Trump Mug Shot, Heard ‘Round the World?/ The Debate Trump Won
Though He Did Not Show Up / CDC Warns Vaccinated At Greater Risk of
New Variant Infection

Original Air Date: 08.26.23

Segment.01 Hello. I’m Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA—and your brain masseur—get ready for your brain massage.

ELECTION news: They got their Trump Mug shot, and it might turn out to be the “shot” heard ‘round the world.

The DEBATE — who did you call the winner? I say Trump won that debate without even bothering to show up.

I’ll explain the Lindell plan for securing the 2024 election and you let me know what you think of it.

HEALTH news: Mask mania is returning. We will hear from a professional medical care provider, who works in anesthesia, turned whistleblower, and we’ll look into a report from the CDC that warns the vaccinated are likely to be more susceptible to the new variant than the unvaccinated. 8 cases, and the CDC is ready to call it a GLOBAL PANDEMIC?

Okay, my dear friends, it’s time — for your Brain Massage®

[TRUTH]

The Trump mug shot truly is the “mona Lisa” of mug shots — the most perfect mug shot in the history of the world — thank you [CaptainDeplorable45.com](https://www.instagram.com/p/CwXIXu-K5b1/).¹ Download my show notes for today if for no other reason to follow this link to [CaptainDeplorable45.com](https://www.instagram.com/p/CwXIXu-K5b1/) and watch this amazing impersonation of Trump talking about his

mug shot! This guy deserves a conservative equivalent to the Emmy or an Oscar or something! What's that? Oscars are about recognizing films and Emmys the actors ... right! Okay — well, what do I know? Not much about Oscars for sure! I don't think I've watched the Oscars or the Emmys for that matter, in the last twenty years.

This Mug shot, now that should get the Hamden International Photography Award — how did they get such a perfect mug shot? This looks like a professional studio mug shot!

Isn't that awesome? I agree with CaptainDeplorable45.

So, Trump comes back onto the Twitter platform after two years absence and his first Tweet is this iconic mug shot that's sure to go viral — and no mask or vaccine is going to protect the Deep State and their human-bobble-head-bots from that virus. He, Sarah, Ivermectin won't even cure this one.

Did you catch the motorcade arriving at Fulton County Jail to deliver Trump to be booked for his crimes against Hillary?² Looked totally PRESIDENTIAL. Did you catch the Biden motorcade arriving in Maui? The crowds flipping off the fake president while America watches their real president booked for crimes against the Deep State.³

Tucker said America will never be the same after this spectacle — I agree, and totally get his point — but America has not been the same since Woodrow Wilson set us on the path toward Communism.⁴ America was fundamentally changed even earlier, during the Civil War and in the struggle between political parties that has matured into the present partisan politics that tear at the fabric of our country today. George Washington warned us! America took a decisive step toward her ruin when the attitude of Christians changed toward the Holy Bible. When a perfect Bible no longer mattered — who needs that! When dependency shifted away from faith in the infallible Word of GOD to faith in the infallibility of science *falsely so-called*. It used to be The Bible says, now it's Fauci says!

Belief in the Bible as the infallible REVELATION of GOD to MAN begat the scientific revolution, gave rise to Boyle, inventor of Boyle's Law concerns the physics of gas, defined elements, created chemical compounds — said "Understanding science was a higher glorification of God." Newton (actually spent more time in Scripture than in his experiments, profoundly changed our understanding of nature, first to postulate a universal law of gravitation, described the laws of motion, invented calculus, built the first reflecting telescope, showed sunlight is made up of all the colors of the rainbow—all 7, by the way (the Queer flag has only 6); Euler, Faraday (got his box, you'll need it!), Faraday discovered electromagnetic induction, and linked light and magnetism; a devout Christian; and Maxwell, and Mendel, Mendel got us started looking into genetics—a Roman Catholic Augustinian abbot, might explain some things regarding the direction genetic research has taken, hmmm!; Compton, Fisher, a Quaker named Dalton

established Dalton's Atomic Theory, and another favorite, George Washington Carver, a Protestant Evangelist who contributed more to agriculture productivity of crops than anyone else in history—I mean, in terms of food you would want to eat, unlike Gates. But don't get too excited, Christian, 'cause Collins and Fauci are dedicated Catholics, of SARS-CoV-2 scandal, ideological sons of Mendel?; but then there is William Thomson, aka, Lord Kelvin, who codified the first two laws of thermodynamics, found the absolute zero of temperature in Celsius was -273.15 C , and so invented the Kelvin scale as an alternative to Celsius.

