TRUMP & XI “BROMANCE” OR “MOUSE” TRAP? / TOWRD A TRUTH
CENTERED NATION

Original Air Date: 11.01.25

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

Why does Trump speak so highly of Xi?

Marjory Taylor Green is accusing some of our conservative influencers of selling out to foreign powers, like Israel. Have some of our favorite influencers sold out? What's going on with Tucker — has he become antisemitic? I don't think so!

Trump goes nuclear: He resumes nuclear testing and calls on Congress to enact the nuclear option —eliminate the filibuster and open the government.

All right, let's go ahead and get into our news for the day. It's time for your Brain Massage®:

[TRUTH]

Why does Trump speak so highly of Xi?

How does the brain masseur feel about that? And more importantly, how do you feel about that?

The “Left” has used this to criticize Trump. How like them! They pretend to care about human rights abuses while feeding the Dragon that persecutes “the woman,” and robbing Americans of their rights routinely. A little Revelation 12 is going on there.

Nevertheless, I think we should give an answer to this question. I'm not always comfortable with it. I don't think Xi is worthy of a tenth of the praise Trump gives him.

Truth is marching on. I should say Truth is trampling down the wicked.

Thank God, long time coming.

Trump goes nuclear: He resumes nuclear testing and calls on Congress to enact the nuclear option —eliminate the filibuster and open the government.

On resuming nuclear testing, I understand that for the last three decades, we haven't tested any of our nuclear weapons. That doesn't sound like a very good idea. Certainly not in today's environment, not with Russia over there, saber-rattling about how many nukes they've got -Putin's all, Remember, we've got nukes.

It's probably nothing more than typical Russian chest-beating, posturing. Trying to look bigger and sound bigger than they are. I remember visiting the Kremlin, and my host taking me through the military museum. We walked by a huge cannon, and next to it there was this humongous cannonball.

My host informed me I was looking at the largest cannon and cannonball in the world, in all of history. He said this in an impressive manner, with a hint of mockery in his tone. What's the range, I asked. He said, No one knows. I looked at him, quizzened.¹ He explained, It has never been fired. He achieved the desired effect—I eyed him, and then the spectacle ironically. He guessed my thinking: Okay, how dumb is that? I thought. In my head I asked, Why build the largest cannon in the world with the largest cannonball in the world and never fire it?

He answered the unspoken sarcasm written on my face: They had no way to efficiently load that enormous cannonball into the mouth

¹ Quizzened is created from quizzical (<https://search.brave.com/search?q=quizzical&source=desktop>). You won't find it in any official source, unless you regard these notes as official sourcing. I made it up. It's the past participle of quizzical, or the past participle of quizzically. One who has been quizzened has been made quizzical by some past event, creating a present condition.

of that enormous cannon. But the brilliant Communists in control were very proud of having built the largest cannon with the largest cannonball in the world, and the savvy Russian common folk enjoyed it, amused by this display of the stupidity of their “superior Communist overlords.”

We’ve got some stellar monuments of stupidity here: Pelosi —we’ve got to pass the Bill to know what’s in it, comes to mind. Also, any picture of AOC, who might serve as a suitable caricature for a Donkey—or is that the other way around? Jasmine Crockett, Nero-Newsom, fiddling while Cali burned, and the king of the dull-witted, Biden, who couldn’t keep his thoughts straight with cue cards, along with his VP, who couldn’t frame a thought fit for a cue card. We do not lack for samples among the “Communists” embedded in our government and culture.

Anyway, we're going to resume nuclear tests. Trump's position on nuclear testing is that everybody else is doing it. That would not usually be a good reason for doing anything, but in this case, if an enemy is swinging his sword like a Youxia (you-sha (each syllable pronounced with rising intonation) — a traditional Chinese warrior displaying his sword handling skills — then it’s not a bad idea to draw your superior western pistol and demonstrate its simpler, but more effective power. (Remember that scene in Raiders? —say no more!)

Trump is pursuing peace! “For he that will love life, and see good days, let him refrain his tongue from evil, and his lips that they speak no guile: Let him eschew evil, and do good; let him seek peace, and ensue it. For the eyes of the Lord are over the righteous, and his ears are open unto their prayers: but the face of the Lord is against them that do evil” (1Peter 3:10-12). I know many cannot see rightness or rectitude in Trump’s manners and speech, but Pharisees have always had a problem seeing past the surface.

