressly gave this "to men" (Genesis 9:6 and Romans 13:1-6, along
350 with several other passages).

351 So, the State legislatures fail, and the courts fail, and the DOJ fails,
352 and the FBI fails, and forget the CIA—their the ones running this
353 game—and finally the SCOTUS fails, and then the Congress fails,
354 and finally it comes down to one man, the only man the entire
355 nation of WE THE PEOPLE ELECTED to defend the
356 CONSTITUTION from ALL Enemies BOTH Foreign and
357 DOMESTIC — must step up to the EVILDOERS and EXECUTE
358 WRATH UPON THEM — and if that fails! It's OPEN
359 DESTRUCTION FROM THE ALMIGHTY! That's what the Deep
360 State had in mind for us with Hillary—imagine, Hillary plus
361 COVID — imagine — we would be in hell already. But God raised
362 up Trump—and Trump, pray for him, Trump will not bend to the
363 Deep State—God is using him to stand between us and Tyranny—
364 Pray for him and his family, Pence and his family, all the faithful in
365 his cabinet and Kaliegh McEnany and all his supporters—because
366 my friend, we are at WAR with China, which is using their proxy
367 DEEP STATE operatives inside the US to attack from within, and
368 their DEEP STATE Canadian operatives and most likely also in
369 Mexico to coordinate an attack that will possibly go physical — and
370 that's true whether it's Trump or Biden by the way! The difference
371 is with Trump, America will FIGHT and STAND for our liberties.

372 Biden will bow deeply to Xi Jing Ping—and surrender America to
373 Communist China.

374 But we have the ultimate weapon — PRAYER! Full armored
375 PRAYER. Join us Sunday 9:30, 10:45, AM and 5 PM.

376 I have lit the lamps in the Church belfry arch and now you let me
377 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
378 ON and you will ride like Revere and spread the warning,
379 (essentially, it means you agree with what I'm saying) or you say
380 LIGHTS OFF -- which means you reject what I'm saying and
381 disagree strongly with me. So, what will it be today, lights on, or
382 lights off?
