

Brain Massage®: Show No. 831 Mask Wars—Anti-Maskers Unite! It's Time to BREATHE FREE AGAIN! — The Return of the POTUS!

Jerry Scheidbach

Original Air Date: 05.22.21

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.
4 HUGE Trump statement: wait for it! Don't adjust to their new
5 normal — JUSTICE IS COMING.
6 Mask Wars—Texas 1 — Biden, Fauci, et al, 0.
7 Remember when it was a war on Christmas? Now it's open war on
8 Christians!
9 The WAR on Jews comes to American streets:
10 The War on Patriotism is here!
11 And then, of course, the ongoing ELECTION Wars —
12 Remember when Carter called a boycott on Russian Olympic
13 games because Moscow refused to withdraw from Afghanistan?
14 How about we Boycott Beijing Olympic winter games for their
15 policy of genocide?
16 Are you experiencing battle fatigues? Getting tired of the constant
17 pressure—is it beginning to break you down? This Sunday I'm
18 offering biblical insight on how to stay in the battle without loosing
19 your mind.
20 Okay, my friends — it's time for your brain massage!
21 [TRUTH]
22 Mask Wars—Texas 1 — Biden, Fauci, CDC, and Liberals
23 everywhere—0.
24 Texas Governor Abbott, back in March, opened Texas 100% and in
25 his Executive Order expressly banned any government entity from

26 requiring or mandating masks — Dr. Fauci, the CDC and even the
27 current administrator of the DNC coup (the guy pretending to be
28 President) — Beijing Biden — okay, enough — Biden, Fauci, the
29 CDC all piled on and called Governor Abbott a Neanderthal —
30 which echoed repeatedly in the MSM and all over social media for
31 weeks. He was warned that Texas would pay for this.

32 Well, the most recent report tells us Zero COVID deaths, the
33 fewest COVID cases in over 13 months, the lowest 7 days COVID
34 positivity rate EVER, and the lowest COVID hospitalizations in 11
35 months. (I'll discuss the factors contributing to this in a moment,
36 but among the primary factors is that mask wearing and social
37 distancing are actually harmful and increase vulnerability to any
38 virus...but, more on that in a moment.)

39 CNBC Closing Bell invited Gregg Abbot to explain himself¹—I
40 watched the interview! The tone was respectful! Both hosts,
41 Wilfred and Sara seemed muted! They were "respectfully"
42 challenging the governor's latest move to add penalties for
43 government entities failing to remove all mask mandates contrary
44 to the recommendations of the CDC.

45 It's an interview I recommend you watch because it signals a shift is
46 beginning—these hosts were unable to rattle the Governor of
47 position him to look like, well, like the Neanderthal liberals called
48 him when back in March he opened the state and threw off the
49 mask mandates.

50 After the Governor clarified that his recent EO merely reiterates
51 what he already directed regarding COVID restrictions and add
52 penalties for non-compliance. Some government entities refused to
53 comply—the schools, for example.

¹ https://rumble.com/vhagwp-texas-gov-signs-executive-order-to-ban-nearly-all-mask-mandates.html?mref=6zof&mc=dgip3&utm_source=newsletter&utm_medium=email&utm_campaign=BonginoReport&ep=2

54 So Wilfred asks whether Texans should take from the Governor's
55 actions the idea that masks are not wanted across Texas anymore?

56 Abbott explained that people can wear masks if they choose to.
57 What Texans should take from his actions is that Government has
58 no business mandating people wear masks — he said, "I insist it's a
59 CHOICE issue — a decision to be made by Texans." He said, what
60 we are making clear is that government cannot REQUIRE anyone
61 to wear a mask.

62 Then he took the opportunity to interject what happened since he
63 first removed the mandates and opened the state. Zero COVID
64 deaths, fewest COVID cases in over 13 months, lowest 7 days
65 COVID positivity rate EVER, and lowest COVID hospitalizations
66 in 11 months. The governor said, however, we always encourage
67 people to MAKE THEIR OWN CHOICE.

68 CNBC: Sara chimed in. She informed the Governor, and the
69 audience, that the CDC is recommending schools keep the
70 COVID-19 guidance, specifically mask wearing and distancing.
71 She asked the Governor why not "just go with CDC guidance? Isn't
72 the CDC going to have trouble getting trust if governors are just
73 going about it their own way ..."

74 Abbott said that's a "great question, and you need to know the
75 answer." The Texan governor said, "Governors don't have a whole
76 lot of trust in the CDC." Boom! And, why should they; why should
77 we? He brought out the FACT that throughout the pandemic the
78 CDC has contradicted itself multiple times. Sometimes on the
79 same day it issues contradictory statements. And this has been
80 going on from the beginning, under both President Trump, and
81 Pretender Biden—*pretender Biden* is my characterization, not
82 Governor Abbott's.

