

Brain Massage®: Show No. 854 This Second War for Independence & The Weapons the Enemy Is Using!

Jerry Scheidbach

Original Air Date: 10.30.21

1 Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the
2 Lighthouse Baptist Church in Santa Maria, CA—and your brain
3 masseur—get ready for your brain massage.

4 I'm having an awesome road trip with my son. We drove from
5 Santa Maria, CA to Akron, OH — straight through! Spent some
6 time with my mother—in a sort of hospice situation! She is 85, but
7 at least when we were with her she was alert — it was great to see
8 her and talk with her. Also got to see my sister and brother-in-law,
9 and their eldest came by, Luke — I used to call him Luke-the-duke
10 and he tolerated that all the way through high school — but when I
11 met the man he has become, it's no longer Luke the Duke — it's
12 Lucas the attorney who has been asked to run for the state
13 legislator. My, they do grow up, don't they. We squeezed in a visit
14 to the NFL Hall of Fame — Zach wore one of his Colt's jerseys and
15 I wore the Cardinal's jersey in memory of Tillman. You see, I'm a
16 Pats fan and Zach is a Colts fan so he said I'm not buying your a
17 Pats jersey but I'll get you jersey that is patriotic—he bought me
18 Cardinal's no. 40 — Pat Tillman's jersey — Zach served in
19 Afghanistan at FOB Tillman. Now, he is the football expert — he
20 could keep up with any of the radio guys talking football — even
21 thought about doing that gig — but he has pretty much settled on
22 being a personal trainer — Berserker Body Building. So right now
23 we are driving to Hammond, where I hope to meet up with a
24 pastor friend, Dr. John Wilkerson — and then it's home again!

25 Okay, let's get started.

26 Watch the rats folks! When they start leaving the ship, you know
27 it's going down! Watch for unexpected resignations, and
28 declarations not to run for reelection, watch for the RINOs run for

29 cover. They poked the Bear and this is no ordinary bear! He is
30 stalking these goons and taking them out one by one.

31 Okay, yeah, a bit enigmatical, but you get what I'm saying! Or, let's
32 put it another way. If you do, it's for you!

33 We are engaged in our second WAR FOR INDEPENDENCE — it's
34 an irregular war, but it's a war just the same. At the same time we
35 are in the middle of WORLD WAR III, some would say IV —and
36 we are fighting the SAME ENEMY — the NAZIS of WWII have
37 been working behind the veil within our own government — Satan
38 worshipping goose-stepping Hiel Hitler wannabe dictators. And,
39 Scott Key like — I watch o'er the darkening skies, the BOMBS
40 BURSTING in AIR —

41 Mr. Rogan tells us his doctor treated as many as 200 members of
42 Congress—with IVERMECTIN! Boom!

43 Medicaid incentivizing hospitals to prescribe Remdisivir, which we
44 know has serious side effects for a substantial percentage of all who
45 take it, and when NIH has listed two APPROVED treatments, the
46 alternative being IVERMECTIN—which has virtually no side effect
47 concerns. You are going to be BOOM-dazed!

48 Investigations are ongoing regarding the Nursing home scandal.
49 Can anyone spell Nuremberg? BOOM!

50 And speaking of der Fauci — PETA calls on Fauci to resign! —
51 Laughing squirrel. To Fau's chagrin, WE CAN SPELL
52 NUREMBERG! Boom!

53 A lower court Judge in NYC sided with De Blasio's vaccination
54 mandate against the NYPD. Judge Lizette Colon¹ — yikes! Anyway
55 ... BOOM — Boom — and BOOM!

56 NEW previously HIDDEN documents obtained by Judicial Watch
57 show that the DC Police were warned in 2020 that there would be a

58 huge crowd at the Capitol "Jan. 6 2021." Trump suggested they
59 bring in the National Guard to protect the Capitol. Yet Pelosi
60 refused and ordered the Capitol Police to stand down, and I believe
61 when the Patriots balked at entering, the Capitol police were
62 instructed to wave the patriots into the Capitol—it was a planned
63 false flag event.² We've got names! Boom! Boom.

