

Brain Massage®: Show No. 826 The Middle Class Squeeze / Wars & Rumors  
of Wars / From COVID to Bovid?

Jerry Scheidbach

Original Air Date: 04.17.21

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the  
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain  
3 masseur—get ready for your brain massage.

4 The middle-class squeeze—how Corporate Welfare and Dependent  
5 Welfare — upper class welfare and lower class welfare — is  
6 squeezing out the middle class.

7 Wars and rumors of wars: Trump was dismantling the US war  
8 based economy and negotiating PEACE in the MIDDLE EAST —  
9 in only a little over three months, Biden has the entire world in  
10 uproar and war!

11 The LEFT is LOSING IT! Maxine Waters, and Fauci are loosing  
12 their cool—and the Democrats are exposing their agenda for all  
13 Americans to see.

14 More COVID news: the truth about the mask mandate is  
15 beginning to break through the information barrier put up by the  
16 Americkanski Nazis!

17 ON A LIGHTER NOTE: Demi Lovato, friend of the purple  
18 dinosaur — is taking her stand — she cut her hair! Yep! That's  
19 news? Well, it's the reason she cut her hair that gets our attention.

20 And good things floating in on the FLOOD: CNN loses half of its  
21 audience, 45 states are tightening election laws, totally freaking out  
22 Soros and friends—more American are armed and ready today  
23 than ever before. 72% support the Second Amendment.

24 Remember the horror we felt when we learned Planned  
25 Parenthood was, and probably still is, selling aborted baby body  
26 parts? Well, the FDA has been caught buying "fresh" aborted baby  
27 body parts from "DEALER."

28 Tragically, Chicago police shot a thirteen-year-old kid, CBS  
29 reported. The body cam footage used by CBS in their report was  
30 manipulated. They cropped out the GUN held by the kid.

31 Robert Jacob is a former mayor (Sebastopol, CA — up around  
32 Sonoma) and strong supporter of BLM/ANTIFA rioters. Arrested  
33 on 11 counts of lewd and lascivious acts with minors—and yeah,  
34 this creep went "all the way" with children.

35 Join me for an UNMASKING RALLY—time and place to be  
36 announced. Working on a short booklet explaining why masks are  
37 a bad idea—why America needs to BREATHE!

38 Okay, my friends; it's time for your brain massage!

39 [TRUTH]

40 The middle-class squeeze—Corporate Welfare and Dependent  
41 Welfare — upper class welfare and lower class welfare is squeezing  
42 out the middle class.<sup>1</sup>

43 Have you wondered what's going on with Corporate America these  
44 days? Have they all gone crazy? 72% of all Americans strongly  
45 support VOTER ID laws. But virtually all corporate America is up  
46 in arms about this, and coming out aggressively in opposition to  
47 72% of their customer base.

48 We have a double whammy here. Or, a double scammy!

49 First, who in their right mind opposes VOTER ID laws? Think  
50 about all the stuff you need an ID for: Alcohol, Cigarettes, opening  
51 a bank account, applying for food stamps, for welfare, for Medicaid  
52 and social security, unemployment, for a hunting license, fishing  
53 license, to get a job, to rent or buy a house, to drive a car, to buy a  
54 car to drive, to rent a car, to board an airplane, to get married, buy  
55 a gun, adopt a pet, rent a room, buy a cell phone, visit a casino,

<sup>1</sup> 826.27.13-Wall Street, Corporations Team Up with Soros-Funded Group to Pressure States Against Election Reforms \_ David Harris Jr\_ (ONLINE: <https://davidharrisjr.com/steven/wall-street-corporations-team-up-with-soros-funded-group-to-pressure-states-against-election-reforms/>)

56 pick up a prescription, get a permit to hold a rally or protest, make  
57 a blood donation, buy an "M" rated video game, purchase nail  
58 polish at a CVS, to purchase certain cold medicines—and that just  
59 gets us started—friend it's almost not an exaggeration to say the  
60 only official thing you can do without an ID is VOTE. I mean, you  
61 can't even attend a DNC convention without showing your ID.

