

Brain Massage®: Show No. 836 If Election Fraud Is Proved, Will Biden Be Removed? / Has America Crossed God's Red Line?

Jerry Scheidbach

Original Air Date: 06.25.21

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.
4 Good news: the Newsome recall is going to happen.
5 Update on the Election Audits — looks like CA is going to be
6 challenged to joining America's audit.
7 Has America crossed God's "red line"?
8 Hey, I really need to address a few PANDEMIC FRAUD issues and
9 I can see that I'll not be able to develop them—so let's do this right
10 now.
11 I'm hearing from members of the LIGHTHOUSE that employers
12 are pressing them to take the shot. THIS IS A VIOLATION OF
13 YOUR RIGHTS AND IT'S WICKEDNESS PLAIN AND SIMPLE.
14 The Nuremberg code expressly states you cannot be coerced,
15 manipulated, or compelled to participate in any medical
16 experiment against your will and without fully informed consent.
17 That's natural law, that's DIVINE LAW, and that's the LAW OF
18 THE LAND. The trick of compelling businesses to do it, to deny
19 employment, or bar you from business transactions unless you
20 surrender your GOD GIVEN right to refuse participation in any
21 experimental medical treatment must be resisted.
22 Christians must stand on RIGHTS of CONSCIENCE and
23 PERSONAL LIBERTY and PRIVACY — and refuse to yield to this
24 oppression. A wonderful lady in our church is being told she will
25 lose her job if she refuses to be vaccinated, and recently, when she
26 took her children to a doctor, she was cajoled, and harassed and
27 even lied to by a student nurse who told this mother the trials are at

28 phase four and the vaccine has been APPROVED — and told her
29 "she had to take the shot." PLEASE — get informed. I'll address this
30 some more tonight in our Live Stream VISIT — but know this —
31 no one has the right to compel you or coerce you to take an
32 injection. What is with these crazy people? What happened to my
33 body, my choice. And why—there is the essential question—WHY
34 are they pushing so hard to make everybody take a shot THEY
35 DON'T NEED? Okay, it's time for your brain massage!

36 [TRUTH]

37 The Newsome recall is going to happen. After Newsome and the
38 CA Secretary of State did everything they could to stop the recall of
39 Newsome, the latest being insistence that "every signature be
40 verified." Curious! No need to verify signatures for mail-in-ballots
41 but to get rid of this tyrant you have to verify every signature.
42 Okay! Done! Out of 2.1 million signatures, they only found 50 they
43 could dispute. That's incredible!

44 Update on the Election Audits. AZ finished paper ballot forensics
45 — examining for folds, watermarks, and any evidence that ballots
46 were photocopied. Flynn tells us the word is there is enough
47 domestic fraud evidenced to justify overturning the election in
48 Arizona.

49 GA is moving toward a full forensic audit of Fulton Co. Stacey has
50 let Raffensperger know she will not go down alone—ya think?
51 Hehe.

52 Pressure continues to mount on MI, WI and PA. And America's
53 Audit is coming to California.

54 California is waking up—slowly, but the sleepy CA bear is stirring.

55 Election Integrity Project,¹ CA is taking action. Support them!
56 Linda Paine is the president of this group, and she is outstanding.

¹ <https://www.eip-ca.com/>, EIP-CA.com

57 She spoke for us at one of our Brain Massage Banquets a few years
58 ago. We will certainly have her back!

59 Here are four questions Linda and her team has put to the CA
60 Secretary of State Shirley Weber on June 17, 2021. She has not
61 responded. The questions are as follows:

62 Why are there almost 124,000 more votes counted in California's
63 November 3, 2020 election than voters recorded as voting in that
64 election? And why is most of the discrepancy driven by 116,000
65 vote-by-mail ballots with **no apparent voter identified** in
66 VoteCal's voting histories? She provides a list by county.²

67 Why do more than 7,700 voters have TWO November 3, 2020
68 votes credited to their voting histories? These means there are two
69 votes credited to each of 7,700 unique (non-duplicated) registration
70 ID numbers in the state database.