83 Here Abbott reminded Sara that Fauci, CDC and Biden all piled on
84 him when he opened Texas and called him a Neanderthal. Then he

85 said, well, the Neanderthals won! "Everyone that criticized us for
86 opening up they were WRONG! So they did not know the science
87 or the math behind my decisions — and they CONTINUE TO
88 VACILLATE ON WHAT THE STANDARD IS."

89 [As an aside—Fauci has been contradicting himself right from the
90 start. I remember hearing him scoff the idea that Americans would
91 be wearing masks—dismissed it, and talked just as if he had read
92 the RCTs I read—the multiple studies in Western science that
93 showed masks are virtually worthless to protect from a VIRUS—
94 that the amount of mitigation they "might" afford was virtually
95 meaningless, and statistically ZERO—and every Western scientific
96 study was concluded by saying masks are NOT RECOMMENDED
97 for public mitigation against a virus. Social-distancing: the SAME!
98 And Fauci sounded like he was aware of these studies. Then, all of
99 a sudden, he flipped—so I checked, because I wondered if there
100 had been new studies to justify this change of position—and the
101 answer I discovered was NO! The science was all the SAME—the
102 only difference was in the conclusions of those conducting the
103 studies. Oddly, their conclusions went contrary to the science,
104 beginning with the first major push to force Americans to look like
105 Chinese. IT CAME FROM CHINA. The COVID came from
106 CHINA and the MASKS came from CHINA. Dinesh did a bit on
107 the Fauci mask follies—apparently, he looked into the RCTs on the
108 efficacy of masks to protect from a virus, as I did, and discovered
109 exactly the same thing—the science has NOT CHANGED—the
110 SCIENCE says masks do not protect you or anyone else from the
111 spread of a VIRUS. The virions are simply so small they pass
112 through the masks, and enter in through even the smallest
113 opening. The only mask that actually can provide some protection
114 is the very mask the CDC, and Fauci repeatedly say the public
115 should NOT WEAR: and for good reason. These have to be sealed
116 to your face and cannot be worn for more than a few hours at the
117 most—usually, it is recommended you don't wear them for more

118 than an hour. And then you have to break the seal in removing
119 them, and throw it away and go through the sealing process with a
120 new mask—and it's simply ridiculous! So, anyway, I'm getting
121 ahead of myself here. So, at first, Fauci says masks don't really do
122 any good — then, well, masks do some good — and then, well,
123 masks are mostly symbolic, and then, you need to wear two masks
124 — and then even if you are fully vaccinated, I continue to
125 recommend you wear a mask because even if you are vaccinated
126 you might be carrying the disease which was a real eyebrow
127 raiser—and so after he was fully vaccinated, Rand Paul caught
128 Fauci indoors wearing two masks and challenged, hey, if you've
129 been vaccinated, why are you wearing the masks, is this nothing
130 but theater? Fauci scolded Paul for asking such an impertinent
131 question and insulted, he explained the reason is that even though
132 he is vaccinated he might be a carrier so he wears it to protect
133 others, and then later he publically says, "But being a fully
134 vaccinated person, the chances of my getting infected in an indoor
135 setting is extremely low" — and then explained that his reason for
136 wearing a mask indoors now was in order to avoid sending mixed
137 signals????? — Friend, Fauci is a political creature and what he does
138 is about MANIPULATING the "herd into compliance" training
139 them to learn how to be good little commies like the Chinese.
140 Okay, gotta get back to my point here.]

141 Abbott pointed out that the current director of the CDC was
142 obviously confused about her mask policy. She had one rule for
143 masks, then a different rule, schools should be open, she said, then
144 schools should be closed—it's like from week to week it changes.

145 So, no, Governor Abbott explained, we don't have any confidence
146 in the CDC — and I would add, nor in Mr. FAUCI.

147 Sara had to concede — and in my opinion, it was difficult for her.
148 She said, "Unfortunately I think a lot of people would agree with

149 you, and you are vindicated on that initial mask decision
150 Governor, BUT ..." You ARE VINDICATED!

151 Well, Hallelujah! How long O Lord, Holy and True, will you not
152 VINDICATE us on the rest of this foolishness?

153 BUT—Sara had another question. And I'm glad she asked it. She
154 challenged the Texan Governor on the SCHOOL decision — "But
155 still, on the schools —" and she explained that most students have
156 not been vaccinated, so "why shouldn't they have to wear masks to
157 protect themselves."