64 What's going down on the election fraud front? And
65 Boomshakalaka.

66 And the Pedovaxers are coming after the children! When are we
67 going to learn we cannot trust the government-scientists and start
68 actually following the science?

69 And thinking of our children — you heard that a Senate committee
70 has launched an investigation into the National School Board
71 Association to ascertain if the association conspired with the White
72 House, and the DOJ. They want all documents and
73 correspondence between the NSBA, the WH, and the DOJ.
74 BOOMSHAKALAKA-LAKA.

75 Hmmm! Looks like Biden wants to be out of town on Halloween!

76 Well, my friends; it's time for your brain massage!

77 [TRUTH]

78 Mr. Rogan tells us his doctor treated as many as 200 members of
79 Congress—with IVERMECTIN! Did you hear about Medicaid's
80 plot to seduce hospitals into prescribing the known-to-be-deadly
81 Remdisivir instead of the helpful and harmless Ivermectin; even
82 though both drugs are on the NIH list of APPROVED FOR
83 COVID TREATMENTS on their website. KA-BOOM!

84 Now, let me ask you a question! Do you want to see what is
85 coming, or do you want to be told — what does Bongino call it —

86 cutsie time stories. I agree with Dan—it's not time for cutsie. We
87 are at war — the battlefield is right here in the land of the once free
88 and home of the once brave.

89 But what the enemy is finding out is that THERE IS A REMNANT
90 THAT HAVE NOT BOWED THEIR KNEE TO BAAL — there are
91 some AMERICANS left — they have not succeeded to brain wash
92 all our young or all our citizens — there is an army of citizens here
93 brave enough to FIGHT for our FREEDOM: we will STAND
94 WRESTLE and RESIST!

95 Something you should know. I've read so many of these RCTs
96 (Randomized Controlled Trials) and other scientific drug studies
97 and usually, the scientists are sensitive to the fact that their work
98 will be peer reviewed. For this reason, they attempt to maintain
99 integrity even when lying through their own decayed and decrepit
100 hearts. But really! They get their big bucks from government
101 grants, politicians control the flow of Dolores-Euros-Yuan (Oo-
102 wen) into their pockets—and people have a quite natural tendency
103 to work for the pleasure of whoever pays them. So if a politician,
104 especially a POLITICAL DOCTOR, like FAUCI, implies a certain
105 result makes him happy, while another result is, well, let's just say,
106 problematic, then this gives clear direction to the "research."

107 BUT, you can't just make it all up! They tried that with their Lancet
108 study manufactured to provide a "scientific" premise for denying
109 life saving HCQ from American patients. Very likely killing many
110 hundreds of thousands, by the way! So, you have to be careful
111 about these things, you know! Some of the studies are more
112 obvious than others. Most of them are very strict and "scientific" in
113 the data but show their bias in their conclusions. But, invariably,
114 there will be statements that support the agenda of the "boss" and
115 then sprinkled in here and there a statement that actually serves the
116 TRUTH so if you know how to read them, you know how to
117 separate the science from the politics.

118 It's for this reason that the MSM, for example, can make some
119 ridiculous statements and cite the same study another cites that
120 totally contradicts them. This is the reason it's important to read
121 the studies cited. This happens with the scientific study supporting
122 Remdisivir for COVID. They did a few neat tricks. First, they
123 changed what they were examining the drug for — rather than
124 looking for a result that showed Remdisivir actually cured the
125 disease, or controlled the symptoms, which it doesn't, they took
126 another approach, it seemed to reduce the amount of time for
127 patients to recover. So it turns out, that if it does not kill you, it
128 possibly reduces time to recovery. Hmmm! Now, stay with me
129 folks!

130 It's getting real! Let's go here next. Fauci knew that Remdisivir had
131 been tested for use against EBOLA, along with three other drugs,
132 and that Remdisivir was pulled because it was linked to a death rate
133 above 50%. The side effects for this drug are DOCUMENTED to
134 be kidney failure, liver failure, multiple organ failure — this is
135 important; don't forget it. The KNOWN side effects of Remdisivir
136 include kidney and liver failure—and furthermore, it is known that
137 this begins in the third through fifth days in a five-day regimen. In
138 other words, kidney failure begins manifesting anywhere from the
139 third to fifth day of treatment.