71 Why does California have 1.8 million more registered voters than
72 **eligible citizens** and why did this overage rise **72% in the 2020**
73 **election cycle**? Again, she provides a list by county.³

74 Why did California's on-line and DMV registration systems
75 change 33,000 foreign-born voters' birthplaces of record to
76 "California" or "United States", potentially masking non-citizens
77 unlawfully registered to vote? Similarly, why were 76,000
78 birthplaces changed from another U.S. state to California? And,
79 once again, Linda provides documentation, here.⁴

80 Can you believe this? Of course you can! It's a "blue state." These
81 sorts of things are common in Blue States.

82 Election Integrity Project is suing the Secretary of State, Shirley
83 Weber, et al, and put it before a lower court where it was dismissed
84 without ruling on the merits of the case. This allows it to go

³ https://www.eip-ca.com/press_releases/06222021_linked/Ineligible_Registrants_210209.pdf

⁴ https://www.eip-ca.com/press_releases/06222021_linked/Birthplace_changes_to_CA_or_USA_201125.pdf

85 directly to the Ninth Circuit Court of Appeals. It is anticipated that
86 the Ninth will either dismiss, or rule against the case so they will
87 move the case to the SCOTUS.

88 The suit challenges “laws, regulations and election practices that
89 have undermined California election integrity, creating an
90 environment ripe for irregularities.”

91 Election Integrity Project filed the suit after they collected 700
92 sworn affidavits from trained citizen observers who described
93 various irregularities during the 2020 general election in CA.

94 Paine understands how the Marxists play the game here in this
95 state (and, really, in every state). The COMPLAINT “also examines
96 how CA laws like ballot harvesting, and last-minute changes like
97 privileging vote-by-mail voting over in-person voting,
98 **disadvantaged minority groups.**”

99 That should put the enemy on defense.

100 I am, frankly, DISAPPOINTED that Linda is not challenging the
101 2020 election. On the other hand, her strategy might actually break
102 ground for a followup suit that will provide that basis for
103 demanding Weber, et al, conduct an AMERICAN AUDIT of the
104 CA 2020 election. That's some more good news coming out of Cali.

105 Hannity says his lawyers tell him even if election fraud is proven,
106 Trump does not get into the White House. He said unless we have
107 access to lawyers smarter than those he has, there is no provision in
108 law for a circumstance like what we face right now. There is no
109 legal path in place to decertify an election that has been certified by
110 the Congress. Well the CONSTITUTION sure didn't get in their
111 way when they decided to STEAL from the PEOPLE their right to
112 choose their leaders.

113 You've got to be kidding me! They can STEAL the election and
114 then smile and say, well, what are you going to do about it.

115 Well, it seemed to me I remembered some elections being
116 overturned because of fraud, so I did some digging and found a
117 report from One America News back in May from Pearson Sharp
118 that Hannity needs to see, and then he should immediately fire
119 those worthless attorneys he has been listening to, especially if he is
120 depending them to represent him against the power-thieving
121 Democrats. I'll be paraphrasing Pearson's report, which you can,
122 and should view, here.⁵

123 The question becoming increasingly important to us is what
124 happens if fraud is proved and it becomes clear that a sitting
125 president did not LAWFULLY win the election?

126 The Constitution does not envision a circumstance like this. If it
127 had been caught at the time the Electoral College convened, Mr.
128 Pence, then yes, they could have rejected the
129 UNCONSTITUTIONALLY appointed ELECTORS and/or
130 invoked Article 12. But nothing is said regarding a situation where
131 the election has been certified fraudulently and a fraudulent
132 President placed into office.

133 But there are multiple examples of contested elections, specifically
134 involving fraud, that were overturned.

135 In some cases, courts have ordered a whole new election to be held
136 after a case of fraud has been proved. EXAMPLES

137 2004 — “The Supreme Court concluded that a new election was
138 required because the absentee ballot fraud ‘substantially
139 undermin[ed] the reliability of the election and the
140 trustworthiness of its outcome.’”⁶

141 In an Alabama Mayoral race in 1984, one of four voting machines
142 failed to register any votes cast for one of the four candidates.

⁵ <https://www.oann.com/watch-overturning-fraudulent-elections/>

⁶ *Pabey v. Pastrick*, 816 N.E.2d 1128, 1150 (Ind. 2004).

143 Hmmm. Dominion? The state supreme court ordered the entire
144 election rerun, overruling the trial court’s remedy of ordering new
145 balloting only for the voters who voted on the defective machine.”

146 A 1950s Illinois Supreme Court voided a local election after
147 concluding that ballot integrity was compromised and ended up
148 ordering a new election altogether.