158 What about the children? We must protect the children—? Surely
159 she has him here, right? The Governor handled it well — he
160 explained that all students at risk and all teachers concerned have
161 the opportunity to get vaccinated before the new order goes into
162 effect. And he added, in fact, even after the order goes into effect,
163 the students and the teachers can wear a mask if they believe it is in
164 the best interests of their safety.

165 No body is saying you can't wear a mask. What he is saying is that
166 the government cannot MANDATE it.

167 Now, I zeroed in on this interview because I think it is a perfect
168 example of what's going on with this mask nonsense.

169 Allow me to interject some additional information that it seems
170 Wilfred and Sara of CNBC's CLOSING BELL either don't know, or
171 conveniently ignore. I say that because it's hard to believe these
172 journalists are so lazy they have not dug more deeply into this
173 issue. In other words, if you really care about the children, why
174 didn't you dig into the actual risks for our children with regard to
175 COVID? And, another thing! Why aren't you concerned with
176 where this COVID thing came from that you apparently believe is
177 so dangerous to our children? By the way! I'm not questioning
178 Sara's sincerity regarding her concern about the children. I'll
179 explain in a moment why I think so many liberals remain ignorant

180 about the FACTS and so are left with nothing but emotional
181 arguments.

182 Apparently, Sara only reads the press releases or the official
183 statements released by CDC leadership — neither Wilfred or Sara,
184 it appears, actually look at the data that is available on the CDC
185 website.

186 By the way, this is consistent with virtually all liberals. They *believe*
187 in the institutions of government and trust them implicitly. The
188 Director of the CDC be their peeps, man, and there is a default of
189 trust there—which is something I totally understand. I have people
190 in my circle that I trust and would be inclined to go with what they
191 tell me confident that they would not lie to me or misdirect me, or
192 misinform me.

193 However, I think they should take a page from Reagan's book—
194 trust but verify.

195 Because if you believe the data tables provided by the CDC then
196 you would know that children are the LEAST SUSCEPTIBLE to
197 contracting and the LEAST VULNERABLE to dying from this
198 disease. The general death rate for persons under 65 is less than
199 1%. The recovery rate is 99.99%. For those with compromised
200 immunity, or other health issues, which includes, generally, those
201 over 65, still, the death rate is a little over 94.7%. The CDC data
202 show that almost all who died by COVID had other morbidities.

203 I was watching the day Birx announced their intention to
204 CHANGE the way they counted COVID deaths. I still don't
205 understand why, so far as I can tell, I'm the only bloke that caught
206 this and said on my very next radio/podcast — hey, did you hear
207 what Birx said? They are going the CHANGE the way they count
208 flu deaths — from now on, if someone dies WITH COVID they
209 will be counted in the DEATH COUNT — COVID will be added

210 to the CAUSE OF DEATH on certificates — but dying WITH
211 COVID is not the same thing as dying FROM COVID.

212 Hey, COVID kills, my friend. It has taken some of my own dear
213 friends—it's a nasty bug! And CHINA ought to PAY and PAY
214 DEARLY for this—but, anyway — I fear I went a bit long on this,
215 so let's pick it up on the other side of the break.

216 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
217 at the Lighthouse, your brain masseur, and Paul Revere's lantern
218 lighter, lighting the lamps in the church belfry arch, signaling the
219 enemy is on the march, an enemy that would steal from us our
220 liberty.

221 CNBC's CLOSING BELL with Wilfred and Sara did an interview
222 with Texas Governor Abbott about his latest executive order
223 removing mask mandates from schools in Texas.

224 I went over the interview carefully in the last segment—essentially,
225 the CNBC hosts had to admit GOVERNOR ABBOTT HAS BEEN
226 VINDICATED — opening Texas and removing the mask
227 mandates was a GOOD IDEA. Sara appealed to the governor to
228 consider the children, however, and challenged him to follow CDC
229 guidance regarding masks and distancing at school. He explained
230 any child or teacher at risk of getting COVID can get fully
231 vaccinated before the mandate is removed—and, if they want, they
232 can wear masks if they think it's in their best interests.

233 I took it a bit farther. I explained that according to CDC children
234 are the least susceptible of contracting this bug and the least
235 vulnerable of dying from it — 99.99% recovery for all healthy
236 persons and 94.7+% recovery from those considered at risk. There
237 are therapeutics that are effective if used early—and the whole
238 thing is a tsunami in a tea pot. Yes, people die from this disease—
239 and CCP and their friend, Dr. Fauci, must be brought to justice for
240 their part in unleashing this on the world—but the response to it

241 has greatly exacerbated the damage caused by the CCP and Dr.
242 Fauci, with the abetment of the CDC, the Blue State governors, and
243 government medical officials who SHOULD HAVE KNOWN
244 BETTER.

