WATCH THE STRAIT / PRAY FOR PEACE!

Original Air Date: 04.11.26

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

Last night, during the Brain Massage® LIVE, Episode no. 1066, I mentioned the “36-hour” deadline for Iran to open the Strait. Turns out that was another effort on the part of the deranged to set up a fake Trump fail! It's getting really difficult to sort through what is genuine and what is a product of clickbait hacks or bots. This is becoming a real problem, and I want to give you some tips on how to avoid getting snagged, like I did last night.

What is the current status of negotiations with the Iraniacs?¹ Watch the Strait! That tells you where we are. So long as the Strait is closed or throttled by Iran, there is no deal! It's still black smoke over Iran! No white smoke yet. I'll bring you up to speed on the Strait status.²

¹ Remember, class, an Iranian is a Persian, or Arabian, living in Iran, who does not subscribe to the radical jihad agenda of the ruling regime: to kill every infidel who refuses to *Islam* (mans submit), that is, submit to the tyrannical rule of the Mullahs in their agenda to destroy Israel, the little Satan, and America, the great Satan. *Iraniac* identifies someone who lives in Iran who has contracted the chronic disease of insane hatred, contracted from exposure to and acceptance of the perverted belief system of the Ayatollahs. Here is clarification of the use of —iac and —ian: “The suffix -ian is a common Latin-derived ending used to form adjectives or nouns indicating origin, profession, or a direct relationship to a person or place (e.g., Christian, Canadian, musician), whereas -iac is a specialized suffix primarily found in medical or chemical terminology to denote a condition, substance, or person associated with a specific disease or chemical compound (e.g., cardiac, alcoholic).” — Brave AI from Quora.com, languages.codidact.com.

He is promising to “take revenge” against those he deems responsible for Iraniacs killed in the war.³

The Commander in Chief, the Secretary of War, and the Joint Chiefs of the Armed Forces of the United States have made it clear and emphasized that, during these negotiations, our forces will stay ready: Locked and Loaded.

In other news, and this one is very relevant to today's topic: the Draft is back. Well, sort of. Presently, every male must register within 30 days of turning 18. What has changed is that all men 18-25 will be automatically registered for the US military draft starting December 2026!

Very interesting! John Solomon reports that Kash has discovered proof that Biden's FBI colluded to frame American patriots protesting the 2020 election in order to bury, to divert attention away from general concern about the stolen election.⁴ Solomon reports that a secret 2020 War Game scenario shows that 274 Undercover Agents rehearsed mass prosecutions of patriots months before it happened. They anticipated a possible revolt over concerns of election theft and devised specific strategies to address this. Here is the bottom line. Biden's FBI had intelligence suggesting there would be violence in response to the election, made preparations to respond that targeted MAGA, having done nothing to interfere with BLM riots, failed to report this intelligence to authorities who could have prepared for this possibility. So, knowing something was likely to happen, implementing a strategy that targeted conservatives, and not warning those who could have taken actions to prevent it, all add up to FBI complicity in a scheme to set up

My friends, it's time for your Brain Massage®:

Last night, during the Brain Massage® LIVE, Episode no. 1066, I mentioned the “36-hour” deadline for Iran to open the Strait. Turns out that was another effort on the part of the deranged to set up a fake Trump fail! It's getting really difficult to sort through what is genuine and what is a product of clickbait hacks or bots. This is becoming a real problem, and I want to give you some tips on how to avoid getting snagged, like I did last night.

Why are we having so much misinformation flooding X. X seems to be the primary target. Elon has directed X to address this problem aggressively. Predators use bots to multiply spam attacks with fake stories across the platform, flooding the zone! Most of them target Trump supporters to undermine confidence in his leadership. Many of these are very subtle, like the 36-hour deadline story. Trump has said that unless the Strait is opened, and oil can freely traffic through the Strait, there is no deal.

Karoline Leavitt announced: “The immediate priority of the president is the reopening of the strait without any limitations,

⁵ <https://x.com/bennyjohnson/status/2042314406487605735?s=20>

whether in the form of tolls or otherwise.”⁶ Trump conditioned the ceasefire on “Iran agreeing to the COMPLETE, IMMEDIATE, and SAFE OPENING of the Strait of Hormuz.”⁷ He said, “Time is running out” on this issue. He has rejected the claim by Iran that they have a right to control the Strait.⁸

The ceasefire has been agreed to; however, the Strait continues to be used by Iran to interfere with passage. What these jackals do is agree to something, then find an excuse to continue obstructing shipping through the Strait. Trump is dealing with a flock of Fork-tailed Drongos—this bird mimics alarm calls of other species, tricking predators into backing off, and as soon as they show any sign of hesitancy, they prepare to move in to steal their food.⁹ It must be maddening to deal with these slimy liars. Happily, Trump has considerable skill in “snake handling.” He flexes strategically. His current message is the ceasefire will not continue unless Iraniacs show good faith and open the Strait.¹⁰ The language is stabilization of the ceasefire depends on opening the Strait.