But back to TRUMP who reintroduced himself to the Twitterverse, now called X, for reasons Elon explained had to do with his desire to “embody the imperfections in us all that make us unique.” But the X chromosome is the one that is shared by both genders — male XY and female XX. The X would better represent what unites us as human beings—right? Anyway, Elon is telling us it has to do with his plans to create an “everything app.” The fact is, Elon has used X in other enterprises, X.com, and X Corp — in fact Elon used his X Corp to acquire Twitter — so it is probably not more complicated than that he wants to bring Twitter into the Musk brand! Some think it was a step toward the “dark side.” That would not surprise me! Nothing does these days! I do understand X is used in Freemasonry to indicate transformation—it supposedly marks the point of transition into spiritual power; thus Aleister Crowley chose this symbol to form his Star of Babylon—the Luciferian star!⁵ (Well, I know this is somewhat extraneous but it's also part of what you have come to love about the Brain Massage®!

So, Trump returns to Twitter with this iconic Mug shot, looking fierce, ready to rebuke the Deep State and so what more fitting place to do it than on the very platform that signaled the beginning

of his exile—and how fitting, if indeed the X is intended to mark Twitter as in service to Baphomet, fitting then that Trump would invade that space with visage grim, a countenance of reproof, a menacing look of intended judgment—judgment that, I hope, will turn the civil sword of Divine appointment to its intended use — to execute wrath upon the evil doer, and PROTECT THE RIGHTEOUS.

So, how about that DEBATE — it’s amazing how good Trump is at calling his moves. Some thought it was a mistake for him not to appear on the stage with these clowns — but he wisely understood the importance that he maintain the distance between him and them that is represented in the polls. I am still convinced that for Trump to have joined them on the stage could have don’t nothing but elevate each of them, and could only diminished him. It would have given them the chance to shine. Besides, as I suspected, Trump won that debate without even showing up.

Here is a guy named Tony who declared Trump the winner of the first GOP Presidential Debate.⁶

He claimed over 23 Million watched the FOX debate, but FOX stipulated repeatedly in several sources they had only 12.8 million viewers, so I’ll use that number. All are agreed at least 165 million watched the Tucker Trump interview, which aired in the same time slot.

Tony pointed out we are watching the defeat of the deep state right before our eyes.

He observed that 165 million Americans tuned in to a journalist that is not controlled by the Deep State, interviewing a man that is not controlled by the Deep State, on a platform that is not

⁶ 948.27.11-Trump Won the DEBATE <https://twitter.com/TONYxTWO/status/1694816610014355471?s=20>

controlled by the Deep State. He points out that this moment is nothing short of historic! I agree!

He said, “and when people ask me, why Trump, [his answer] Because we wouldn’t be in this moment without him.”

Trump’s take on the Debate was not at all kind to Pence, DeSantis,⁷ If you listen you’ll notice everybody won—every candidate was called the winner except Christie and some other guy standing next to him, Oh, and DeSantis, who sort of called himself the winner — but I heard it called for Pence, Nikki, but most called it for Vivaswamy—but only Tony called it for the guy who actually won it — and that was TRUMP! Hands down. 165 MILLION views, and that’s in spite of the Google, FB, and YouTube algorithms. Trump’s campaign manager reported that the interview “garnered over 124,400 reposts and over 439,500 likes—completely overshadowing all of television programming Wednesday night.”⁸