62 But what is arguably the MOST important act of citizenship in any  
63 Representative Republic is VOTING — and no one with any  
64 respect for the integrity of citizenship and the responsibility each  
65 carries in performing this most fundamental of all citizenship  
66 duties can with any credibility argue that it's not a good idea for  
67 those citizens to show proof of their identification when voting.

68 So, the first head turning idiocy of these corporations is that they  
69 would not want to protect the integrity of the VOTE — that they  
70 would be okay with exposing millions of legitimate voters to  
71 having their vote cancelled by illegitimate votes leaves us with only  
72 one possible conclusion: the corporations have been in collusion  
73 with wicked and evil politicians in stealing elections for a very long  
74 time and they don't want to be exposed, nor do they want to lose  
75 their power to control who runs the country.

76 The second whammy—scam—is that they would come out in open  
77 and hostile opposition to something 72% of Americans want—  
78 what business purposely ticks off almost two thirds of their  
79 potential customers? Unless — they have something to hide,  
80 something soooo secret, and so important to their business model,  
81 something that threatens them so seriously, they are willing to take  
82 a position against their customers to protect. What would that be?

83 CORPORATE WELFARE. It's a little talked of phenomenon that  
84 big business—I mean the ones that are "too big to fail"—big  
85 corporate interests BUY POLITICIANS — they donate big money  
86 to these guys and gals so that they have leverage on them while  
87 they are in office — to influence them to develop policies that

88 SQUEEZE out their competition and protect their interests — and  
89 be there to BAIL THEM OUT when they drive their companies  
90 into near bankruptcy. These guys purchase influence so that what  
91 happens is the REPRESENTATIVES we send to office actually do  
92 not represent us, they represent their CORPORATE buddies.

93 Like Biden — whose administration awarded a nonprofit  
94 organization called Endeavors, whose executives earn a cool 300k  
95 per year, an organization that happens to be connected to the  
96 Bidens, so the Biden admin grants to Endeavors a 530 million no  
97 bid contract to build housing for the illegal migrants Biden is  
98 drawing into this country—to provide for the hoarde gathering at  
99 our border which Biden refuses to call an EMERGENCY — oh!  
100 Really? Well then, it's against the LAW to award a no bid contract  
101 to any one except in an EMERGENCY situation—so, what is it  
102 JoeBama? It there an EMERGENCY on the border, or did you  
103 violate the LAW? Not that it matters to a plagiarist — not that it  
104 matters to an election thief. Not that such things matter to  
105 someone who removes Trump's policies controlling the border,  
106 and then reinstate them under his own name trying to steal credit  
107 for another man's work — once a Plagiarist, always ... well you  
108 know!

109 And have you noticed how the "corporations" are coordinating  
110 their attack on our liberties: after OKeefe let loose a series of  
111 hidden camera videos embarrassing to CNN (Showing a director  
112 admitting CNN is engaged in propaganda), Twitter bans Veritas  
113 from their platform.

114 Notice how the corporations coordinate their attack on our  
115 liberties by using their influence to PROTEST voter ID laws —  
116 how Amazon coordinates with Twitter to suppress free speech—  
117 how is it that all these people work together against the PEOPLE?

118 Well, part of it is in the CORPORATE welfare scam—corporations  
119 buy politicians, and then politicians also coordinate with them to  
120 advance a particular political agenda.

121 It goes from protecting their business interests, to advancing the  
122 political interests of the Party that best serves their business  
123 interests. Since it's a lot easier to buy a corrupt politician, and  
124 because most corrupt politicians are Democrats — the corporate  
125 world is DEMOCRAT.

126 These corporate welfare dependent companies FEED OFF THE  
127 MIDDLE CLASS. Why? Because that's where the tax money is; it's  
128 not coming from the so-called lower class Americans, those that  
129 live on welfare.