Trump always offers a way out in order to avoid hostilities. Iran's negotiators, Parliament Speaker Mohammad Sagher Ghalibaf, and Foreign Minister Abbas Araghchi, are in talks with Vance, Witkoff, and Kushner. We have no idea what's being said or the deal that is being formed. All we can do is watch the Strait.

Keep in mind that the cardboard Supreme Leader, Mojtaba Khamenei, is being used like Biden's autopen—to make public proclamations that the negotiators can't say out loud. So he put out a statement of revenge promised against Arab nations that refuse to join their insane aggression against Israel and America. He has vowed retaliation and demanded “blood money” for Iranian losses.¹¹

So, who are we talking to? A Parliament Speaker and the Foreign Minister are pretty low-level representatives. Are they under the authority of their “Supreme Leader”? Apparently, they are not talking about getting revenge, and I understand they've given up their demand for reparations.

Well, here is a clue. The acting Supreme Leader is emphasizing Iran's dominance over the Strait of Hormuz. Check this article from the Times of India.¹² The newest Khamenei boasts Iranians will “Advance management of Strait of Hormuz to new stage.” It is clear the Iranians have decided to leverage their assumed right to control passage through the Strait as their primary tactic to continue waging war against the World.

I think Trump is playing these fools into a trap. They have already alienated themselves from their own Arab neighbors, including the

Muslim-controlled countries, by attacking them spitefully and recklessly. Now they are annoying and angering the entire world against them.

I think Trump is allowing this foolishness to allow the world to see what we are dealing with. The guy is brilliant. He patiently waits, giving the rest of the world time to catch up. If, or when he does act, with devastating destruction of Iran (sad) he will do so justly, and in the fear of God.

The point is, our reason for moving against the Iraniacs was, and continues to be, to stop these crazy people from getting their hands on a nuclear weapon. That's the critical concern. While we are at it, connected with that objective, there are lesser but nevertheless very important things we want to accomplish. We want to neutralize Iran as a local threat in the region, because peace in the Middle East is impossible with that tyrannical regime intact, and peace in the Middle East is very important to our interests here in America. We don't want Yemen, or Iraq, to pick up the cause of the anti-American anti-Semitism of Iran—we don't want to destroy the Death to America and Death to Israel cult in Iran, only to have it pop up against in Iraq or Yemen.

Did you know that Hezbollah has increased its hostile rhetoric against the official Lebanese government? Lebanon is not Hezbollah. Hezbollah has lately escalated threats against the Lebanese government because Lebanon has called for the disarmament of Hezbollah, declaring their military activities illegal, and deploying troops into Beirut to reinforce state authority and limit non-state weaponization. This fight within the country is not Lebanon at war with itself. It's Lebanon at war with Hezbollah, a proxy army representing Iran, not Lebanon.

The point is, if Hezbollah finally completes its coup against Lebanon, we will have another "Iran" to contend with. Israel is right on in their understanding of this, and the only resolution is the

fulfillment of Jacob’s prophecy given in Genesis 49:13, which extends the “last days” borders of Israel into Lebanon up to and possibly including Sidon.

Hold on! I’m coming — Back to you after the break!

Segment.02 Hello. Welcome back! I’m Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere’s lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march—an enemy that would steal from us our liberty.

What is the current status of negotiations with the Iranians?¹³

Watch the Strait! That tells you where we are. So long as the Strait is closed or throttled by Iran, there is no deal! It’s still black smoke over Iran! No white smoke yet. I’ll bring you up to speed on the Strait status.¹⁴ The new Khamenei is promising to “take revenge” against those he deems responsible for Iranians killed in the war.¹⁵

Most of my listeners, Catholic, Protestant, and Baptist, get it! (By the way, when I was in the Army, your dog tag identified your religious affiliation as None, Catholic, Protestant, or Baptist. My dog tags said Baptist.) The white smoke and black smoke refer to

the practice of releasing white smoke or black smoke from the chimney atop the Sistine Chapel during the election of a new Pope. Black smoke means the Cardinals have voted, but no one received the 2/3rds majority to become Pope. White smoke means they have selected a Pope. I'm using the analogy to convey a triple entendre: "Black smoke" means 1. No agreement has been finalized, 2. The status of the current "regime" remains undetermined, and 3. A black cloud of ominous danger continues to hang over Iran. Oh, and the irony: the Iranians are praying for black smoke, the Iranianacs are angling for white.

