

Brain Massage®: Show No. 843 Barret Betrayal 2.0? / Der Fuehrer *Biden* —
"Papers Please" / Clarifying Symposium Confusion!

Jerry Scheidbach

Original Air Date: 08.14.21

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.
4 The Barrett betrayal part 2.¹
5 Der Fuehrer Biden wants us to "show our vaccine papers" to travel
6 from state to state.²
7 Segregation is back: White's only classroom in Atlanta.³
8 ROMANS 8:28, COVID and PUBLIC EDUCATION: Hah! The
9 number of homeschooled students has doubled since pandemic,
10 and this is a trend—it continues to rise.⁴
11 Fraustian Fauci eerily announces intention to have Americans
12 subjected to endless vaccines — the never-ending vaccination
13 series — booster, after booster, after booster.⁵
14 CUOMO RESIGNS. At least one paper is calling him out for
15 crimes against seniors—saying the New York creeper has more to
16 account for than sexual harassment—and calls for investigation of
17 nursing home malfeasance and profiting off government.⁶

21 Good news on the ELECTION FRAUD front. The Texas election
 22 reform bill passed over the antics of the Texas Democrats that
 23 flaunted their duties and went on vacation to stop the vote.⁸ Oh,

¹⁰ Probably, this video summarizes the case better than any others I've seen:
<https://creativestructionmedia.com/video/2021/08/10/must-see-damning-video-explaining-how-why-and-who-stole-election/>

40 BUT, It's what I've told you before, some among the upper
41 echelons of the Catholic hierarchy are okay with abortion, always
42 have been. Loyola University, a Jesuit Catholic school, violates the
43 conscience of Catholic students forcing them to take the fetal tissue
44 vax against their religious objections.¹¹ By the way, "FACT
45 CHECKERS" beware—I know the trick. The denial by the three
46 main American COVID vaccine makers that their vaccines are
47 made from aborted baby cells is that the cells they use are created
48 in a lab from an aborted baby's cells in the Netherlands. A *real* fact
49 checker would tell the truth. These vaccines use tissue nurtured in
50 a lab derived from aborted baby tissue obtained through legal
51 abortion in the Netherlands before the law went into effect to
52 forbid use of aborted baby material. That's how they slither like the
53 snakes they are around the law and around the truth. Oh, by the
54 way, Amy's father was a Jesuit novitiate (novice in training to be a
55 Jesuit priest) for over a year before he decided to marry. He later
56 graduated from Loyola University in New Orleans. You know the
57 bit about apples and trees and all that! Not sure what this means
58 about the Mississippi law headed to the SCOTUS—we shall see!

59 DER FUEHRER BIDEN —> Biden is contemplating Interstate
60 vaccine passports. What makes these people think they can take
61 over our lives like this? So now it's "papers please" at the border
62 between every state? Perhaps this is something he thought up while
63 he was walking around in a fog at Castle Rock studios making his
64 way to the set of the "oval office" — trailing after his security like
65 an untrained puppy dog — yeah, the security detail literally points
66 to the path Biden is supposed to take, like he did not know where
67 he was and needed direction—the security detail moves on to circle
68 around the bushes, I suppose to clear it of any possible
69 ambushments—and Biden ignores or did not see, or did not
70 understand the direction and follows the security detail around the

¹¹ EMAIL: Mat Staver, Liberty Counsel—They knew this was illegal, Loyola University, Chicago: 8-13-21 9:17 am.

71 bushes—like, there is a PATH to the door, but Biden follows —
72 anyway. Maybe it was while he was walking about in his fog that
73 this brilliant idea came to him—and the point is, no! He is a half
74 demented "dog face pony soldier" — haha — on the CCP leash and
75 he is leading this country under the direction of Xi Jing Ping.

76 Biden Impeachment talks are stirring, but many of us believed this
77 was the plan all along.¹² I don't know! Xi probably likes the
78 humiliation he is making all Americans endure, making us the
79 mockery of the world. Will he risk allowing someone to get in that
80 is not wearing his leash? Right now it would go to Harris—and she
81 has already been collared, so that will work for him. From there to
82 Pelosi, who likewise already wears the collar leashed to Beijing!

