MODERN WARFARE / STRAIGHT TALK ABOUT THE STRAIT OF
HORMUZ / CUBA'S CASINO

Original Air Date: 03.14.26

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

Some cool military capabilities have been unveiled during Operation Epic Fury.¹ Lasers, 3D Printed Drones, Space-Based Military Systems, Electronic Warfare and Cyber Weapons, and more.

Cuba has decided they don't want to do a Venezuela Tango or an Iran Mashed Potato dance with the U.S.

The Minnesota fraud scandal just keeps getting deeper!

From February 27 to March 3, 2026, NBC asked 1000 registered voters what they thought of Trump's border and immigration enforcement policies, and what they thought of the Democrat Party. 38% had a positive view of Trump's immigration policies and only 30% had a favorable view of the Democrats. Conclusion: despite all the radical "Abolish ICE" screaming and screeching from the Left, "people have more faith in the agency protecting the border than in the party that has consistently undermined it."⁶

Satan is becoming increasingly popular among the antichrist crowd and is becoming more public. At a Paris fashion show, satanic-themed attire and presentation dominated. What sense does it make to you for anyone to name their fashion business Fecal Matter? Then translate their brand name into French to make it more "elegant"? Weird, huh? The Design motif is diabolical on purpose. Just so you know, there is a growing clan of snobs that are attracted to excrement and satanic identification. If, as Henri observed, and as Twain opined, clothes make the man, what will be made of those following these fashion designers? Studies have shown that how we dress not only reflects how we see ourselves, but also shapes how we see ourselves and how others see and react to us. Remember Tango! Beware what you wear.

teach all nations to observe “all things whatsoever I have commanded you.”⁹ The first principle of International Law of nations was declared by Christ, the Word, through King David, His servant: “The God of Israel said, the Rock of Israel spake to me, He that ruleth over men must be just, ruling in the fear of God.”¹⁰

Some cool military capabilities have been unveiled during Operation Epic Fury.¹¹ Lasers, 3D Printed Drones, Space-Based Military Systems, Electronic Warfare and Cyber Weapons, and more.

Hegseth said our campaign to render the Iranianacs incapable of terrorizing the Middle East or the West would not be “a fair fight.”

Check out some of the military technology deployed in Operation Epic Fury.

The Precision Strike Missile (PrSM) made its war debut in this conflict. Called “One of the biggest technological milestones in the operation. A range of about 310+ miles, or more. It’s highly precise, way more precise than Iran’s famously off-target launches.¹² It can acquire a moving target and track it down. Extended range from 300 to over 600 miles.

The Directed Energy Weapons - or Lasers- take us closer to Star Wars technology. Electrical power generates an intense high-energy laser beam that melts through materials, explodes targets, and is

especially effective in neutralizing multiple drones in one pass. They not only destroy equipment, like planes, missiles, drones, and small boats, but they also blind sensors. They engage the enemy at the speed of light and are extremely precise in targeting. They operate at a relatively amazing low cost, taking out enemy attacks for under \$5 per shot.

The HELIOS laser system has been deployed on Naval destroyers. Israel uses them in their Iron Beam laser defense. They've been used in this conflict to take out drones, rockets, missiles, and also provide close-range air defense.¹³

Check out the Space-Based Military Surveillance capabilities. From space, our Space Force detects launches and immediately sends coordinates to nearby jets or launch installations. They track the target in real time. This provides early warning missile defense and real-time battlefield intelligence.¹⁴

Cyber Warfare and Electronic Attacks: Our advanced capabilities enable us to disrupt enemy radar networks. (I understand this was used extensively in Venezuela.) We can attack communications, confuse air defense systems, and disable missile command networks. [IBID]

Stealth Aircraft that puts what you saw during the Iraq war in the rearview mirror. The B-2 stealth bomber delivers bunker-buster bombs. The F-22 Raptor dominates with air superiority. The F-35 Lightning II stealth multirole fighter bewilders the enemy.¹⁵

Our AI targeting heightens accuracy and facilitates speed of response, or attack. This enhances defense and offense.

So we have superiority in space, in cyber, air, land, sea, and air.

And yet, with all that, don't make the critical mistake of undermining the enemy, or provoking GOD with pride—"Thus saith the LORD; Cursed be the man that trusteth in man, and maketh flesh his arm, and whose heart departeth from the LORD."¹⁶ Some trust in chariots and some in horses, but we will remember the name of the LORD our GOD.¹⁷

Hold on, though the break. I'll be right back!

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march—an enemy that would steal from us our liberty

UPDATE: Iran Operation Epic Fury/Lion's Roar.¹⁸ The current focus: the Strait of Hormuz.¹⁹ They are targeting our tankers!²⁰ We've sent the Marines!²¹

Another very good reason to break the Iranian Regime: “Iran has publicly warned that any ship crossing the strait without its approval could be targeted.”²² Crazy people cannot be allowed to control essential world trade routes. The world cannot be held hostage by insane people who believe that their god, whom they call Allah, requires them to *Islam* the world to him through force and violence.

This threat to the world is faithfully and dutifully reported to the US and the world by the Iranian Regime propaganda service of CBS (Communist Broadcast Service). (All Communists support the Iranian. Well, except Venezuela and Cuba, so the list of Communist supporters is diminishing.)

Traffic through the strait has fallen in step with Iran's missile launches: Missile launches drop by 90%, and shipping through the strait drops 97%.

Militarily, the Strait is considered a “naval kill zone.”²³ Take a look at how narrow and keep in mind it's not a straight strait—it requires

the navigation of a hairpin turn.