So, what's the current status of the Strait of Hormuz? First, it's not operating normally. It is not fully open and free. Hundreds of ships are held hostage to regime threats. What does this look like in the ongoing negotiations?

Do the negotiators actually have control? I learned many years ago to talk to the decision maker. You can't get nothing done about a problem unless you are talking to someone with the power to make and enforce decisions.

The Supreme Leader wants the Strait as leverage, Trump has demanded it be open, and as of today, the world continues to be held hostage to the regime's will. This means the negotiators apparently, 1. Secretly agree with their Supreme "Homosexual" Leader — how ironic is that? The idea that radical Islam is anti-Queer is a queer thing. That's been something I've addressed many times before; now it's pushed right out into the open. Their Supreme Leader is Queer. But that is beside the point. Or 2. They don't have the power to negotiate any deal. Already, rifts are emerging as various officials vie for power. This is what I expected, and actually, it's hopeful. The unified front has begun to collapse. Like I said Thursday night during the Brain Massage® LIVE episode, the IRGC is not going to go along with any deal that surrenders control of the Strait, or allows verifiable limits on Iran's

missile program, or nuclear ambitions. Here it is! IRGC Chief Ahmad Vahidi is furious and wants to limit Ghalibaf and Araghchi. He has pushed for Mohammad Bagher Zolghadr, the Secretary of the Supreme National Security Council (SNSC). He has been added to the team representing the Regime. He is known to be a “hardline IRGC insider,” a former deputy commander of the Revolutionary Guard.¹⁶ He has been on the inside of the Regime’s operations since 2023. Here you go! The SNSC is “closely linked to the office of the new Supreme Leader, Mojtaba Khamenei. [IBID.] However, we notice that Israel did not place this guy on their hit list. So! Or the Regime has gotten better at hiding its new leaders. So!

Now I learn that this new guy, who was injected into this upcoming talk at the last minute, is going to have veto power over any point of the agreement. Ali Hashem, reporting from Iran, says “an important thing to note is that whoever is sitting at the negotiating table will have to get Zolghadr’s approval before anything passes.” [IBID.] See what I mean? The entire preliminary agreement was made with people who have NO REAL AUTHORITY TO MAKE A DEAL.

This is not going to bode well with our Negotiator-in-Chief.

But, at present, the point is that you know who is running the show by watching the Strait of Hormuz. So, first, Mohammad and Abbas have likely been playing a shell game with us, trying to keep the U.S. stringing along on the Strait but having no authority to actually do anything, so the regime can continue to use it to blackmail the eastern hemisphere directly and the rest of the world indirectly—attempting to bend America to their will. Well, so far, they succeeded at getting a ceasefire. It’s less likely, however, that they will keep it; pulling these machinations will jeopardize, possibly

¹⁶ 1086.6.6-Iran’s new security boss Mohammad Zolghadr_ Why his appointment matters _ US-Israel war on Iran News _ Al Jazeera <https://www.aljazeera.com/news/2026/3/25/irans-new-security-boss-mohammad-zolghadr-why-his-appointment-matters>

even torpedo, the talks before they begin! I am guessing they'll writhe and squirm and manipulate to extend the ceasefire, hoping the pressure put on the world by their presumed control of the Strait will finally force Trump to back down. These guys think they are dealing with Obama-Hillary-Biden, but they are up against Trump-Hegseth-Caine. With JD Vance taking point on these negotiations, with experienced Patriots Witkoff and Kurshner.

I'm not surprised that the Regime is acting this way. These sorts of ideologically committed tyrannical regimes work to consolidate power very deeply. The Iranian Revolutionary Guard is devoted to the regime, not to the people. They are recruited specifically for their radicalized and fanatical commitment to the regime and its ideology: namely, death to America and Death to Israel—it's a cult, and operates like a cult with what amounts to a death wish for the cause.

Any leader of this regime who attempts to overrule the Supreme Leader will be killed by this fanatical army. The fact that you have Mohammad and Abbas negotiating on the promise to open the Strait, while the Supreme Leader is demanding it remains fully in the control of Iran and continues to be used to hold the world hostage to his will tells you something.