140 There are "complications" that arise from the side effects of
141 Remdisivir that are well known—guys like Fauci, those "in the
142 know" you know — the smart guys who know all about these sorts
143 of things — Fauci knows that among the "complications" key word,
144 of kidney failure is water retention. Doctors like Fauci, they know
145 things like this. They know that kidney failure and liver failure
146 introduces other serious health concerns, like water, or liquids,
147 getting into the lungs and causing pneumonia. So, now we need the
148 ventilator, and they know other stuff too. They know that a very
149 high percentage of any patient over 65 that is put on the ventilator

150 will die. So, smart Jesuits like Fauci know that the signature
151 symptom of COVID is pulmonary distress, difficulty breathing,
152 and he has declared that the ONLY TREATMENT for COVID
153 must be REMDISIVIR introduced at the onset of symptoms.

154 This is why COVID positive patients are given NO CARE until the
155 onset of symptoms, and the "care" prescribed is Remdisivir, which,
156 as Fauci knows, does not "treat" COVID, but what it does do is
157 cause kidney failure in about 30% of it's users, which then triggers
158 kidney failure within a five day regimen, which creates water
159 retention that leads to pneumonia —

160 When Fauci said that Remdisivir would be the only treatment, he
161 knew all of this.

162 He is a smart guy and he can explain everything to the
163 bamboozlement of all who are motivated to believe him—you see, I
164 learned long ago, people don't need facts to believe something, they
165 only need a reason to believe it. That's something else Fauci knows!

166 So he gets real frustrated when people start challenging him, and
167 asking impertinent questions and angrily scolds us saying if you
168 question him, or talk bad about him, you are questioning science,
169 because, as he said, he is science. Right! Yeah, he said that.

170 No kidding, this idiot actually said, "I am science." You know, that
171 explains some things. In his world, science is GOD — so, this
172 explains his god-complex. This is not the only characteristic Fauci
173 shares in common with another being who has a god-complex —
174 Satan is a LIAR and the father of it, and Fauci is one of his favorite
175 sons.

176 So, there you have it, as my beloved Dove would say! Fauci is real
177 smart—he knows all this stuff. And when he cited these studies
178 supporting the efficacy of Remdisivir, he know about the above
179 50% incidence of death, and the side effects and you probably
180 noticed how insistent he was that Remdisivir be the ONLY

181 treatment — and he even cited the Lancet study as scientific study
182 that caused him concern about HCQ — even though, some years
183 earlier, he suggested Hydroxychloroquine, or chloroquine as
184 effective treatment for SARS 1 — but, well, you know how it is with
185 real smart guys like Fauci.

186 So, now, HCQ and Ivermectin are ridiculed as treatments
187 prescribed by the old fashioned doctors — you remember them,
188 don't you? Doctors that "practiced medicine," you know, they used
189 their much study and experience in medicine to assess a disease
190 and prescribe a treatment that was based on the needs of his
191 patient as he saw it, in his "practice." He did not ask Fauci about it,
192 he employed his own brain, and study — he advocated for his
193 patient — he was not controlled by political doctors who involve
194 themselves in gain of function research on bat viruses to make
195 them more infective to humans and more deadly than they are
196 found in nature — the old fashioned doctors simply used their
197 knowledge about medicine to prescribe a treatment for their
198 patients — well, anyway, those guys have been treating multiple
199 thousands of patients now, with EARLY INTERVENTION — that
200 old yarn, that bit about EARLY INTERVENTION is the key to
201 beating back any infection — well, smart guys like Fauci know that
202 early treatment in the SPECIAL CASE OF COVID does not work,
203 because it does not produce the result he is looking for. Wait for it!