The ships must move very slowly and in a single-file pattern. It's sort of like shooting ducks moving in a single file in a swimming pool. Iran controls the high ground, holding Qeshm Island,

Larak Island, Abu Musa Island, and, of course, the northern shoreline of the strait.

Iranians have launched multiple attacks in the Strait. However, reports of six US oil tankers being destroyed are incorrect: two oil/fuel tankers were set ablaze in Iraqi waters near Basra. One crew member killed.

²³ 1082.4.8-WHY THE STRAIT IS A NAVAL KILL ZONE https://chatgpt.com/s/t_69b474aa58708191ab8a7074085a3214

On the other hand, the Institute for the Study of War data indicate 15-22 civilian/commercial ships, including tankers, have been attacked “or damaged” (not sure how “or damaged” is defined, attacks without damage, attacks with damage?) thus far during the conflict. Par for Iranian - hit the noncombatants, terrorize the civilians. Another reason to pry the fingers of these monsters off power and cast them upon the dustheap of history.

And so, here come the Marines. About 2500 U.S. Marines have received orders to the Middle East. The AP Mole, serving up leaked intel, spoke to the AP on condition of anonymity to cover his cowardly revealing of “sensitive military plans,” which he made public via his handlers at the Associated Press — a news organization that believed it had a responsibility to control and support censure against free speech opinions if they contradicted the government sanctioned information about COVID and the Job because it might jeopardize health and safety. Hmmm! AP has no qualms about divulging sensitive military information that could jeopardize the health and safety of our troops — so, you can pray for the 31st Marine Expeditionary Unit and the amphibious assault ship, the USS Tripoli, which have been ordered to enter the fray in the Middle East.

These Marines are trained in amphibious landings. They are about a week out. That’s as much information as the traitor from within, and the treasonous Associated Press can provide.

It was hoped Iran would not want to choke off their oil tankers. This action underscores how desperate they are and is evidence of a failing military and a flailing leadership.

Beyond the Strait, NATO member, Turkey, reported the interception of a third missile from Iran, and asked Tehran to

clarify.²⁴ An explosion was reported near Incirlik Air Base, in Turkey. Iran denies launching the missiles, “against Turkey.” It is widely believed that the U.S. stores B61 nuclear bombs at this base. These bombs are 23x more powerful than Little Boy, the one that destroyed Hiroshima.

As for any hope of “peace” in the Middle East so long as the Iraniacs rule the Iranians, the leadership remains belligerent, insists on unreasonable and impossible terms, and lately has flatly refused to consider any ceasefire. Therefore, my beloved, prepare and stay aware.

A headline in American Liberty: “FBI Warns of Potential Iranian Drone Threat to American West Coast.”²⁵ ²⁶ ABC reported this, so take it for what it’s worth.

Trump assured us it’s under investigation. Gavin’s initial response was to play it down as “unverified,” but he has decided instead that it may be verified after all.

Did he say that his record in protecting CA is solid, and his competence verified by how he has handled the homelessness problem, the one he said would be cleared up in ten years, more than twenty years ago?

Oh, and don’t forget the high-speed train—

So all Californians need not fear when Gavin “Goofey” Newsom is near.

I'm especially encouraged by his late admission that he is stupid. (Check this story and others about his claim that he was talking about his dyslexia,²⁷ when he insulted a black-dominated audience with his statement that he was like them, “a 960 SAT guy.”²⁸ His office was asked to provide medical records supporting his diagnosis. Newsom's staffer, Izzy Gardon, cursed the caller from Real Clear Politics, who asked for the proof they needed to verify the claim, and hung up.²⁹ Like Obama's Birth Certificate, it's always easier to get haughty, and puffed up, and angry, rather than simply and humbly to release the proof. Gavin was humble enough to use the claim to garner sympathy, but too proud to deliver the proof when asked.

Cuba has decided they don't want to do a Venezuela Tango or an Iran Mashed Potato dance with the U.S.

Cuban President Miguel Diaz-Canel went on Cuba's national media and announced to the nation that Cuba is “officially” talking to the U.S. In connection with this change of heart, Cuba announced it will release 51 prisoners—we would call them J6ers, that is, political prisoners. (You think the J6er reference is off? Really? Patriots falsely accused of insurrection by the people conducting, or who have conducted, an insurrection! Seems perfect to me!)

But, wait, there is more! Cuban dictator Diaz-Canel has authorized U.S. FBI agents to join in investigating a case involving a Florida-registered speed boat, entering Cuban waters carrying arms and

The Minnesota fraud scandal just keeps going deeper!

The IRS is launching a massive audit of the financial institutions that facilitated the laundering of money to the fake Somali “Learning Centers” — if you know what I mean!

This is verdy interestingk! It means we are looking not only at who got the ill-gotten gain and how, but also at who within financial institutions and the government facilitated this. I suppose we will also investigate where else it might have gone. The Trump administration is looking at banks and Minnesota government employees who facilitated this racket. The net just got significantly bigger. For example, something called a Geographic Targeting Order has been issued to examine international transfers, including interest in related fraud that occurred during the pandemic-era tax incentives, and to question the non-profit status of some organizations that dipped into that money.

From February 27 to March 3, 2026, NBC asked 1000 registered voters what they thought of Trump’s border and immigration enforcement policies, and what they thought of the Democrat Party. 38% had a positive view of Trump’s immigration policies and only 30% had a favorable view of the Democrats.