83 Then you've heard no doubt that Biden is contemplating exercising
84 his dictatorial powers to override DeSantis' mask policies in
85 Florida. Unreal! Maybe the Administrator in chief thought up the
86 scheme to override DeSantis' FL mask policy while he was asking
87 one of his aides where his aides were at.¹³

88 The infuriating thing about all of this is that it's based on fraud.
89 Examples abound. For example, the CDC manufactured a virus
90 strain to use as the basis for their bogus COVID test. Yeah, come
91 on at me Fact Checkers—I've got the official CDC document
92 explaining that, and I quote, from page 40, "Since no quantified
93 virus isolates of the 2019-nCoV were available for CDC use at the
94 time the test was developed and this study conducted, assays
95 designed for detection of the [virus] RNA were tested with
96 characterized stocks of in vitro transcribed full length RNA ... of
97 known titer (RNA copies/ml) spiked into a diluent consisting of a
98 suspension of human ... cells and viral transport medium ... to

99 MIMIC clinical specimen."¹⁴ Like a snake, their tongue slithers
100 along technical jargon to obfuscate — in other words, 1. they did
101 NOT HAVE A CLINICAL SPECIMEN of the SARS-CoV-2 virus.
102 May we ask WHY? Why wouldn't CDC has a specimen of a disease
103 they are hyping to scare every one in the world into submission to
104 the CCP? Clearly, it's because their masters in China refused to let
105 them have a specimen. Which takes us to 2. Because they did not
106 have a specimen and did not want to let the world know why, they
107 decided to make an effort to mimic a specimen. But how can they
108 mimic something of which they have no model to work from? How
109 do you do that? Which takes us to 3. They took some in vitro (uh,
110 let's see, that's something cultivated outside a human body) RNA
111 that they had "in stock" — that's handy. Here, we have some RNA
112 here of a known titer — a known amount needed to create the
113 reaction desired, and let's spike that — meaning, let's add that into
114 a diluent—a substance that dilutes — and this diluent consists of a
115 suspension of human cells and a "viral transport medium" — so
116 they put it in a tube especially designed to safely transport virus—
117 you know, when you break this down, it's clear it's gobbledygook
118 — bottom line, they took virus and added it to some human cells,
119 to "mimic a clinical specimen" of the SARS-CoV-2 virus.

120 By the way, your trusted FDA participated in this ruse—we are
121 being BETRAYED into the hands of the CCP.

122 Furthermore, the CDC has been caught fudging data (reporting 9k
123 deaths related to the vaccines when a whistle blower told us it was
124 more like 45k deaths following vaccinations when CDC was
125 reporting 6k). And then there is the most recent episode over the
126 number reported of Florida's COVID cases—CDC "revises down
127 state's weekend numbers from 28,000 to 19,000 but offers no

¹⁴ <https://www.fda.gov/media/134922/download>

128 explanation after claiming 'record' infections."¹⁵ But we know the
 129 reason for the over count, don't we? Of course! They needed a
 130 headline that read "record infections" —. CDC is doing the same
 131 thing with the Texas numbers, and they are getting called out —
 132 and none of these "FACT CHECKS" are making it into Lead
 133 Stories, or reported in the MSM— except a whisper here and there.
 134 How can this have happened? How did the CCP, like a giant
 135 octopus — or should I call it an omnipus — get a strangle hold on
 136 our elections, our medical establishment, media and total control
 137 of one party, the Demoncrats and virtual control of another, the
 138 RepublicRATS? *Even because they first got into control of our*
 139 *education establishment!*

140 Interesting that the one thing NO one on the left talks about is how
 141 to REALLY HELP PEOPLE avoid getting sick with COVID and
 142 what are the REAL risk factors.

143 Have you noticed that the ONLY SOLUTION offered by the
 144 ESTABLISHMENT is wear a mask and get the shot? No one is
 145 talking about what you can do to protect yourself and your loved
 146 ones: Dr. Marik points out the obvious—the "establishment" does
 147 not want the public to know about early treatment options for
 148 COVID.¹⁶ I have a lengthy article showing what you can do to
 149 protect yourself and your loved ones.

150 It's OBVIOUS they want you to stay scared. Which is why they
 151 don't report the good news: COVID fatality rate hits LOWEST
 152 level on record despite DELTA scare.¹⁷

153 You don't hear this repeated 24/7 because the agenda is not served
154 by letting you know the truth about all of this. Their agenda is
155 served by keeping you afraid. So, what IS the agenda? Partly, it's
156 about keeping you off balance while they work feverishly to secure
157 the stolen election. Partly it's in order to slowly but surely break us
158 down into subservience to CCP style governance. It's a CCP
159 takeover of America.