Christie got booed so loudly the moderators found it hard to shush the crowd. DeSantis, in one moment during the Debate did exactly what I asked GOD to make him do — expose what a weasel politician he is. I’ve said it from the beginning of his announcement to run, DeSantis is a snake; he slithers this way and that way, protruding his forked tongue repeatedly to test which way he needs to slither next to achieve his coveted prey — power and the privileges that come with it. I said that’s what he has done all along the way, and asked GOD would reveal it, and He did! When asked

whether he would support Trump if convicted by the unjust witch hunt the Devil owns down in Georgia if convicted and given the nomination — DeSantis literally, just like a snake, looked sideways both ways to see how everyone else responded and raised his hand only when he saw the political advantage was on that side of the question. We sure don't need a finger licking breeze checker — we need a FIGHTER! That's TRUMP! There are couple more things related to the election 2024 I want to address on the other side of the break. Hold on; I'll be right back!

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march, an enemy that would steal from us our liberty.

A few more things about the election I need to address and we'll give you an update on Health News.

Here is a civilian patriot doing what he can: a Georgia citizen filed for the arrest of Fani⁹—the DA that brought charges against Trump and 18 codefendants. He alleges Fani violated her oath and is using her office to violate a citizen's rights. And Jim Jordan agrees — says the “case against Trump is ‘Election Interference.’¹⁰

And talk about doing what you can: Lindell has got something new to help us catch the election thieves in the act!¹¹ Sounds promising! Mike Lindell is at the forefront of the battle to return to the people their natural and divine right of CONSENT — my book is coming soon: Elections Or Selections: The People's Right of Consent and you are going to love it. I show with powerful and clear biblical

exegesis that the idea of the right of the consent of the governed is Biblical — in fact, I show that GOD Himself subscribes to this principle — and, hey, I'm not kidding. This book is going to rock your world! But more on that later.

Mike has been doing God's work in this matter since 2020, and frankly, I'm somewhat surprised he was not indicted except they probably could not connect him directly to the Georgia election. Anyway, he has come up with a device that captures any device connecting to the Internet in a room. In other words, this device, called a Wireless Monitoring Device, will capture the signal and IP address of every digital device that is connected to the Internet within the sphere of its range. You know that Dominion, ES&S, and the others, have dismissed charges their machines are being used to steal elections by claiming they are not connected to the Internet. At first the mantra was they can't be connected to the Internet, they are not designed to be connected to the Internet — but when this was finally and fully proved false, they maneuvered to a fall back position and argued, while it is possible, it does not happen because it's against the law.

This is how they operate. Remember when this was going down in Arizona and we had such hopes. After a short while we could see what was going on and where it was going. I remember doing a set of shows warning that they will fight for every inch, even for inches that really are not essential to their protection; the reason is that it wears out the opposition and exposes them to disappointment, discouragement, and helps them confirm to those watching that, see, it was nothing. Of course, they are never challenged with if there was nothing, why did you fight so hard to keep that from us — but that's because you see, they are very good at lying, they are devious liars, whose expertise is guided by the ultimate liar, Satan, the father of the lie — but our team kept on pursuing the truth — I said, okay, here's the thing! They will fight tooth and nail and then

yield when overwhelmed by the evidence, then drop back but there is one place where they will stop, dig in and die before they yield and it will be the routers! Remember that, the Arizona fight for our election integrity — I said they will die on that hill! And I called it!

I'm telling you, when it comes to exposing these machines, the wicked will go nuclear to protect their secret — and the reason is that it goes way past anything Democrat or Republican, it goes way past America, even, it topples the illegal regimes in Venezuela, some countries in Africa, and this was honed in CA, it was perfected here. We've not had a completely honest election in CA for almost thirty years. It's the hill they will die on.

And so much of their argument depends on protecting the secret of Internet connection. So now we know they can be connected, we need next to prove they are connected during an election.

Mike has a device that he demonstrated in his Election Crime Bureau forum earlier this month, you can view the whole thing on line at this link: <https://frankspeech.com/Video/national-news-media-challenge> . I watched much of it, enough to have watched him demonstrate this machine, called a WMD — and whether they intended this to play off of the infamous *weapons of mass destruction* thing back in the days of Bush II I don't know; but it refers to Wireless Monitor Device — and what it does is it captures every device in a room that connects to the Internet.