130 The welfare demographic is almost totally DEMOCRAT. I'm  
131 talking about those who live on welfare as a way of life —  
132 generational welfare dependents. They get stuck in that quagmire  
133 and only those with extraordinary motivation and drive can dig  
134 themselves out. The system is rigged against them. They become a  
135 voting block whose interests are to gain as much access to the dole  
136 as they can — they want "raises," I kid you not, they want medical  
137 benefits and all the rest — and they want a sustenance level income  
138 whether or not they work for it — these people are feeding off the  
139 middle class.

140 So you've got corporate welfare feeding off the middle class, and in  
141 collusion with the government to create an environment that  
142 makes it almost impossible for anyone to compete with them, and  
143 using tax dollars to protect their interests, then you have the so-  
144 called lower class welfare dependents feeding off the middle class  
145 — and you are watching what this looks like right now.

146 The corporate interests of big business is protected — these rioters  
147 are not hitting the big box stores, they are not burning down Wal  
148 Mart, or Costco — they are burning out the small business owner.

149 The lockdowns are not targeting the big corporation outlets — they  
150 are targeting the small business owner — the middle. It's a giant  
151 SQUEEZE — the middle class is in a vice and they are cranking it  
152 down on us — squeezing out the middle class.

153 But we are resilient! And we are THE MAJORITY!

154 Woke A Cola is feeling the heat — and the MLB is rethinking its  
155 position. Ford, and GM are going to feel it, too. The three-dozen  
156 other MI based companies that are making a bunch of noise  
157 against voter ID laws, well they are also beginning to *feel the heat*.  
158 We are DONE! The good news is that 45 of the fifty states in the  
159 US are stepping up to the call to TRUE THE VOTE. These liars are  
160 not "protecting the disenfranchised," they are Disenfranchising the  
161 AMERICANS who PAY THE WAY! And we are tired of it!

162 Trump and Lindell are stepping up to provide a REAL alternative  
163 to FB and Twitter and YouTube. Some of you probably remember  
164 when moi said, oh, I think it was about two years ago, FB and  
165 Twitter and YouTube are private companies—but I trust American  
166 ingenuity — some smart businessman is going to see a huge  
167 market here and step in and FB and Twitter and YouTube will be  
168 as forgotten a Ma Bell. Those Dinosaurs are stepping into the tar  
169 pits as we speak.

170 Next: Wars and rumors of wars: China threatening Taiwan, China  
171 teaming up with Iran against America, Iran moving forward  
172 toward getting nukes (starts up advanced centrifuges), Israel  
173 attacks an Iranian Revolutionary Guard base, and a nuclear  
174 enrichment center blackout that wiped out half their production of  
175 nuclear stuff, Iran's irrational screams about "Nuclear terrorism"  
176 tells us the Israelis hurt them good—and we have Iran's increasing  
177 hostility against American troops in Iraq—using drones and 20  
178 bomb and rocket attacks, Biden expels 10 Russian diplomats, and  
179 imposes sanctions over "election interference," Russian troops  
180 gather on the Ukraine border (heavy artillery with tanks and 28

181 battalion tactical groups on the northern and eastern borders of  
182 Ukraine, along with Russian invasion forces in Crimea)—Biden  
183 deploys Navy toward the Black Sea, Russia warns US stay out of the  
184 Black Sea if you know what's good for you—Biden backs down—  
185 cancels Black Sea deployment—JoeBama — remember all the "red  
186 lines" Obama drew — one after another! JoeBama — it appears  
187 Biden has given up trying to push North Korea into striking the  
188 match of war—and JoeBama managed to accomplish all of this  
189 within the first quarter of their administration.

190 Okay, it's time for a break. I'll be right back!

191 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor  
192 at the Lighthouse, your brain masseur, and Paul Revere's lantern  
193 lighter, lighting the lamps in the church belfry arch, signaling the  
194 enemy is on the march, an enemy that would steal from us our  
195 liberty.

