DEEP DIVE INTO COVID LIES / WILL MIKE SPIKE, SPUTTER, OR
SPIN? A CAREFUL LOOK AT OUR NEW SPEAKER

Original Air Date: 10.28.23

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA—and your brain masseur—get ready for your brain massage.

Guns are killing people again! But in response to the Lewiston massacre — they are not hunting the gun, they are hunting the suspect who pulled the trigger of the gun — are liberal so confused not only can they not tell the difference between male and female, that can't even differentiate whether it was the gun or the shooter that killed those 18 people! Anyway, suspect Robert Card, alleged to have murdered 18 people in Lewiston, Maine, is still at large.¹ Our hearts grieve with family and friends of those murdered and we trust our prayers for justice to prevail will be heard!

COVID: That deafening silence you hear is coming from the US Medical Establishment responding to the disturbing increase in American deaths, especially among younger Americans, since they started pushing their COVID mRNA shots! These vaccine pushers are guilty for these jab-deaths as a heroine pusher. Wait till you hear from the makers of a new movie: Cutting the Head off the snake.

The coming war with today's axis of evil — China + Russia/Iran!
Have we attacked Iran?

And, finally, why they hate Mike Johnson. Will Mike spike, sputter, or spin?

Another invigorating, stimulating, scintillating, insightful look at the news from a biblical perspective, from the Brain Masseur: it's time for your BRAIN MASSAGE®.

[TRUTH]

Even Newsweek is noticing that a whole lot more Americans are dying in the younger demographics and no one seems to know why? HEADLINE: Why Are Death and Disability Rising Among Young Americans?² Insurance companies are noticing—hits their bottom line, so they watch stuff like this. One insurance insider called it an “open secret” of increased excess death — that's insurance talk for the number of people dying above what is expected. [IBID]. Disabilities are up 33%. The deaths are “record breaking,” a “troubling trend,” and “signal continuing waves of early deaths.” [IBID]. Specifically, 25% more deaths among 15-19 year olds died in the first five months of 2023. That's a thousand more than the norm. All together, 87,000 more people died above the norm in that period. So, when it affects someone's bottom line, it gets noticed. But apparently, our establishment medical professionals are not concerned. They continue getting their checks.

It used to be that medical people noticed stuff like this, and even showed some concern. Like back in the old days when a swine flu vaccine seemed to be connected to some sudden deaths, I think it was 25+,³ was that it? and they pulled the vaccine and shut down the government's mass vaccination program.

³ 957.17.15-Comparisons between deaths reported after swine flu and Covid-19 vaccines are misleading - Full Fact <https://fullfact.org/online/swine-flu-vaccine-1976-covid/>

Here is an article from NYT back in 1976 telling us they shut down the swine flu vaccination push in nine states after only 3 deaths were reported as possibly correlated with the vaccine.⁴

Here is an article written in 2020 reprising what back then came to be called the Swine-Flu-Snafu, 1976, three years after Roe, and it is shocking to discover how that pandemic scare was also a totally politicized boondoggle, and a big Pharma hustle.

Oh, back to the point. CDC stipulates to more than 6000 deaths correlated to the COVID-19 shots.⁵ A little over 25 in 76, over 6000 today!

So, let's see, you know how when you compare a dollar today to a dollar in the 70s you have to adjust for inflation? What do you call the adjustment necessary here to compare the attitude of the medical establishment toward the value of human life back in 1976 as compares to their value for human life today?

Back then, a little over 25 people died in a circumstance that suggested the introduction of an experimental vaccine might have been the trigger — so they pulled the program; shut it down!

Today, more than 6000 die in circumstances suggesting the mRNA jab was a trigger, and the propaganda jab pushers get louder. (I don't have time here to go into how the CDC and FDA are complicit in pumping up the COVID-19 death count when the agenda was to gin up fear and push people into the vaccine lines, and then suppressing the number of mRNA vaccine related deaths in order to do the same thing, to keep pushing people into the vaccine and booster lines — but the truth is nearer many 10s of

thousands have been killed by the vaccine pushers; but let's just stay within the numbers the medical establishment will stipulate to, okay; is that fair?)

So in 1976 at least 25 lives were lost with a possible connection to an experimental vaccine and back then that was too many to risk continuing with the vaccine program — but in 2021 more than 6000 had died in circumstances suggesting a possible connection to the mRNA vaccine, and we are still counting, and no one in the government or the medical establishment is calling for the vaccine pushers to back off — in fact, it's the opposite.