160 Their original, stated, plan was to have this done by 2035. But
161 Trump got in, woke patriotism in this country, so they have had to
162 accelerate the program. And, by the way, I am aware that it goes
163 beyond Xi Jing Ping — it goes into very dark rooms where very evil
164 and sinister creatures of darkness gather to chant allegiance to their
165 "chaos god" — to craft their designs to "break their bands asunder,
166 and cast away their cords" — what bands and cords?—the bands
167 and cords of CHRIST'S PRESENT RULE over Heaven and Earth.

168 Well, I' with RAND PAUL: It's time for CIVIL DISOBEDIENCE to
169 mask/vaccine mandates.¹⁸

170 Hold on through the break my friends; I'll be right back.

171 Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor
172 at the Lighthouse, your brain masseur, and Paul Revere's lantern
173 lighter, lighting the lamps in the church belfry arch, signaling the
174 enemy is on the march, an enemy that would steal from us our
175 liberty.

176 I wanted to give you my take away from the Cyber Symposium.

177 First off, I think it was an amazing symposium and much good will
178 come of it. I think the case implicating CCP's intrusion into our
179 election was strong, and for all who are willing to see what is

¹⁸ https://www.westernjournal.com/senator-calls-civil-disobedience-time-us-resist-cant-arrest-us/?utm_source=Email&utm_medium=wcjemail&utm_campaign=CAN&utm_content=2021-08-13&ats_es=fbff47c4abdac10e13416541811e376b

180 OBVIOUS, admitting of only one reasonable conclusion: China
181 CCP hacked into our 2020 election.

182 And yet, anyone who paid attention during this symposium could
183 see something else equally obvious: it's bigger than China. And
184 that's saying something. It's beginning to look like CCP is a pawn
185 in this gigantic chess game for world dominion. A new focus is
186 emerging — and the bulls eye is coming into focus, and in the glint
187 of the bulls-eye is a reflection of DOMINION voting machines and
188 their connection to that cabal of Satanists I mentioned to conclude
189 the last segment.

190 So, we went into this Symposium looking for the reveal that CCP
191 hacked into our elections. The proof was to come from the Packet
192 Captures of the entire 2020 election provided to Lindell, who
193 invested millions to have it verified, and to put on this event that
194 was supposed to supply us with a smoking gun that even the
195 SCOTUS could not ignore.

196 But, as I've often said, we are at war, and we must expect counter
197 moves to any move we make. I have been wondering what "they"
198 would do to counter Lindell's evidence. Lindell had already shown
199 us some break out information obtained from the packet captures
200 in Absolute Proof. So he put together this symposium where
201 renown cyber experts would be invited to examine his evidence
202 and authenticate it. We expected two specific things to be
203 authenticated. First, that the data he possessed was 2020 election
204 data. And second, that the Packet Captures do verify CCP
205 intrusion into our 2020 election.

206 Well, as they say, the "plot thickens." Someone alerted Colonel
207 Waldron and Lindell that the enemy had infiltrated their team.
208 That, in fact, someone had planted a "poison pill" in "the data."

209 Then we learned that Lindell had not provided all the data to the
210 Red Team—and that, in fact, the data he provided was, apparently

211 by design, adequate to prove it was 2020 election data, but
212 inadequate to establish CCP intrusion.

213 So, the RED TEAM verified the data was 2020 election data, but
214 held back from authenticating the data proved CCP intrusion.
215 They need to see the rest of the data, or at least a larger
216 representation of it, and they need more time to examine it.

217 Remember, this we already knew. Lindell's original cyber expert
218 team required about a month to sort through the data to arrive at
219 the conclusions presented in Absolute Proof.

220 So, what's going on? 1. Why would Lindell's team not present the
221 data in a form and in an amount necessary to answer both
222 questions presented to the Red Team? The answer seems apparent.
223 They got a tip that their security had been breached. The adjusted!
224 Presented sufficient data to prove it was from the 2020 election, but
225 did not present it in a format allowing the Red Team to actually
226 recover the Packets, nor in sufficient volume to verify CCP
227 intrusion.