204 So, Fauci's NIAID and his cover NIH instructed doctors to not
205 bother treating COVID until symptoms present, the primary one
206 being pulmonary issues, immediately treated with Remdisivir,
207 which in five days time will, for a significant percentage of patients
208 over 65, present with complications, kidney failure and pneumonia
209 — and off to the ventilator you go, where, by the way, the hospitals
210 are incentivized by getting special bonus payments when patients
211 go on the ventilator, and the longer they are on it, the more money,

212 money, money by the pound they get. This makes hospital
213 administrators very happy. So, every body is very happy, you see.

214 And, an added bonus, and strong incentive to follow the NIH,
215 NAIAD (Fauci) protocol, you have complete immunity of any
216 responsibility for adverse events including death — but, be
217 forewarned, YOU GET OFF THE FAUCI APPROVED
218 PROTOCOL and well, you are on your own then. So, you see,
219 everybody is very happy.

220 Well, this is all political, so, of course, the government paid
221 Medicaid has to get in on this too. Medicaid, for patients over 65,
222 you see, want hospitals to prescribe Remdisivir — and of course,
223 they have the support of SCIENCE himself — so, no problem.

224 Yeah, I'm serious. Medicaid actually pays a 20% bonus if the
225 hospital will prescribe Remdisivir. Well, why are they doing that?
226 Did you know it costs 2300 for a five-day regimen of Remdisivir?
227 Plus, the hospital is PAID A BONUS of 20%, what's that? 460
228 bucks? Hmmm! Money, money, money by the pound.

229 But why? The hospitals are already significantly incentivized, right?
230 Immunity protection, and a treatment protocol that presents the
231 hospital with a significant number of opportunities to use their
232 expensive ventilators. Money, money, money, by the pound.

233 Well, you see, there is a problem. Some doctors get nosey and look
234 into these things and discover stuff they are not supposed to know.
235 Well, they can know it, but they are to be discreet how they use it.

236 You see, you probably did not know that on the NIH website there
237 are actually TWO TREATMENTS that are APPROVED by the
238 NIH — that's FAUCI's outfit, well it's the mother of his beloved
239 NIAID — Fauci's friend runs, or did, I think he resigned, pressure
240 getting to him, rats you know, they jump ship when they see water
241 coming on; anyway — these guys are tight! The NIH shows TWO
242 treatments as APPROVED for use in treating COVID. One is

243 Remdisivir and the other is IVERMECTIN. The adult dosage is
244 posted right there on the site — how about that. IVERMECTIN,
245 you know that stuff Joe Rogan's doctor prescribed for him, and the
246 treatment that his doctor says he used for about 200 members of
247 Congress — IVERMECTIN. It's fully approved by Fauci's outfit —
248 but, don't you guys get it. That's not for the plebs, that's for the
249 real people, you know, those who have a life that has real meaning
250 — you pitiful plebs, you slaves, you are cattle and frankly, there
251 are simply too many of you and we need to thin the herd, sorry!

252 But for the special people, other treatments are available.

253 So, some doctors have some memory of an oath they took, sort of
254 like those pesky patriots who take their oath to defend the
255 Constitution from enemies foreign and domestic SERIOUSLY!
256 These sort of folks really get in the way of PROGRESSIVE
257 PROGRESS, you hearin' me?

258 So, it's called the Hippocratic oath — the one where you promise
259 above all else to DO NO HARM. Anyway, they find out that there
260 are TWO APPROVED treatments and then they bother to read the
261 NIH website and notice that Remdisivir has side effects that are
262 very serious — kidney failure and liver failure and multiple organ
263 failure, and, looky here, the onset of these organ failures occur
264 between the third and fifth days of a five day of treatment protocol.
265 And, well, Ivermectin has proven effective, and THERE ARE NO
266 SIDE EFFECTS for the kidney and liver — so, yipee, let's use
267 Ivermectin.