245 So, no, children do not need to be wearing masks or social
246 distancing—although, I agree that their parents should decide this
247 matter on their behalf. But I really hope they will take the time to
248 pay attention to their children and GET INFORMED.

249 Because making children wear masks all day at school is cruel—
250 and often enforced cruelly. Here is one school bus driver that
251 slapped a child in the face because she refused to wear her mask
252 "properly." If I'm reading this correctly, it's actually not well
253 written, but it appears this bus driver pulled her own mask down in
254 order to reprimand the student before she got provoked and
255 slapped the student in the face.

256 Friend, this is gone WAAAAAY over the top!

257 The ten year old — wow, interesting, this is coming from the ten
258 year olds—you'll see what I mean in a minute—this ten year old is
259 being scolded by the bus driver and this kid asks why do I have to
260 wear the mask — well all the other kids jumped in and fussed at
261 her "because it is the rule" — when the ten year old told the other
262 kids to but out — told them to shut up, you're not involved in this"
263 the bus driver slapped her in the face.

264 The driver resigned, seeing the YOUR FIRED signs on the faces of
265 all her peers and employer—but the parents are pressing charges of
266 assault, causing injury, child abuse.²

267 Here is another ten year old, his name is John, and he gave a
268 speech at the Martin County, FL school board meeting. I'll
269 summarize it. He was very articulate and stunned the entire school

² <https://www.msn.com/en-us/news/us/former-colorado-school-bus-driver-facing-charges-for-slapping-child-for-not-properly-wearing-mask/ar-AAKcSxX>

270 board. He complained that they were not allowed to play on the
271 playground or have student council, or even turn to face each other
272 at lunch. What?? He said they had to wear masks during PE and on
273 track. (I read the other day about a teen who collapsed after
274 running track in a STUPID MASK—mandated by the school.)

275 He talked about a teacher that walked around the school with a
276 clipboard and referrals passing them out to students not wearing
277 their masks properly—he said it's stressful, and make him afraid.

278 That same teacher (with a swastika in her heart—) yelled at the
279 students for removing their mask to get a drink of water, telling
280 them they will have to wait until they were in their parent's car to
281 have a drink of water. He said this makes us mad.

282 He said, this happens a lot.

283 He said the teachers take down their mask to yell at us, and tell us
284 to pull our mask up—and that's okay? He said he asked his mother
285 if there was a word for that. She said yes! Hypocrisy.

286 But please listen to this testimony of a ten year old and let me tell
287 you that what he describes agrees with the SCIENCE.

288 He said wearing the mask all day at school give him headaches.
289 This is from oxygen deprivation—kids use a lot more that adults
290 do. Headaches is one of the consequences of prolonged exposure to
291 a lack of oxygen. He said sometimes he has to miss school, and stay
292 in a darkened room to recover. He complained that the mask sticks
293 to his face when it's hot out, and makes it HARD TO BREATHE.

294 This is one of the things the SCIENCE studies I read bring out
295 about wearing masks for long periods of time. They build up
296 moisture and get hot and can cause fainting, and creates a micro-
297 environment filled with exhalants that are HARMFUL when
298 sucked back down into our lungs, with extra force, because we have
299 to draw harder in order to GET AIR.

300 He spoke of a teacher who takes mask breaks at her desk regularly
301 because she has asthma. He said, essentially, that while her reason
302 is asthma, mine is allergies and I find it difficult to breathe in the
303 mask. He said he understood why the teacher removed it from
304 time to time — but he thought it was unfair that he could not
305 remove his.

306 He also explained that wearing a mask makes him feel
307 claustrophobic and anxious. Yep! That's one of the concerns
308 SCIENTISTS identified as a problem with masks.

309 He said, I think brilliantly, by the way, that "BREATHING FREELY
310 DOESN'T SEEM TO BE SOMETHING WE SHOULD HAVE TO
311 ASK ANY OTHER PEOPLE FOR PERMISSION FOR."

312 He pleaded with the school board to make masks OPTIONAL —
313 It's insane what we are allowing these people to do to our kids.
314 Thank God for the parents who are standing up to this.

315 But we really need to be standing up to this everywhere. The
316 government has no business forcing us to wear masks—the
317 SCIENCE does not support it! In fact, the SCIENCE says oxygen
318 deprivation, even a little bit, compromises your immune system.