228 Why would the Lindell team decide now is not a good time to
229 reveal the smoking gun that establishes CCP intrusion?

230 Here is what I've noticed. That IS the critical point of concern. For
231 example, the Maricopa county board in AZ unwillingly yielded the
232 materials necessary to conduct the forensic audit of the ballots —
233 BUT THEY ARE READY TO GO TO THE MATTRESSES over
234 the routers. Why? The routers can PROVE CCP intrusion, and
235 implicate them and at least the Secretary of State in TREASON.
236 They are willing to die on that hill! They will not give up their CCP
237 masters because they know to do so is a death sentence.

238 It's possible, as Colonel Waldron said he was unwilling to pull the
239 trigger on military intervention until it is absolutely the last
240 recourse, that they saw another path forward to beat CCP without
241 crossing that line at this time. Think about it. To cross that line at

242 this time will pit Patriot Americans in open war with American
243 traitors. It would require us to fight a war against ourselves with
244 the CCP and possibly other countries piling on.

245 Perhaps the infiltration by the swamp into the Lindell team, into
246 the Red Team, perhaps, together with clear knowledge that this
247 would certainly trigger open war, a kinetic war with CCP on our
248 own soil with a significant number of traitors already embedded on
249 the inside — combined with yet another surprise development that
250 occurred the same day.

251 This takes us to Colorado. Where I hope to be in November to
252 participate in a missions conference with a good friend and
253 colleague. In Colorado, the Secretary of State is a clear and present
254 danger to the security of our Republic. She is obstructing the legal
255 efforts of Colorado citizens to verify their elections are secure and
256 safe from fraud and manipulation. Tina Peters is the County Clerk
257 for Mesa County in Colorado, the last standing enclave of
258 conservatism in Colorado, and the Secretary of State, who is a
259 democrat, has visited Tina's offices and, among other things,
260 expressed her objection to any effort to true the vote in Colorado.
261 Tina has continued to pursue questions raised by her constituency
262 and the CO SOS does not like it.

263 When Dominion was given permission to come into Colorado to
264 "update" the Dominion voting machines, Tina was advised to make
265 a copy of the machines under her custody. She did so.

266 Mysteriously, when Dominion showed up to do the "update," he or
267 she was accompanied by only one representative from the
268 Secretary of State's office — no one from the County was present,
269 and, even more mysteriously, the cameras were disabled in the
270 room where the machines were to be updated. Hmmm?

271 After the machines were updated, Tina had another copy made of
272 the hard drives — so now she had a before and after image of the
273 Dominion machine hard drives.

274 She decided to have Lindell's team look at these and compare them.
275 The Secretary of State in Colorado was apprised that Tina was on
276 her way to testify at the Symposium.

277 It might have been before Tina left to Sioux Falls, S. Dakota to
278 testify to all this, the Secretary of State put out a hit piece on her by
279 using their media artillery — and accused Tina of releasing the
280 passwords that only the SOS possesses. But we know that while she
281 was in the air the SOS had Tina's offices raided and all hard drives
282 confiscated — This was done while Tina was in the air on her way
283 to the Symposium.

284 She has autocratically decreed no third party audit of their
285 elections will be allowed.

286 We have lately learned that the Secretary of State of each state
287 holds the passwords for the Dominion machines used by each state
288 for their elections.

289 She has attempted to suggest the Mesa County Clerk in Colorado is
290 complicit in releasing these passwords to the public via social
291 media.

292 When the before and after images of the Dominion machine hard
293 drives was presented before all at the symposium and all of 40-80
294 million viewers — it was clear that Dominion together with the
295 complicity of the Secretary of State purposely destroyed election
296 data from the Dominion Voting Machines in Mesa County.

297 We could see with our own eyes that large segments of data were
298 removed from the machines after the Dominion update.

299 Obviously, they came in to wipe the hard drives of evidence that
300 would certainly incriminate them.

301 Federal statute forbids the destruction of election data which must
302 be maintained and made accessible for audit purposes for 22
303 months after an election.

304 These people violated the law—and once again they got CAUGHT.

305 All of this was turned over to the Federal authorities — so lets see
306 how many more swamp creatures get taken in the NET.

307 Well, I've got to conclude. You can catch the rest of this discussion