196 This is one of those stream of consciousness shows — and the  
197 prophet's boil continues — hehe!

198 The LEFT is LOSING IT! Maxine Waters yells at Jim Jordan —  
199 tells him to "shut up." Hehehe. Tucker interviews Fauci, and asks  
200 him a very simple question: "If I have taken the vaccine, why do I  
201 have to wear the mask?" Fauci fumbles about and finally becomes  
202 frustrated and starts accusing Tucker of engaging in "conspiracy  
203 theories." So Tucker comes back clarifying the question — no, no,  
204 the question is very simple — if the vaccines work, and I get  
205 vaccinated, why do I have to wear this dumb mask? It's funny, but  
206 in a sub-category of macabre theater.

207 Not at all funny is the number of people who are having an adverse  
208 reaction to the vaccines. Here is a guy who is partially paralyzed  
209 and unable to talk after taking the J&J vaccine. You've heard about  
210 the seven women who died of blood clots believed to have been  
211 caused by the vaccine. Then I'm watching this charade in Congress

212 where a "Representative" (a Corporate Representative) is trying to  
213 censure Tucker for suggesting the vaccines don't seem to be  
214 working. But this is something some very savvy doctors are saying.

215 More COVID news: Ted Cruz and Dr. Rand Paul have GONE  
216 UNMASKED! Israel signaling a move to THROW OFF THE  
217 MASKS. Texas opened their state, threw off the mask mandate  
218 nonsense, and now has 80% immunity—! Some might remember  
219 when this masking and social distancing and lockdown measures  
220 were being introduced, I was curious and expressed my concerns  
221 these measures will EXTEND the pandemic rather than shorten it.  
222 I brought out the fact that back in the day, scientists understood  
223 the pattern of a virus like this to be as people are exposed, they  
224 develop natural antibodies resisting the virus, which weakens it,  
225 and as this continues the virus becomes increasingly weakened  
226 until we reach something called herd immunity. The government  
227 interfering with the natural process has extended the misery and  
228 allowed the virus to remain strong for a longer period of time.

229 Look, everything these yahoos are doing right now is only serving  
230 to make sure a whole lot more people die than would have died if  
231 they simply let GOD's natural immunity program work—work to  
232 facilitate that, measures that encourage and strengthen our natural  
233 immune response would have been a much better strategy. And  
234 allow the FRONT LINE DOCTORS to prescribe according to their  
235 own knowledge and practice of medicine instead of these  
236 establishment government medical "professionals" who don't  
237 practice medicine at all, but deal with bureaucrats and politicians  
238 all day—or busy themselves with "gain of function"  
239 experimentation—that gets outlawed because it is unnecessary and  
240 dangerously like making biological weapons—so then these sorts of  
241 "doctors" send the research to Wuhan, China where they have  
242 laboratories specializing in this sort of thing, and give them some  
243 taxpayer money to fund the research—.

244 Oh, and then declare a virus outbreak is coming to challenge the  
245 Trump administration, and then, conveniently, the virus this  
246 "doctor" was involved with in gain of function research gets  
247 released from the Wuhan lab—and then use your position as a  
248 "doctor" to advocate for policies you know will only extend the life  
249 of the virus and allow it to kill as many people as possible, and then  
250 get five wicked governors to order COVID positive elderly patients  
251 to be admitted into elder care facilities even after they were told  
252 this would almost certainly kill them and lead to the deaths of  
253 many other elderly — and, well, you get the idea.