Indeed, Trump does not wear his virtues on his sleeves; in fact, one could say he does a pretty good job of downplaying them, admitting freely his failings in this regard, and humbly confessing he does not see himself as “worthy of heaven.” And yet he fastidiously obeys the law, even when unlawfully abused; he is so honest that no one in the world doubts his word, the only vice visible is his love of a Big Mac, yet no booze, no tobacco, and he seems to have left his Playboy persona in his past, and for some decades lived an exemplary life, a great role model for his children and a dedicated husband to his current wife.

He is pursuing peace, and at the same time, he is preparing for war, because when he speaks for peace, “they are for war” (Psalm 120:7).

So it's probably a good idea to make sure we test our nukes because it would be a very foolish thing to get caught on our heels if, or when, our enemies strike. Besides, positioning the nation on a war footing is the best deterrence against anyone out there getting any ideas!

So, good for Trump. And he recently signed off on the development and production of the F-47.²

together with all connected with him-, so, it's like WE actually did and continue to do whatever action is indicated by the verb. Super means to overcome. Perstamus is probably a spin of Latin Perstare, meaning “to endure,” where the suffix —are is replaced with —amus, signifying “We endure.” Letamus means to rejoice, at least according to most sources. But Grok and Brave AI tell us this word comes from Leto, meaning ‘to kill.’ In order to get the meaning “We rejoice,” we would need Laetamus.³ By the way, these three words make up the slogan for the F-47 Patch.⁴ Let not your heart be troubled; this is the “unofficial” patch, and likely it has not been properly edited or vetted. What an unfortunate typo!

The F-47 Phoenix is named for the 47th President of the United States of America, who is Donald J. Trump. Like this project, quashed by Obama-Biden, it has risen like the Phoenix, like Trump arose from the Obama-Biden effort to bury him—Trump defeated them and like the Phoenix ascended to overcome them.

I had to remind AI of that—of the fact that Trump won and is now our President. No kidding, in response to a query, only a few weeks ago, AI returned an answer that included a reference to Trump as the “former President.” I reminded AI that Trump won the 2024 election, and it took a few seconds for AI to gather its wits and correct the mistake with something like, Oh yeah, that's right. And offered a lengthy explanation of how algorithms take their cues from the sources used in their search, and since it used a few sources from before November 4, 2024, that referred to Trump as “former President,” well, you understand!

And, frankly, I do. I do understand that AI is not sentient, not aware of anything it's not examining in the moment, and so it can

only report within the limits of its present data set, and cannot interpret that data from the context of a present awareness of immediate historical context, unless that is included in the query. AI can't always hear the answer in the question.

Anyway, Trump is number 45 and number 47. And you know that story. So they're calling this particular jet the F-47. This designation also pays homage to the famous World War II-era fighter, the P-47 Thunderbolt, and to the founding year of the Air Force (1947), all of which enhance this salute to our 47th Commander-in-Chief, Donald J. Trump, who is giving his full support to this project. A project buried by Obama-Biden-Harris, the trinity of evil, defeated by the PEOPLE. Hehe.

The F-47 is faster, has a longer range, and is less expensive than some of the machines we have up there right now. It features advanced stealth technology. It will be the successor to the popular F-22 Raptor. 185 are scheduled for production.

But one of its really cool features is that it will be escorted by drones. Actually, I should say, it will command a force of drones that will attend it. I understand that each F-47 can command any number of drones deemed necessary for its mission. I think the standard issue planned is 5-6.

It's like a modern aircraft carrier that flies. Like a Carrier allows deployment of air power from the sea anywhere in the world, these babies will command a fleet of powerful drones anywhere in the air.

Yeah! Biden put it on the back burner and was going to scrap it because they want us to be weak. He did not "say" that, but his actions did.

The prince of the power of the air does not like America projecting its divine power into his domain (Ephesians 2:1-2). But hear this,

fellow believer. Jesus is the Prince over all the kings of the Earth,⁵ and has been given ALL POWER in Heaven and in Earth.⁶ More on this in a bit.