So, let's see, how do I calculate the impact fifty years of the legalized murder of babies under the cover of one of the most wicked court rulings in the history of mankind — Roe-v-Wade, launching a holocaust in the wombs of confused, abused, and sometimes just sin hardened women has had on the conscience of the medical profession generally?

Baby murder recognized as a constitutional right in 1973, it took a while to harden the general medical community as this atrocity continued under the sanction of law till June 24, 2022 when the SCOTUS rightly and justly overturned that wicked ruling.

During the period, human life devalued by roughly 100% — that's pretty close saying we went from valuing human life above pharma profits and politics to a net zero in our valuing of human life relative the the importance of politics and big Pharma profits.

Satan's continued focus has been to rid the earth of human kind — depopulation has always been his agenda and it's the agenda of his children of disobedience that are under his influence. DEATH is chosen by these perverse people. Death is their answer to everything. Unwanted pregnancy, just kill it. Climate change, let's kill off some of the population. China chose death with their concern about overpopulation—instead of giving their people freedom to farm and and produce to provide for more, they

decided to restrict population growth by imposing a 1 child policy for every family — of course, that does not even replace the parents. Well, now they are in trouble! So they changed the policy, you can have 3 kids now.⁶ What a pack of devils — and devils make people stupid! But that’s the way it is with the children of Satan, they have a relish for offing humans. During what’s called a Ted Talk, Gates made a snide joke about the need to reduce population to near zero to save the planet from climate change.⁷

Ever notice how Gates giggles every time he talks about corona deaths? It’s just weird. Watch this!⁸ And here.⁹

Anyway, establishment medical professionals used to actually study stuff like this, and ask questions, such as what has changed precedent to this sudden rise in deaths? What is different? Could it be the introduction of this *new fangled*¹⁰ mRNA jabs — I mean, we did have to change the definition of the word *vaccine* in order to qualify this new cell invasion therapy.¹¹ Okay, in the interest of transparency, the article cited here explains the CDC’s rationalization for making the change was to make it more transparent; the old definition could have been interpreted as saying vaccines provide 100% protection, which they’ve never done. But, the fact is, the new fangled “vaccines” would not have qualified under the old definition — and this new definition happened to get introduced just as the new fangled innovation was

being introduced, and so, you make up your own mind — because, you see, the new definition could very easily be understood as an effort to squeeze the mRNA innovation into a category already established saving years of delay in getting it to market. COVID was made to order for a lot of EVIL to release into the world!

Okay, I need to wrap this segment. What's my concern about these mRNA vaccines? No way we have time for that. But here is an article from NIH.gov, published by PubMed and essentially, it's an admission that some in the medical establishment are concerned about this mRNA injection invading human cells with messenger RNA that instructs the cell to produce the same spike protein SARS-CoV-2 uses to make you sick with the COVID-19 disease. These spike proteins are supposed to be harmless, and purposed to trigger the body to produce the antibodies that will recognize SARS-CoV-2 spike proteins and destroy them. But some studies are finding there are some serious problems with these mRNA replicated spike proteins.

Among the concerns that have been raised, one is regarding the types of antibodies produced, and about some of the actions of these artificially generated spike proteins in the body of the vaccinated. One report said certain antibodies change the shape of the spike protein making it more likely to bind to cells; and it has been shown that this mRNA induced, or created, spike protein, by itself, that is, without being part of the corona virus, CAN BY ITSELF DAMAGE ENDOTHELIAL CELLS and disrupt the blood-brain barrier. [It could also break down the integrity of your blood vessels and lymphatic vessels — together this compromises the integrity of your blood vessels. That can't be good!

This article, published by PubMed, under the auspices of NIH, tells us these mRNA manufactured spike proteins can create problems associated with long-COVID in as many as 50% of those infected with SARS-CoV-2.