254 So, Mr. Fauci, just in case you wonder why many of us are  
255 convinced you and your cohorts "conspired" to use this  
256 coronavirus to destroy the Trump economy, and provide a cover  
257 for stealing an election, and at the same time position you and your  
258 friends to make a huge windfall in profits from the sale of vaccines  
259 — which, like these stupid masks, never ends — take this vaccine,  
260 then a follow up, then another one — DONE! Get off our backs!  
261 Get out of our lives! I'll take nature and nature's GOD over your  
262 meddling in matters that either you are too ignorant and you don't  
263 know what you are doing, or you are a malevolent miscreant in  
264 league with Gates and company on a mission to depopulate the  
265 world—what's with the rolling eyes, hey, yeah, you! Right? You!  
266 Gates is on record calling for depopulation. Good night! He is  
267 wanted in India for crimes against humanity—by 2018, 75% of  
268 polio cases worldwide were caused by Gates vaccines. The guy has  
269 reintroduced polio to the world—he is the anti-Salks — Then there  
270 is the devastation in Africa—December 12, 2012, small village in  
271 Gouro, in Chad, Africa — at the edge of the Sahara — five hundred  
272 children were locked into their school and threatened that if they  
273 did not agree to forced vaccination for meningitis they would be  
274 kicked out of school. The children were vaccinated without their  
275 parent's approval or knowledge. Within a few hours, 106 of these  
276 children complained of headache, and started vomiting, and

277 convulsing, which led to paralysis. Then there is the thing about  
278 "African women injected with vaccines laced with anti-fertility  
279 hormones." This was followed by a story out of Modern Ghana  
280 reporting that 500k young girls and women had become infertile.  
281 In Kenya, Catholic Bishops boycotted a polio vaccination program  
282 there because they believed it was manufactured by a Gates funded  
283 institute that used estradiol — a derivative of an estrogen hormone  
284 that causes infertility.

285 ON A LIGHTER NOTE: Demi Lovato, friend of the purple  
286 dinosaur — is taking her stand — she cut her hair! Yep! That's  
287 what she did! She got her self a "regular boys haircut." That's news?  
288 Well, it's the reason she cut her hair that gets our attention: "Demi  
289 Lovato cut her hair in order to "FREE HERSELF OF 'GENDER  
290 AND SEXUALITY NORMS' IMPOSED BY CHRISTIANITY."

291 Good things floating in on the FLOOD: CNN loses half of its  
292 audience since inauguration — Bongino asks, "only half?" Texas  
293 moves to join Vermont, Alaska, Arizona, Wyoming, Maine,  
294 Kansas, West Virginia, Idaho, Mississippi, Missouri, New  
295 Hampshire. North Dakota, South Dakota, Oklahoma, Kentucky,  
296 Arkansas, and Iowa in becoming a CONSTITUTIONAL CARRY  
297 State. That means these States acknowledge that your right to keep  
298 AND BEAR arms is inalienable and Constitutional — your  
299 "permit" to keep and bear arms is the SECOND AMENDMENT.

300 And, now, after that bit of relief: Remember the horror we felt  
301 when we learned Planned Parenthood was, and probably still is,  
302 selling aborted baby body parts? Well, the FDA has been caught  
303 buying "fresh" aborted baby body parts from "DEALER." Dealer?  
304 Hmmm. Who "deals" in selling 'fresh' aborted baby body parts?

305 Tragically, Chicago police shot a thirteen-year-old kid, CBS  
306 reported. The body cam footage used by CBS in their report was  
307 manipulated. They cropped out the GUN held by the kid—police  
308 were responding to a "shots fired" call, came on this thirteen-year-

309 old Adam Toledo, who was wielding a gun, in the exchange, the  
310 kid was shot. Mayor Lightfoot wasted no time playing the race card  
311 and blaming the police. Chicago Tribune reports that 163 people  
312 have been killed by homicide in Chicago already this year. That's  
313 more than were killed in all of 2020 — 23 more. 26 have been killed  
314 in April alone. This is April 16 — not even half way through the  
315 month. Lightfoot is a miserable leader who has failed her city.

316 What's with modern liberals and sex crimes against children? We  
317 keep getting these reports—here is another one. Robert Jacob is a  
318 former mayor (Sebastopol, CA — up around Sonoma) and strong  
319 supporter of BLM/ANTIFA rioters—yeah, I mean on the record  
320 supporter of using violence to drive home their demands for what  
321 they call social justice (hard to figure that! Social justice is  
322 destroying your neighbors property who never did anything to you  
323 in order to show your anger about something you suppose was  
324 done to you by someone who has been in a grave for 100 years?) So  
325 this guy is a big proponent of "defund the police," and, oh,  
326 according to this report, he is openly gay and married since 2019—  
327 I mean, this guy has all the creds of a modern day social justice  
328 hero. Arrested on 11 counts of lewd and lascivious acts with  
329 minors—and yeah, this creep went "all the way" with children.