They believe a strong America makes for a dangerous world. Yeah! Dangerous for tyrants, oppressors, and drunken bribe takers. Dangerous for sex and human trafficking Cartels and nations that produce and distribute Fentanyl, cocaine, and other murderous drugs are a major export from the CCP and Venezuela and Mexico into America, with the CCP coordinating with Venezuela and Mexico to deliver these drugs to kill 100k Americans every year.

That's because these anti-America-as-founded (thank you, Rush) politicians don't really believe in America's divine mission or its manifest destiny.

Alright, let's take a break. I'll be right back!

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march—an enemy that would steal from us our liberty.

Marjory Taylor Green is accusing some of our conservative influencers of selling out to foreign powers, like Israel. Have some of our favorite influencers sold out?

MTG is really jumping on this thing about some of the influencers being bought and paid for by Israel. What's with the apparent rise of antisemitism amongst conservative talkers? We are talking about

⁵ Revelation 1:5a “And from Jesus Christ, *who is* the faithful witness, *and* the first begotten of the dead, and the prince of the kings of the earth” (Revelation 1:5).

⁶ Matthew 28:18 “And Jesus came and spake unto them, saying, All power is given unto me in heaven and in earth.”

Tucker— yeah! What’s with that? Let’s examine, fairly, the Tucker proposition on Israel.

I’ll deal with this more Saturday night, for Brain Massage® LIVE on Rumble, X, Facebook, and LinkedIn, soon to include TikTok, and about five others.

Right now, I want to comment on the fact that the whole Tran Trend is fading out and what that means.

There is a new trend: a return to a commitment to objective truth, where TRUTH is understood as what aligns with objective reality. A man cannot have babies, or become a woman. Men are designed by our Creator to protect women and children, not beat them up in a boxing ring or overpower them in a swim match.

These things are “self-evident” truths. It’s not by accident that departure from the principle of the self-evident truth that all men are created equal and endowed by their Creator with certain inalienable rights led finally to the departure from all self-evident truth rooted and grounded in nature by the Creator of Nature—the God of Abraham, Isaac, and Jacob, the God and Father of our LORD JESUS CHRIST.

And the beauty is that a return to TRUTH and the principle of self-evident truth arising from an honest observation of nature, turns us toward GOD — a move toward truth is a move toward GOD. When we align with truth, we are placing ourselves in alignment with GOD.

Any movement toward truth is a movement toward God.

In Natural Sciences, like physics, chemistry, biology, astronomy, and all earth sciences — if these are aligned to TRUTH they will lead you to GOD. In the formal sciences, like mathematics, logic, statistics, and computer science—when truth, understood as aligning with what is observational, testable, and ponderable by honest men humbled in their pursuit of TRUTH as something

discovered and not created—where we are seeking TRUTH, we see GOD — read Romans 1:17-32.

Even the Social Sciences lead us to GOD if we are being honest about our discoveries, and not attempting to separate ourselves from reality to create an alternate one, one fabricated by lying vanities. If we examined social interaction, internal psychology, or external behavior, and sought for TRUTH, what is rather than attempting to make something true that manifestly is a LIE — if you start with an honest assessment of what is and move from there, you will move toward GOD.

This is also true of applied sciences, such as engineering—how much engineering learns from nature; the same is true of medicine — I mean, as a case in point, the truth about the jab is that it was not efficacious against the disease that it was designed to treat, but in fact, the data show that it did more harm than good. The fact is, Ivermectin proved beneficial, but evil men who denied empirical evidence that interfered with their experiment deceitfully and forcefully denied these effective remedies, resulting in many hundreds of thousands of deaths and other adverse side effects.

Those who participated in that evil business separated themselves from the TRUTH, and became the enemy of any TRUTH that exposed the lies they were trying to use to enslave the people.

You could say truth is the center point of God's creation. And when all the sciences are revolving around TRUTH as its center, so long as they stay in that orbit, connected to and aligned WITH TRUTH, you will have balance, order, and GOD will reveal Himself in that universe.

But if you disrupt the orbit of anything, of any science, and set it on a path away from objective TRUTH as what conforms to reality in nature, that science and/or that person will become unstable, and cause a disruption the the universe.

Do you see it? If you can think of the various sciences as planets, and truth being the center of that system, where everything revolves around Truth, remains tethered to the invisible force in nature, like gravity, holding the sciences to TRUTH as the center point, you will move toward GOD, the Creator.