The rest of the article recommends an intervention intended to protect the vaccinated from the harms associated with the vaccine: “to prevent the harmful actions of the spike protein.” Folks, I intend to look more closely into this, but if PubMed is publishing articles where NIH aligned medical scientists are asking questions like this, I think you need to look more deeply into all this before you continue lining up the the shots and boosters.¹²

These vaccine pushers are as guilty for these jab-deaths as a heroine pusher. Wait till you hear from the makers of a new movie: Cutting the Head off the snake.¹³

I went over this in my Brain Massage LIVE podcast — on Rumble, Twitter, or X, a couple of pages on FB, and LinkedIN — I broadcast Tuesday, Thursday, and Saturday and go live at about 9 PM — we visit for about 90 minutes. But, real quick — first, an Internationally known and respected Swiss banker, Pascal Najadi, headquartered in Geneva, sued the President of Switzerland accusing Alain Berset of “making false statements surrounding the effectiveness of Covid mRNA vaccines.”¹⁴ His influence is so great in Switzerland, President Berset declared his intention to step down. This well known international banker is on the war path against the World Economic Forum, targeting Karl (you will own nothing and that will make us elites real happy) Schwab [what’s that? the exact quotation folks: “You will own nothing and be happy.”¹⁵ It’s a summary of Danish Prime Minister Ida Auken in an article published for the World Economic Forum to promote their 2016 DAVOS, Switzerland meeting.¹⁶ Look, I’ve got to wrap this segment.

So, this Internationally known and respected World Banker in Geneva, Switzerland gets the jab and now he and his mother are dying and he did the research and knows the vaccine is killing him, and he is not happy about this — he is convinced the WEF, its chairman Klaus Schwab, Bill gates’ Global Alliance for Vaccines and Immunization (GAVI), the World Health Organization, Big Pharma, Big Tech, and other globalist elites have conspired together to push a “global humanity injection by a bioweapon.” He accuses them of Democide.¹⁷ Democide is an action of the government using its power to kill its own citizens. He calls on the Swiss authorities to round up these people, almost all of them headquartered in Geneva, and arrest them. He is accusing them of crimes against humanity.

In other European COVID reaction news, German attorney Reiner Fuellmich, who is leading the effort to drag these murderers before German court to be tried for crimes against humanity was arrested in the German Embassy in Mexico recently.¹⁸ That goes a long way

toward confirming his case against the German government and medical establishment there. The shadow of Nuremberg is creeping over Germany.

And here, we've seen some interesting progress. McCullough, this is from the Epoch TIMES, by the way,¹⁹ Dr. McCullough has laid out an incontrovertible, undeniable, indisputable argument that it is perfectly reasonable for Americans to skip the COVID-19, the Flu, and all the RSV Fall vaccines — do what Najadi called on all freedom loving and truth loving people everywhere should do, **JUST SAY WE WILL NOT COMPLY!**

He also laid out the case for showing that the shield protecting Pfizer and Moderna from being held accountable for pushing their vaccine is gone, it is compromised; and this means those injured by their vaccines can sue those companies for damages.²⁰ The “plasmid bioactive contaminant sequences were NOT pointed out to the regulatory authorities. It's considered adulteration.” [IBID]. This means the FDA, under law, is required to demand a recall of all the latest release of Pfizer and Moderna mRNA vaccines. It also means their shield of protection from civil suits is **GONE!**

Well, I've got to take a short break! Hold on! I'll be right back!

attacking Iran’s proxies sent to attack our bases Saturday.²¹ Let’s conclude the show today with a look at Mike Johnson.

Why do they hate Mike Johnson.²² Will Mike spike²³ sputter²⁴ or spin²⁵?

Mike Johnson is a Representative from Louisiana; he has been on the Hill for seven years. He is very open about his Christian faith. Recently he stirred some brouhaha when he said he was a Bible believing Christian. The children of disobedience cried and howled like their father whom they call Lucifer, the bright shining one — whom the Spirit says transforms himself into an angel of light;²⁶ whose proper name is in the Hebrew Tongue, Heleyhl — means the howling one — and not Halal, or praise.

Mike Johnson has come under fire for his Evangelical faith. He has called homosexuality “inherently unnatural” and a “dangerous lifestyle” he even linked it into a category that includes other

• revolving motion imparted to a ball in a game such as baseball, cricket, tennis, or billiards: *this racket enables the player to impart more spin to the ball*.

unnatural behaviors like bestiality.²⁷ He wrote “Experts project that homosexual marriage is the dark harbinger of chaos and sexual anarchy that could doom even the strongest republic.” [IBID]. He is exactly right about this! When pressed about this, he deferred like they all do, and punted: Well that’s been decided by the court and I’m a rule of law guy!²⁸ I thought you were a guy who said if you want to know my world view and what I believe, pick up your Bible.²⁹ Yeah, rule of law — God’s LAW or the rulings of a lawless court. I don’t have time to argue this right now; but what I’m saying is this is another STINKING POLITICAL DODGE answer — just say, like ROE, that decision is seriously flawed, and I will hope it will be LEGALLY OVERTURNED. Meanwhile, it is the law, and I’m a law and order guy! See the difference?