330 TO MASK OR TO UNMASK — that is the question.

331 When are we going to FOLLOW THE SCIENCE? *Some* medical  
332 doctors tell us we must wear the mask to STOP THE SPREAD!  
333 But many other medical doctors with equivalent credentials tell us  
334 there is not one scientific study that supports this. In fact, some  
335 very reputable doctors of medicine warn that wearing masks can be  
336 harmful. Even more surprising is the fact that no western medical  
337 professional would have recommended masks as public policy for  
338 controlling a pandemic before the SARS-CoV-2 outbreak. None!  
339 Not even Mr. Fauci. Remember, in the beginning of the outbreak,  
340 Fauci scoffed at the suggestion that Americans would be wearing

341 masks. After he changed his mind about the importance of masks,  
 342 he was pressed on the question of whether masks are necessary, he  
 343 admitted, masks are "largely symbolic." Maybe that's why we have  
 344 so many pictures of Fauci, and other leaders, unmasked in public  
 345 and around others.

346 Science is the accumulation of knowledge based on conclusions  
 347 derived from observations that are tested through carefully  
 348 controlled experiments. *Science* is not the best guesses of  
 349 scientists. When you read a highly respected scientific journal  
 350 opining on the question of whether masks mandates are a good  
 351 idea such as the New England Journal of Medicine and it says, "As  
 352 SARS-CoV-2 continues its global spread, it's *possible* that one of  
 353 the pillars of Covid-19 pandemic control — universal facial  
 354 masking — *might* help reduce the severity of disease and ensure  
 355 that a greater proportion of new infections are asymptomatic,"<sup>2</sup> that  
 356 is not a "scientific conclusion." It's an opinion!

357 Science is not about *might*, *possible* and *perhaps*. Honest scientists  
 358 use such words when they are offering an untested, unproven  
 359 opinion.

<sup>2</sup> The New England Journal of Medicine, Perspective, October 29, 2020, *Facial Masking for Covid-19 — Potential for "Variolation" as We Await a Vaccine*, Monica Gahnhi, M.D., M.P.H., and George W. Rutherford, M.D. (Online: <https://www.nejm.org/doi/pdf/10.1056/NEJMp2026913?listPDF=true>) 4/15/21 (Read through this entire article and note the use of such expressions as the following: "If this hypothesis is borne out," "masking seemed to be a possible way," "suggested ... a strong relationship between public masking and pandemic control," "facial masking *may* also reduce ...," and "The possibility is consistent with a long-standing *theory* of viral pathogenesis," "If the viral inoculum (—volume of virions present, ed.) matters ... an additional *hypothesized* reason ...," "masking *might* reduce the (—volume of virions, ed.) that an exposed person inhales," and "might contribute," and "if this theory bears out," and the idea that if something *could* and *might* reduce infection and transmission it should therefore be tried is very short sighted. No consideration is given to the number of deaths by suicide arising from despair caused by the lockdowns, which are associated with the masking strategy, together with the sometimes severe reactions of some vulnerable persons to wearing masks for extended periods, such as is addressed in the respected Journal of Primay Care & Community Health article titled, *The Effects of the Face Mask on the Skin Underneath: A Prospective Survey During the COVID-19 Pandemic*, first published October 21, 2020, authors and contributors are identified by initials only. Also, notice the more positive claims: "Past evidence ... can also protect the wearer ... by blocking viral particles from entering the nose and mouth" and follow up by reading the supporting documentation, which turns out to be another opinion piece written by the primary contributor to this article, Gandhi M. with Beyrer C and Goosby E. published in *J. Gen Intern Med* 2020 July 31 (Epub ahead of print). These doctors turned to Asian studies that were unsupported in Western medicine until Covid-19, which we now know originated in Wuhan, China, which country is highly interested in controlling information about this virus, and is the chief influence presently dominating our establishment medicine community. A study involving hamsters used to model simulated masking offered some hopeful results. Unfortunately, this study is not referenced. And then there are the statements that are challenged by more current data: "asymptomatic infection rates are reported to be higher than 80% in settings with universal facial masking," followed by "Countries that have adopted population-wide masking have fared better ..." are challenged by more up to date data that informs us States that have removed lockdowns and mandated masking are faring much better than those that continue those extreme mitigation strategies. All observations depending on asymptomatic infectious rates as proof only supports the more broad truth that this disease was simply not so lethal as was first believed, or reported.)