Our team is wise and savvy, and will expose this soon enough. In advance of the talks, JD Vance has warned Iran not to play games with America.¹⁷ Here is his full statement to reporters as he was about to board the flight to Pakistan: "I think it's gonna be positive. We'll see. As POTUS said: if Iranians are willing to negotiate in good faith, we're certainly willing to extend the open hand! If they try to PLAY us, they'll find the negotiating team is not that receptive." "We're gonna try to have a positive negotiation. The president has given us some pretty clear guidelines." [IBID.]

¹⁷ <https://x.com/EricLDaugh/status/2042582623831068791?s=20> Video

If Mohammad and Abbas are truly in power of the current regime and have the authority to negotiate a deal, it remains to be seen whether they have the authority needed to command the IRGC. Who is in control of that army is signaled by the Strait of Hormuz. If it opens, traffic is free, and the other essential elements of the conditions for peace are met, there has been real progress toward a ceasefire that could turn into a peace deal.

But I don't care what agreement you make with this regime; it cannot be trusted. People persuaded against their will are of the same opinion still. I'm telling ya! If our team makes a deal with anyone who is of the same mind and heart as the Khamenei, past or present, you don't have an agreement worth the paper it's written on. We will spend a whole lot of time wrestling over picayune details to obstruct every effort to verify, they will create a proxy operation within Iran to carry on with their nuclear ambition, and stealthily provide cover for them until they can't, and then say, well, these are not connected with the "legitimate" government of Iran and go on and on and on.

This needs to END now! Trump might have information I don't have, ya think? And he is the master deal maker. So, we'll see what develops here.

But watch the Strait! It's the only thing we can SEE that provides insight into how the negotiations are going.]

The Commander in Chief, the Secretary of War, and the Joint Chiefs of the Armed Forces of the United States have made it clear and emphasized that, during these negotiations, our forces will stay ready: Locked and Loaded.

Trump *Truthed*: "All ships, Aircraft, and Military Personnel, with additional Ammunition, Weaponry, and anything else that is appropriate and necessary for the lethal prosecution and destruction of an already substantially degraded Enemy, will remain in place in, and around, Iran, until such time as the REAL

AGREEMENT reached is fully complied with. If for any reason it is not, which is highly unlikely, then the ‘Shootin’ Starts,” bigger, and better, and stronger than anyone has ever seen before. It was agreed, a long time ago, and despite all of the fake rhetoric to the contrary - NO NUCLEAR WEAPONS and, the Strait of Hormuz WILL BE OPEN & SAFE. In the meantime our great Military is Loading Up and Resting, looking forward, actually, to its next Conquest. AMERICA IS BACK!”¹⁸

By the way, Trump did try to send military equipment to the Iranian people. We used the Iranian Kurds to convey this equipment, but it, reportedly, never reached the people.¹⁹ Perhaps the Kurds are planning a coup against the regime. The Iranian Kurds are Sunni, rather than Shia, and most of the Arab nations that identify with Sunni Islam are way more reasonable than the Shiite brand of Islam. But right off the bat, they betray our trust in them with this business. Of course, they will tell you “a story” about why they decided to keep the arms we sent, but we’ll have to wait to learn “the story.” Thank you, Bongino!

Reports of Iranians mounting an organized, armed resistance are difficult to document. It’s challenging to obtain reports from inside Iran amid the ongoing clampdown on the Internet there. Rumors persist, however, and they are varied and numerous. Pray for the Iranian people for God to raise up a champion among them, like a Gideon, in whose hands GOD will put His sword to deliver the people from under their oppressive rulers. Pray that we will not merely replace regime leaders, but find some Sunni Muslims who

will join their fellow Muslim neighbors and pursue peace with their brother Isaac.

The only Shia-dominant Arab nation to join the Abraham Accords is Bahrain.²⁰ However, Bahrain is ruled by Sunni Muslims.²¹ This suggests that if the Kurds do move in and take control of the Iranian government, they will be much more inclined to join the Abraham Accords. We'll see! Trump has said the US has had good relations with the Kurds in the past.

I wonder if Iran is, as reported, 55-65% Shia. From the demonstrations we've seen, it does not seem likely. But, "Truth will out," as my grandmother would say. Nonetheless, Bahrain is 55-65% Shia, yet under Sunni leadership, it is moderate in its attitude toward the US and Israel. WATCH THE STRAIT!