268 But the hospital administrator and other government connected
269 doctors and stuff, you know, the elites, the NAZI doctors who
270 served in the higher echelons of the medical profession under
271 Hitler, those types, the politically connected doctors, and
272 administrators, they have to intervene when Neanderthal
273 originalists traditionalist doctors start making decisions to

274 INFORM his or her patients that will COST COST COST — you
275 know — so, anyway, following this? Good.

276 Now, back to Medicaid — I call it the Medicaid MYSTERY.

277 Here is the Medicaid mystery. This government health care
278 providing program wants hospitals to prescribe Remdisivir and
279 NOT IVERMECTIN. Hmmm. Why? Is Remdisivir less expensive?
280 That is often the reason for this sort of thing — the govt. you know,
281 if they are paying for it, well, you can bet they will find every excuse
282 to cut back on expenses when it comes to money flowing out for
283 your actual CARE — but, that's another show.

284 So, is it about cost? Remdisivir costs 2300 for a five-day regimen.
285 Add 460 to cover the special bonus the hospital gets for prescribing
286 Remdisivir. By the way. The hospital only gets the bonus if they
287 prescribe the Remdisivir for at least five days. Isn't that interesting?
288 What does Ivermectin cost? 125 dollars for a five-day regimen:
289 2300 + 460, or 2760 per patient, versus 125 dollars per patient.
290 Nope! Not trying to save the taxpayer money.

291 What they are trying to do is make sure every patient over 65
292 presenting symptoms of COVID-19 gets on the fast track to
293 DEATH, oh I mean the ventilator. Give them Remdisivir, watch
294 close, third day, check on them, fifth day, here you go, pneumonia,
295 hurry them to the ventilator — and then if they begin to improve
296 oxygenation, weird how suddenly something happens and, oh,
297 sorry to report, have to leave them on the ventilator.

298 What is going on here?

299 Do you realize that even after NIH posted Ivermectin as a
300 QUALIFIED and APPROVED treatment for COVID, you still
301 don't know about that. You continue to hear the MSM talk about
302 those using Ivermectin are taking horse pills, and pig pills, and
303 stuff like that. Isn't that interesting. Not once did you hear CNN, or
304 the others, say, hey, THERE IS A PRESCRIPTION FOR

305 IVERMECTIN YOU CAN GET, IT'S APPROVED BY NIH, AND
306 YOU DONT NEED TO TAKE THE HORSE PILL OR PIG PILL —
307 but they would never do that. You see — we need to get the peeps
308 on Remdisivir —

309 That way we can move them on the fast track to what kills virtually
310 EVERY COVID PATIENT THAT DIES OF THE DISEASE 65
311 AND OVER. The Death Certificate for virtually all COVID deaths
312 reads like this — Complication arising from COVID-19 — kidney
313 failure and secondary COVID pneumonia.

314 The virus kills almost no one. COVID deaths are almost exclusively
315 arising from the treatment—the cure is worse than the disease.
316 Who warned us about that??? You are right. It was TRUMP!

317 Well, I've just run through my break — so let's wrap it up.

318 Talking about the decrepit degenerate debased ELITIST snobs, you
319 know the type, guys that say inane stuff like "I am science."
320 Laughable, except these people are killing off a national treasure!
321 Those types. The ones that believe the herd needs to be thinned,
322 the pleebs need to be reduced, starting with the old folks. The old
323 people are worthless, meaningless, and we need to get rid of them.
324 That's what Jacque Atali, said — back in the 80s, he said we are
325 going to simply have to move forward with a plan to depopulate
326 the planet. We'll have to start with the old folks, move on to the
327 weak and the imbecile, and then get rid of the stupid people. This
328 was the former advisor to Mitterand, former president of France,
329 and he only said what the Satan worshippers have been saying for
330 many decades before him—and they are still saying it now, only a
331 bit louder. Gates talking about reducing the population by about
332 15%, and even mentioned using his vaccines to achieve this.

333 Yeah, I know! I listened to it. The crowd laughed, it was a joke—a
334 joke about reducing the population by 15% using his vaccines and

335 health care. Wow! At a summit or conference where depopulation
336 was included as a way to address concerns about climate change.