149 In an article written by Steven Huefner, Professor at Ohio State
150 University, Moritz College of Law,⁷ titled, *Remedying Election*
151 *Wrongs*, (nd—leading up to the 2000 race).⁸ After laying out the
152 evidence supporting what everyone already knows, mail-in-ballots
153 open our elections to increased fraud, and presenting other
154 compelling argument showing what any reasonable person should
155 from native sense understand—voter and/or election fraud in any
156 case is injurious to the PEOPLE's right to elect their
157 representatives, but it is especially disturbing if it occurs in a
158 national election—a Presidential election. The professor offers two
159 remedies that have been used to correct Mayoral and even state
160 wide failed elections, such as for Congress or Senate.

161 FIRST: Once courts identify illegal votes, one remedy is to adjust
162 the votes accordingly. If it’s proved that x number of votes went to
163 one candidate that belonged to another, or votes were not counted
164 that should have been, or votes were counted that should not have
165 been, in any such case the vote totals are adjusted to correctly
166 reflect the vote of the people and the true winner is declared.

167 SECOND: The second kind of relief is to void the election, leaving
168 the office vacant until a new election is held.

169 Some legal scholars argue that the language in Article II of the
170 Constitution would prevent a Presidential election from being held

⁷ Steven Huefner practiced law for five years in the Office of Senate Legal Counsel, U.S. Senate, and for two years in private practice at the law firm of Covington & Burling in Washington, DC. He clerked for Judge David S. Tatel of the U.S. Court of Appeals for the District of Columbia Circuit and for Justice Christine M. Durham of the Supreme Court of Utah. He served as head article editor for the Columbia Law Review. (<https://moritzlaw.osu.edu/faculty/steven-f-huefner/>)

⁸ http://www.electionlawissues.org/_data/assets/pdf_file/0020/6923/huefner.pdf

171 after it has already been decided by Congress. That is incorrect!
172 The language of Article two makes no such stipulation—THERE IS
173 NOTHING IN THAT ARTICLE that says anything like, the
174 President, once certified by Congress may not be removed. It
175 provides for removal by impeachment for treason, bribery, and/or
176 high crimes and misdemeanors. True, it does not address the
177 circumstance in which the person holding the office of the
178 President does so as a consequence of treason, bribery, and/or high
179 crimes and misdemeanors. But, come on, MAN!

180 This situation has never happened before. This is so important a
181 topic I'm going to continue exploring this question with you on the
182 other side of the break. Hold on! I'll be right back!

183 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
184 at the Lighthouse, your brain masseur, and Paul Revere's lantern
185 lighter, lighting the lamps in the church belfry arch, signaling the
186 enemy is on the march, an enemy that would steal from us our
187 liberty.

188 Hannity tells us Trump is wrong! If a thief steals your wife's
189 diamonds, he does not have to return the diamonds when he is
190 caught. He gets to keep the diamonds. Haha! Of course, when
191 Hannity said his lawyers have told him there is no path to
192 removing a fraudulently — you can't say elected, because he wasn't
193 — Congressionally INSTALLED President, he was not talking
194 about the theft of diamonds. No! He was talking about some fare
195 more valuable—the theft of the PEOPLE'S RIGHT TO CHOOSE
196 THEIR LEADERS. Hannity needs to get new lawyers. We have
197 already shown there is precedent for overturning Mayoral, and
198 even State wide congressional races because of voting fraud, and
199 even because of failed voting machines. To suggest presidential
200 elections occupy a special category beyond such court remedies is
201 madness.

202 Who is with me when I say, you can't VIOLATE the
203 CONSTITUTION on one hand to steal an office, and then turn
204 around and use the Constitution to protect yourself from returning
205 that office TO THE PEOPLE. You can't violate the law by stealing
206 someone's diamonds and then use the law to keep what you have
207 stolen.

208 John F. Banzhaf, III⁹ — a nationally known law professor and
209 practitioner of what is called "public interest law." He is "one of the
210 most powerful persons in Washington." This is the guy who went
211 after the Tobacco companies. After he stipulates that the US
212 Constitution does not clearly provide for the cancellation of a
213 presidential election once the Congress has met and determined
214 the outcome of the Electoral College, he goes on to say this does
215 not mean it cannot happen.

216 The question is not whether a *Presidential* election has ever been
217 overturned because of fraud—the question is whether any
218 ELECTION has been overturned because of fraud. Understand? It's
219 about the PEOPLE'S RIGHT TO ELECT THEIR LEADERS—
220 regardless of whether it's Mayor, Representative, Senator, or school
221 board member. It's about OUR RIGHT TO VOTE! We don't LOSE
222 PROTECTION for OUR RIGHT TO A FAIR AND HONEST
223 ELECTION simply because the office happens to be that of the
224 President. You've got to be kidding me! So, is there a precedent for
225 overturning ELECTIONS? Yes!