So, if you can visualize that, like a solar system where everything is held on its orbital path by the mass of the Sun, so the center of knowledge is Truth, and anyone moving toward on a path in orbit around Truth is moving toward GOD.

Jesus said this in John 3:17-21. He was explaining to us why some don't come to the light. He explains it's not because there isn't any light, but light has come into the world. Read Romans 1:17-32 especially the first few verses of this passage — the creation reveals GOD, Who has revealed himself to every man. Jesus spoke of lighting every man that comes into the world, and giving the measure of faith to every man. It's not because there is no light.

He explained, however, that some men love darkness rather than light. They love darkness rather than light because their deeds are evil.

That's what the Bible says: "The fool hath said in his heart, There is no God. Corrupt are they, and have done abominable iniquity: there is none that doeth good" (Psalms 53:1). Since Marx constructed his theory of economics based on the assertion that there is NO GOD, the Soviets murdered 20-36 million between 1917-1991, the CCP murdered 40-78 million from 1949-1987, and then took so much control of information we don't know how many since then. Cambodia murdered 1.5-2 million, North Korea 1.7-3 million — it reaches a grand total of somewhere between 90 and 150 million people. And these are the conservative estimates.

So, there's a corruption in the hearts of those who deny God, who deny truth.

It is the TRUTH that will make you free — freedom is more or less enjoyed based on how much TRUTH prevails in a culture or a nation.

Truth is hated because it leads to GOD, and the prince of the power of the air, the spirit that works in the children of disobedience hates GOD, and that's why he hates truth—truth is a light that shines on the path that leads to GOD.

Jesus said those who do truth will come to the light. Those who hate the light, reject truth, and cling to darkness.

Truth deniers will move away from light.

Anyway, so there's that.

And this whole trans thing was a symptom of a nation being pulled out of its orbit around truth, so chaos began to emerge.

But now, we're seeing that since this nation has lately shifted, rather dramatically, or pivoted, toward TRUTH, common sense is coming back into favor, the trend is moving away from the disruptions of order and back toward law and order, back toward TRUTH, and so on a path BACK TO GOD.

The fading of the trans trend is further evidence that we're moving back toward truth, and away from chaos.

So, here is what you get when a people begin moving toward TRUTH as the centerpiece of their lives, and culture, and values:

Truth seeking Elon Musk is suing liar Whoop Goldberg and THE VIEW.⁷ The liars who continuously said illegals were not accessing taxpayer dollars for medical aid have been exposed. Now we know that more than 1 billion dollars was being spent on funding Medicaid for illegal immigrants. Dr. Oz put together the numbers: CA distributed over 1 BN 300k, alone.⁸

In the past, the Lying Demoncrats would have been able to control the public narrative and convince everyone that since Republicans “control” the House, the Senate, and the White House, they could convince Americans that responsibility for the shutdown lay at Republican’s feet. Not happening! Why, TRUTH has prevailed, the people see the TRUTH and the TRUTH frees them, us, from the darkness of their lies. All that is needed is for 7 Democrats to cross the “strike” line and remove all this heartache from Americans suffering during this shutdown—including our armed services personnel.⁹

Trump has called for the House to go nuclear and remove the filibuster — that can be done with a simple majority vote. Then the clean CR can be voted on, and even if it goes straight down Party lines, it will pass, because Republicans want the government open.¹⁰

If the devils want looting and mayhem, they are going to get it! And it’s all going to be on them!

This is a benefit of TRUTH! They can’t LIE THEIR WAY OUT OF RESPONSIBILITY FOR THIS.

When TRUTH takes the center position in medicine, FREEDOM from medical tyranny follows quickly. Take a look at this from Lara Logan and Sherri Tenpenny.¹¹

When TRUTH is in its proper place in public and private life, good things happen. If Trump is looking for support to his plan to shut down all immigration and reassess our policies before opening up again, the Somalia experiment provides ample examples. This is getting nuts. Starting with Somali Ilhan who married her brother to get past immigration law, and so should be deported much less allowed to hold Federal office—look at her fellow Somalis and how

they are behaving and what they are saying. They have zero interest in assimilating into our culture and living among us as fellow Americans. They intend to take over our government and turn us into a Muslim state. Let Matt Walsh tell you about it.¹²