319 Staying indoors, not getting sun, weakens your immune system.
320 Not getting exercise weakens your immune system.

321 Matt Walsh put out a very frank Tweet against mask wearing.
322 Liberals, some of them obviously CCP trolls, attacked him
323 mercilessly. I read through about thirty Liberal responses and not
324 ONE of them made any appeal to actual factual science, but almost
325 all of them cased their claims as if what they were saying was in line
326 with "science." I don't have time to go over all my favorites now,
327 but I'll do it during our VISIT tonight (Livestream of FB).

328 But here are a few examples of what we are up against.

329 Matt had said wearing a mask when not medically necessary is
330 grotesque and unhuman, an attack on society itself. It feeds
331 paranoia and fear. You are treating air like it is toxic and other
332 humans like they are nothing but vessels of disease. It is
333 disgraceful, arrogant, and offensive."

334 So, for the record, I think people should wear them if they want to
335 wear them, but otherwise, I think Matt is 100% spot on. Mask
336 wearing is anti-social, and more harmful than helpful if worn as an
337 accessory or in the vain hope it's going to protect or others from a
338 virus. Having said that, let's look at a few liberal responses.

339 Here is a clever fellow: "Hey but did you know that there are actual
340 toxic particles in the air? You see, in the 16th century the
341 microscope was invented, during which time we discovered that
342 there are some particles so small—like germs—that we can't see
343 them with the naked eye. Wild stuff!"

344 Oh wow man, LOL! Or as we would say in High School, "what a
345 chop man!" And what a bunch of tripe!

346 Uh, hey, but did you know there is this thing called the IMMUNE
347 SYSTEM. It's been around for a while. I really think, in fact, it was
348 around before germs! And, oh, by the way, virions have been
349 floating about all over the world for a very long time and NO ONE
350 IN WESTERN SCIENCE BELIEVED A COMMON MASK SUCH
351 AS YOU ARE MANDATING THAT WE WEAR WOULD
352 PROTECT YOU. But in fact, masks actually HURT YOU.

353 And, that's the science—DUDE! You see, statements from
354 scientists are not science unless they accurately actually represent
355 the SCIENCE — otherwise all you have is science FALSEY-SO-
356 CALLED.

357 Here is a gal who declares she is wearing her mask for health
358 reasons — and the reason she gives is that "you nasty people do not
359 wash body parts and will carry water for the latest disease proudly."

360 She went on to say she considers it a bonus that wearing a mask
361 provokes anti-maskers so she will wear hers out of spite.

362 Well, okay. If she thinks the nasties that radiate from all the people
363 around her are all going to be blocked by her mask—then, more
364 power to you, sister. Wear your mask. Hide your spiteful sneering
365 face—I don't want to see it anyway! Hehehe. I'm just doing a bit of
366 mirroring.

367 Matt's statement actually has some serious merit that we don't have
368 time to explore and it looks like my time just blew by — so much to
369 say and so little time. But one thing I've got to tell you about before
370 I go. Trump was interviewed in Trump Tower earlier this week and
371 asked if he planned to take the White House back in 2024. His
372 answer, summarized, was this — I think it's more like 2022 —
373 before then — something has to be done — these guys are
374 destroying the country — we can't wait that long!

375 [Hallelujah!]

376 I'll pick up the rest of this tonight during my visit — it's called
377 Comfort & Counsel for the Present Distress — it's a Live stream
378 video — go to Facebook and search Lighthouse Baptist Church,
379 Santa Maria, CA — and you'll find the page. LIKE IT! Then set up
380 notifications to be alerted when I come on.

381 Come on out tomorrow and join us for CHURCH—and quit
382 complaining about where's the church, and where have the real
383 pastors gone, and why doesn't the church step up—you've got to be
384 kidding me. Lighthouse has been in this FIGHT for a VERY LONG
385 TIME — so, quit griping about that and get to THE CHURCH
386 that is DOING something about all this — that HAS BEEN
387 DOING something about all this all along —

388 I have lit the lamps in the Church belfry arch and now you let me
389 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
390 ON and you will ride like Revere and spread the warning,

391 (essentially, it means you agree with what I'm saying) or you say
392 LIGHTS OFF -- which means you reject what I'm saying and
393 disagree strongly with me. So, what will it be today, lights on, or
394 lights off?

395 Email me by going to our web site at branmassage.net. That's
396 brainmassage.net. Find the CONTACT button and send me an
397 email.

398 You can leave a message on our Lights On hotline: 805.314.2114.

399 God bless you. God bless America! I'll see you in Church.