226 The fact is there IS PRECEDENT for overturning ELECTIONS and
227 the fact that fraud occurred in an election so important as that of
228 President only means IT'S MORE IMPORTANT to ADDRESS IT,
229 not less. The question is, does a President elected by fraud have
230 some special protection from having the election overturned? AND
231 the answer is ABSOLUTELY NOT!

⁹ <https://www.law.gwu.edu/john-f-banzhaf-iii>

232 The reverse should be true.

233 In the context of the question whether a presidential election can
234 be overturned for fraud, Banzhaf explained “new elections have
235 been ordered in local and sometimes even state and congressional
236 races when serious questions have been raised about the
237 outcomes.” He cited a compelling and relevant example. In
238 Mississippi, a Judge ordered a new “special election” after
239 “rampant absentee ballot fraud” was found.

240 But guess what? A Federal court has stipulated that the Federal
241 Courts have jurisdiction in presidential elections.

242 In 1976 — a District Court in NY addressed the pertinent question:
243 do presidential elections occupy a special category beyond such
244 court remedies. They answered, unequivocally, NO!

245 This District Court stated clearly that “FEDERAL COURTS HAD
246 A ROLE TO PLAY IN ENSURING FREE AND FAIR
247 PRESIDENTIAL ELECTIONS ...”

248 The court argued, in *Donohue v. Board of Elections of State of*
249 *NY*:¹⁰ “It is difficult to imagine a more damaging blow to public
250 confidence in the electoral process than the election of a President
251 whose margin of victory was provided by fraudulent registration
252 or voting, ballot stuffing or other illegal means.” The court further
253 argued that prohibiting Federal court jurisdiction over Federal
254 elections would “invite attempts to influence national elections by
255 illegal means.” (IBID.) The court also noted that “Federal courts
256 have not hesitated to take jurisdiction over constitutional
257 challenges to the validity of local elections and, where necessary,
258 order new elections.”

259 This court agreed with my earlier assessment but it's expressed in
260 legalese, so I'll rephrase it: A national election impacts the entire

¹⁰ <https://law.justia.com/cases/federal/district-courts/FSupp/435/957/1424690/>

261 nation, AND SO If a national election requires judicial
262 intervention, it is all the more necessary to recognize THE
263 JURISDICTION OF THE FEDERAL COURTS INCLUDES
264 CHALLENGES TO PRESIDENTIAL ELECTIONS.

265 This finding of a NY District Court, in 1976, clearly contradicts the
266 opinion of those who say the presidential elections occupy a special
267 category beyond court remedies.

268 You can't separate a PRESIDENTIAL ELECTION from other
269 elections and say, effectively, the PEOPLE'S RIGHT TO FAIR
270 AND HONEST ELECTIONS is eclipsed by the importance of the
271 office of President. It's the reverse. That office, above any other,
272 must be protected AGAINST BEING STOLEN BY FRAUD.

273 If it is proved the sitting president occupies the office by virtue of
274 fraud, NONE OF HIS ACTIONS HAVE LEGAL AUTHORITY.

275 All EOs and all bill signed become NULL of authority, and are
276 automatically stricken, automatically repealed.

277 Justices Thomas, Alito and Gorsuch were RIGHT—Kavanaugh
278 and Barrett—we expected better!

279 If election fraud is proved, the COURT CAN, and indeed, MUST,
280 hear the case and rule according to the evidence. Setting ALL
281 POLITICS ASIDE! The court must RULE ON THE EVIDENCE.
282 And the evidence supports only one conclusion—Biden is NOT the
283 President and must pack his bags and move out of the studio at
284 Castle Rock immediately. Hahaha.

285 Don't let anyone tell you auditing our elections compromises the
286 integrity of our elections—it enhances confidence in our elections
287 and secures their integrity. Don't let anyone tell you Justice is dead
288 in America. Friend, so long as GOD exists, JUSTICE EXISTS. We
289 are laborers TOGETHER WITH GOD — there is HIS PART and
290 there is OUR PART. We don't need to worry about Him doing His
291 part — it's up to us to step up and DO OUR PART. Call ON GOD

292 to release JUDGMENT into our LAND against the evildoers! At
293 the same time, DEMAND your government do its duty and
294 execute wrath against the EVILDOERS. Pray God will help us, like
295 he helped David take out Goliath, and Gideon take out the
296 Midianites, and that little prayer band in the early church took out
297 king Herod—

298 Has America crossed God's "red line"? I'll address this more tonight
299 during our live-stream visit. The show is produced Friday and
300 some of you get this show Saturday or later. You'll my extended
301 comments on the question on our Face Book page — look for
302 Comfort & Counsel for the Present Distress (309).