360 Ordinarily, we would agree that it is reasonable to expect the  
361 opinions of persons trained in medical science would be more  
362 dependable than those of someone untrained in medicine. But in  
363 today's politically charged environment, where so much political  
364 pressure is at play in this debate, it is reasonable to question  
365 whether the opinions are unbiased.

366 One dramatic example of such political bias at work was revealed  
367 recently when the WHO (World Health Organization) admitted  
368 they used the now proven fake Lancet Study to discourage use of  
369 Hydroxychloroquine.<sup>3</sup> Yeah! Trump was right, again!

370 And consider that no reputable scientist before Covid-19  
371 recommended masks as public policy to control the spread of any  
372 disease, much less one so small as a virus.

373 Not one science journal of any repute—and I have looked at all of  
374 them—has said the SARS-CoV-2 virus responsible for the disease  
375 we call Covid-19 is larger than any coronavirus known before. So,  
376 if masks were known by scientists to provide insufficient  
377 protection from a coronavirus before Covid-19, what changed that  
378 makes them effective now? The fact is, nothing has changed.  
379 Except for the opinions of *some* medical professionals. Who?  
380 Which? The government controlled, and highly politicized health  
381 departments, or other medical professionals latched onto the  
382 government nipple.

383 The fact is, there have been many experiments done to determine  
384 whether or not masks are effective in protecting wearers from  
385 transmission or contagion of diseases caused by a virus. The  
386 method used is called Randomized Controlled Trials (RCTs). If  
387 you ask, I'll provide several of these studies. If you study these, as  
388 I have, you will notice that all the science provides almost identical  
389 data, same methods, same experiments, with little variation, and  
390 virtually the same results—but you will notice one thing does

391 change. The scientist's recommendations begin changing at I think  
392 it was about January of 2020. Before COVID, there was universal  
393 agreement in Western medicine that masks are not a good idea for  
394 public use to control spread of a virus — but then at about the  
395 beginning of 2020 it shifted to masks *might, perhaps, maybe,*  
396 *could,* etc, and then shifted again, and this time they started  
397 introducing studies in support of the use of masks, and the  
398 STUDIES THEY BEGAN CITING WERE ALL ASIAN  
399 STUDIES — particularly, Chinese studies — we shifted to the  
400 CHINA model — and when those studies are examined it will be  
401 shown they are poorly managed, and clearly biased and politicized.  
402 China likes to MASK its people. Americans don't. That's the  
403 difference between a totalitarian controlled people, and people who  
404 are accustomed to FREEDOM.

405 Well, I'm outta time! I'll have to address COVID to BOVID  
406 question tonight during our visit! Catch us tonight on my  
407 livestream visit on FB — find Lighthouse Baptist Church Santa  
408 Maria, CA, like the page, set notifications to be alerted when I go  
409 live and—we'll talk some more.

410 I have lit the lamps in the Church belfry arch and now you let me  
411 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE  
412 ON and you will ride like Revere and spread the warning,  
413 (essentially, it means you agree with what I'm saying) or you say  
414 LIGHTS OFF -- which means you reject what I'm saying and  
415 disagree strongly with me. So, what will it be today, lights on, or  
416 lights off?