And they put up a cool demonstration. A drone carrying the device, was flown into the large auditorium they used for the event, and it landed on the desk in front of Mike. He separated the device from the drone, and connected it to the big screen and showed that it captured every persons device that was connected to the Internet in the room, and in the entire building.

There was a moment when someone knowledgeable of this sort of technology asked a question and pointed out that some component in the machine was made in Russia, and Mike's reaction, was

understandably annoyed — this guy gets hit with stuff like this all the time. But I think he had better get a better answer than assurances that this does not matter, what matters is the device captures the IP address of every device connected to the Internet. So, if that was a blindsided question, a plant, and it very likely was, I've watched Mike a while, he will come back and address it more fully or correct the problem if there is one.

Anyway, you can't fake the results we saw displayed because it was real time, and the people there in that room could see their device identified as connected to the Internet. He also showed how they can narrow down the display to show only certain connections — so they can filter out any connection of voters devices, and isolate the Dominion, or ES&S machine or other voting machine — if that machine connects, it is recorded by the device, and sent to everyone who is connected to the FrankSocial application — so I could be at home, and on election day, my phone would alert me, and I could look and see if someone connected to the voting machines in my city, or county.

The reason this is huge is that these devices can be deployed at every precinct where these cursed machines are used, and when an Internet connection is detected, and can be narrowed to the specific machine in a specific precinct and it happens in real time.

He also has a group called Cause of America, I think that's it; and this includes something like 250,000 members who are actively watching the precincts and monitoring voting in their regions. They report on election fraud wherever they find it and report on it also in real time.

All of this comes to a database where it is stored, and all who subscribe, it's free, FrankSocial can get the alerts on their device as it occurs.

This allows Mike and his organization to put the election thieves on notice that they are being monitored.

This will be a much bigger headache for the foul wicked doers of evil in election theft than 2000 mules was.

But we need to move toward a conclusion for the show today.

Let's do that with some HEALTH news. Evidence is mounting that this latest COVID variant that is supposedly turning into a global pandemic is another PLANDEMIC. What is triggering the CDC to talk pandemic in America? 8 cases of this new variant! And I think all of them are among the vaccinated — certainly most of them! SO much so, the CDC is warning the vaccinated are more likely to get sick with this new variant than the unvaccinated.¹² Really? Yeah! Really!

Do you remember this is exactly what was explained at the very beginning of this. That coming out with a vaccine so early in a pandemic can cause this exact problem — it challenges the virus provoking it to replicate more aggressively and creates a situation where the variants find a way to fight off the vaccine attack, making it useless, and this even causes the virus to become stronger and more deadly. When otherwise, the virus would naturally back off because it is not served by killing its host. It's really amazing stuff, I studied it early on, but I remember this was explained as a likely outcome if we went too quickly into vaccines before the virus began to back off and stabilize.

And now it is happening just as these top tier virologists predicted, the ones that were shut down, whose careers were ruined, whose lives were destroyed. There is PAY DAY SOMEDAY — and SOMEDAY IS COMING!

Along with the warnings of another pandemic, Mask mania is returning.

¹² 948.17.5-What_ The CDC indicating that the New BA 2.86 COVID 'Pirola' Variant '(driven_ caused by Darwinian selective pressure) May Be More Capable' of Infecting Those 'Who Have Received' Vaccine_ We knew this.pdf https://palexander.substack.com/p/what-the-cdc-indicating-that-the?utm_source=post-email-title&publication_id=579356&post_id=136397944&isFreemail=true&utm_medium=email

But this time we are getting some help from the scientific community — the physiological burden of prolonged PPE use on healthcare workers is concerning and here is a study that warns of the dangers.¹³ As for all the rest of us, here is a study recently released that measured the quantity of harmful volatile organic compounds inhaled through masks¹⁴ — the masks are dangerous for reasons I did not pick up on in my original research for my book, LET MY PEOPLE BREATHE!