303 The "red line" is what triggers God to invoke Psalm 9:17 — where
304 we are told the "wicked shall be turned into hell, and all the nations
305 that forget God." To be turned into hell is to be delivered over to
306 the power of Satan. The concept of God turning people and
307 nations over to Satan's power is presented clearly in Romans 1:17-
308 31; see also I Cor. 5:5 and I Tim. 1:20. It is illustrated by Sodom,
309 and by her spiritual sister, backslidden Jerusalem—Jeremiah 23:14.

310 At what point does God drop a nation into HELL? Israel was never
311 perfect—at no point in her history was she without all manner of
312 wickedness. It was always the case that she was preserved on behalf
313 of a small remnant of believers. So long as there was a remnant
314 with sufficient influence in the culture to keep it from turning fully
315 away from judgment and justice, God would preserve them.

316 Believer, you are the LIGHT of this world. Think about it. The
317 world has no light without you. Whatever LIGHT is in this world,
318 it comes from you.

319 That is the reason lovers of darkness hate you. Your LIGHT keeps
320 exposing them and their deeds. As long as you will shine your light,
321 you have the power to scatter the power of darkness.

322 Also, you are the salt of the earth. SALT preserves a home, a
323 church, a city, a state and a nation.

324 If there had been as few as ten righteous in the city of Sodom and
325 GOD would have preserved that city from DIVINE destruction:
326 only ten. We don't know the population of Sodom or we would
327 work out a percentage formula.

328 Let's consider America, for a moment. First, it is very important
329 you understand YOU ARE THE LIGHT OF THE WORLD. The
330 world has no LIGHT without you. The world will not be cast into
331 utter darkness until you are removed.

332 Second, understand that you are the salt of the earth. We are the
333 one's with the influence before God to move Him to HEAL OUR
334 LAND. We are the salt!

335 It's the remnant's influence over the rest of the world and the earth
336 that God measures. All the "lost" people out there, whatever "light"
337 they have, they get it from you. You don't even realize it. But it's
338 true that whatever "light" they have, it comes into the world
339 through believers. Same thing is true of the SALT. It is kept back
340 from total destruction because of our presence. When we are
341 removed, it's over!

342 So consider the influence of your light and your salt. When you
343 hear lost people talk about justice and judgment and righteousness,
344 and belief in GOD, and show respect for JESUS CHRIST and His
345 goodness, and you see and hear lost people talk about justice, and
346 many have a passion for it, and a heart's longing for righteousness
347 — they are not always clear on what it is, but they know right from
348 wrong and choose the RIGHT over the WRONG — that's because
349 of YOUR INFLUENCE in this world.

350 When I look at the 2020 election and see what has been developing
351 across our land—I see the prevailing influence of the salt and light
352 of the believers in America.

353 The people are standing up for what is RIGHT — more and more
354 are rising up — Biden was NOT ELECTED by the American
355 people. Donald Trump was. Biden and the policies he represents
356 was PUSHED ONTO US, HE WAS NOT CHOSEN.

357 The PEOPLE do not go in for CRT. The PEOPLE are kicking back
358 against forced injections.

359 Oh, there is evidence that our light has gotten dim and our salt has
360 lost a significant measure of its savour — but it's not so far gone
361 that this nation has turned its back entirely on GOD.

362 Satan wants you to believe that. But you need to remember, it's the
363 REMNANT — they are the light and the salt. And there is a
364 surprising amount of influence remaining in the SALT and LIGHT
365 of this world.

366 Tune in tonight for our live stream visit and learn what this means
367 and how it has served to preserve and how it can today SAVE this
368 Nation Under GOD! (By the way, I'm speaking on this topic
369 Sunday AM.)

370 I have lit the lamps in the Church belfry arch and now you let me
371 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
372 ON and you will ride like Revere and spread the warning,
373 (essentially, it means you agree with what I'm saying) or you say
374 LIGHTS OFF -- which means you reject what I'm saying and
375 disagree strongly with me. So, what will it be today, lights on, or
376 lights off?