He voted for a national ban on abortion, he co-sponsored a 20-week abortion ban and celebrated the overturning of Roe. He introduced a Bill to prohibit the use of federal funds to provide QUEER education for children under 10 . He opposed the Bill that gave federal recognition to same sex marriages. He is an atty that worked for Alliance Defending Freedom. In 2004 he supported a state amendment banning same-sex marriage and asserted that without this ban, “there will be no legal basis to deny a bisexual the right to marry a partner of each sex, or a person to marry his pet.” [IBID.]

The thing is, I don’t believe any other member of the House would align as closely as he does on biblical cultural values and morals.

And yet, sensitivity to the political nature of his new assignment is not lost on Mike; and, frankly, that troubles me. I understand compromise when both parties are aligned in values and objectives. But the LEFT NEVER COMPROMISES — they are at WAR and their TERMS are ALWAYS SURRENDER! The Conservatives still think they are in 1950s America when the Left and the RIGHT had shared core values and traditions. THAT IS NOT THE CASE TODAY. When Democrats get power — THEY ATTACK EVERY ASPECT OF AMERICA AS FOUNDED. When Conservatives get power, THEY GO SQUISHY! So forgive me if you think I'm looking at this guy too closely. And take what I say here as a call to pray this brother — he needs us!

We have all watched more than one Christian patriot lose his or her clarity in the bright lights of fame, and power, and a position that is almost defined as requiring compromise. The strong undercurrent of “bi-partisan consensus” begins pulling very hard when a strong conservative gets a position like this — dragging him down into the deep water of Deep State compromise. Pray for this Speaker. The potential is huge, and the dangers are many.

I've already noted in him some influence of Deep State undertow.

Check out his interview with Hannity.³⁰ Johnson came across as a bit squishy in his response to attacks from the left.

Maybe he was tired, and so did not follow the question as it was put to him and missed it.

After introductions, Hannity says “you got a warm welcome from the DNC: Antiabortion, MAGA extremist Mike Johnson; cosponsor to institute extreme abortion-ban nationwide, wants to cut social security and. medicare — here is some free advice for Mike, don't get comfortable in that chair, this is the same MAGA

extremism the American people already rejected [an allusion to the 2020 election], and it will be rejected again.”

Mike’s response: “Welcome to the job. Yeah, they don’t know me; a lot of these people don’t know me; and I think I’m, uh, if they would talk to some of my colleagues here on the other side of the aisle that have worked with me for the seven years that I’ve been on Capitol Hill, they would tell them that those things are not true; give me a chance, let me have a chance to lead here and you’ll see what I’m really about.”

Excuse me? What things are not true, Mike! I’m sure you misspoke, I don’t doubt that even a little bit. I think you are authentic in your convictions, all sincerely held — I sure hope so! But you missed something here — you are starting off with a “why can’t we all get along” thing; you believe these people want to “get along with you”? Are you out of your mind! Have you already lost your brain!

“It’s not true”? What’s not true about any of these things they said about. Your answer should have been, well, **THEY KNOW WHERE I STAND. I guess I’ve done a good job! THAT’S THE WAY YOU FIGHT THESE DEVILS, MIKE. I hop you wake up from the drunk your on right now and get sobered up real quick.**

Mike sounded like some silly idiot who thought if only he could talk to Hitler, he could convince him that killing the Jews was not nice. **WE. ARE. AT. WAR!** When will these guys catch on?

Mike talked like he just wants **GOD HATING, AMERICA DESPISING, QUEER EMBRACING** perverse to “give him a chance.” That’s the stupidest thing I’ve ever heard.

If he has been getting along just fine with his colleagues on the other side of the aisle, he has not crossed one of their trigger issues on a level where it threatened them in any way.

This betrayed a weakness in the new Speaker that could undo him as it has so many before him. You’ve simply got to give up on the

idea of bi-partisan deal making — on such issues as these, IT DOES NOT EXIST. America has DECLARED A CIVIL WAR between factions lining up on opposite sides of issues for which there is NO COMPROMISE on EITHER SIDE.