337 Gates has made other comments like this, his father being a great
338 advocate for depopulating the planet to a sustainable 500 mil. So he
339 was calling for the elimination of 7 billion people.

340 The Georgia Guidestones³ call for a reduction in global population
341 to 500 million. In Elbert County, Georgia this huge Stone
342 Hingesque monument stands proclaiming, in eight different
343 languages, ten guidelines, or guides for the future of our planet —
344 and the very FIRST DICTIM PRONOUNCED TO FUTURE
345 GENERATIONS IS TO "MAINTAIN HUMANITY UNDER 500
346 MILLION IN PERPETUAL BALANCE WITH NATURE."

347 It goes on to stipulate the need to "guide reproduction wisely."

348 Now, it's understandable that someone who like really believed this
349 might buy into a plan to use a JAB to introduce a twofer — reduce
350 the population and reproduction in one shot! Hey, two birds, one
351 shot. Cool!

352 You've heard the jab is threatening reproduction, right? Yep! So,
353 let's jab the kids — because, you know, it's not about protecting
354 them from COVID. Children have a, what was that, 300% greater
355 chance of dying from a car accident than from COVID. That does
356 not sound right. But it's wayyyyy up there. A 0.2% — that's .002,
357 folks, chance of dying of COVID whereas they have something like
358 a 1.2 or a .012 chance of dying in an auto collision. Statistically, the
359 chances of a child dying by COVID is so close to zero it's criminal
360 to expose children to the potential side effects of the jab — and it's
361 especially heinous to do this without the fully INFORMED
362 CONSENT of the parents — it's child abuse. These pedovaxers are
363 as monstrous as pedophiles —.

³ <https://stouvouno.org/2020/12/13/the-georgia-guidestones-and-the-globalist-plan-to-reduce-humanity-to-half-a-billion/>

364 America needs to WAKE UP!
365 When are we going to follow the science, not the scientists?
366 Children do not need to be vaccinated against COVID. Annual
367 death rates among children, or death risk assessment—1-4 years
368 old: 2.8% of childhood deaths are from drowning; vehicle accidents
369 — 2.3%; Homicide — 2.2%; Cancers — 2.0%; Cardiovascular
370 Disease — 1.0%; Flu-pneumonia — 0.8%; Suffocation — 0.7%;
371 COVID — 0.2%.
372 To use the logic of CNN — who said the unvaccinated are 10 times
373 more likely to die of COVID because $.001 \times 10 = .01$ — so, by
374 this sort of reasoning, children are more than 300% more likely to
375 die of suffocation than of COVID. They are 2000 times more likely
376 to die from drowning! One patriot said when the data is believed, it
377 should be a CRIME to vaccinate children. Pedo-Covid-Vaxxers are
378 child abusers — deserving to be in a category like pedophiles.
379 And by the way, the same holds for children aged 5-14!
380 Along these lines, people are waking up. THE PUSH BACK
381 AGAINST MANDATED VACCINATIONS IS GROWING AND
382 AS IT GROWS, IT GETS STRONGER EVERY DAY.
383 Investigations are ongoing regarding the Nursing home scandal.
384 Newsome, Cuomo, Murphy, Wolf and *Witchmer* —
385 MURDERERS. EACH OF THESE MONSTERS participated in a
386 scheme to jack up the COVID death count and off the old folks—
387 these are believers in DEATH as a solution to social problems. Can
388 anyone spell Nuremberg? Revelation 6:8 "And I looked, and
389 behold a pale horse: and his name that sat on him was Death, and
390 Hell followed with him. And power was given unto them over the
391 fourth part of the earth, to kill with sword, and with hunger, and
392 with death, and with the beasts of the earth."
393 See you in church!

394 I have lit the lamps in the Church belfry arch and now you let me
395 know if you see them. It's LIGHTS ON if you see the LIGHTS ARE
396 ON and you will ride like Revere and spread the warning,
397 (essentially, it means you agree with what I'm saying) or you say
398 LIGHTS OFF -- which means you reject what I'm saying and
399 disagree strongly with me. So, what will it be today, lights on, or
400 lights off?
