HURT NOT THE OIL / LINDSAY GRAHAM VINDICATED / THE
ANNIHILATION OF THE ISLAMIC REGIME?

Original Air Date: 10.03.26

Segment.01 Hello. I'm Dr. Jerry Scheidbach, pastor of the Lighthouse Baptist Church in Santa Maria, CA, and your brain masseur. Get ready for your brain massage.

Hurt not the oil! Is "Big Oil" taking advantage of the disruption in the global flow

of oil?

Russia's war *drones* on!

Russia is lobbing ballistic missiles into Ukrainian neighborhoods. Yeah! Unless the Russian military has got very bad aim, and they are not even close to the levels of technology as we were led to believe, or they are deliberately attacking civilian targets. Looks like the concerns of the late Lindsey Graham have been vindicated! Ukraine, meanwhile, keeps droning Russia's oil infrastructure, crippling their ability to continue funding what Graham called Russia's war of aggression against Ukraine.

Some new wrinkles in the Iran plan, and Trump's got the iron to remove them.

Looks like the regime is becoming desperate. The FlyDubai incident portends a possible Iranian escalation turning to the old Al Qaeda plan of hijacking planes to use as missiles.

Two Iranian officials told Reuters that Tehran has instructed their proxies to prepare to join Iran in a coordinated attack on U.S. and any Muslim countries aligned with them.¹ This includes Iran's allied groups in Lebanon (Hezbollah),² Yemen (Houthis) [IBID], and Iraq where the old ISIS guard splintered into multiple Iran-aligned Shiite militias: Kata'ib Hezbollah, being the most recognized,³ Kata'ib Sayyid al-Shuhada, Harakat al-Nujaba, and Asa'ib al-Haq.⁴ Trump has lately praised Iraq's newly elected prime minister, Ali al-Zaidi, and announced the removal of U.S. troops from Iraq.⁵ Hmmm! Very Interestink!

Did Trump vacate the U.S. military bases in Iraq in preparation for the next and final major campaign to END IRAN? More than once, Trump has warned he is making a decision: either Iran ends the war by agreeing to let go of their nuclear ambitions, or he ends them. He even used the word annihilate, for the fourth time, with respect to the Islamic Republic: in 2026, on February 28,

he said “We are going to annihilate their navy,” and we did.⁶ On September 17, speaking of the decision he is contemplating, he said, “Do I want to go in and annihilate them or do I not?”⁷ On September 22, at the United Nations General Assembly, he announced he had a “big decision to make. Will a deal be made with Iran that lets them rebuild and create a far greater country ... Or do I annihilate the Islamic Republic and do it quickly.”⁸ The last time he talked about annihilating Iran’s Navy, he did. Now three times he announced he is thinking about annihilating the Islamic Republic of Iran. Someone said, it’s what someone does that actually tells you what they plan to do—I think it was Trump who said that, or was that George Washington? Hehe.

We are sending in another Carrier Strike Group into the Strait: the USS Theodore Roosevelt (CVN-71). It’s a Nimitz class nuclear-powered aircraft carrier. The Air Wing assigned to this deployment is Carrier Air Wing 11.⁹ It’s escorted by Destroyer Squadron 23, and the USS Chosin (CF-65), a Ticonderoga-class guided-missile cruiser. This group also includes Information Warfare Squadron 9 - intelligence, cyber/electromagnetic warfare, information operations and “associated capabilities.”

Trump likes to keep his enemies guessing: is this another relief action, like when the USS Abraham Lincoln was relieved? The timing is interesting, and there will be some period of overlap—will Trump make up his mind during that overlap period?

Well, “now hear this,” “now, hear this”: another force group is deploying with the USS Theodore Roosevelt: the USS Makin Island Amphibious Ready Group is deploying as well. This group includes the Makin Island Wasp-class amphibious assault ship, and two amphibious transport docks: the USS Anchorage, and the USS John P. Murtha. Also, we’re sending in some more Marines: the 13th Marine Expeditionary Unit: a Marine air-ground combat force. You heard that right! I didn’t mumble or misspeak.

The specific function of the 13th Marine Expeditionary Unit is to land on beaches to deliver boots on the ground. These particular Marines are tasked to conduct raids, evacuations, seizing or protecting facilities, recovering personnel, conducting special-purpose missions and operating helicopters and other aviation. I understand this deployment includes the fearsome Viper, a gnarly attack helicopter, especially suited to take out fast attack boats.

Perhaps this is a message that the timer on Trump’s patience with these ridiculous “master negotiators” from Iran is up—they’ve had enough time to figure out they are not dealing with Muslim friendly Obama, or Biden, or Hillary, or any of the other incompetent U.S. leaders they’ve dealt with over the last 47 years—wait, Trump is 47, right, not years old, but he is the 47th Prez—I think their number is up! Hehe. Anyway! Interesting that Reagan and Trump bookend the end of the Islamic Republic of Iran. I can see Reagan winking at Trump with a thumbs up!

Add to this that the U.S. Central Command (CENTCOM) has requested a long range hypersonic weapon (LRHW) called the

Dark Eagle be deployed in the Iran war theatre.¹⁰ It's a ground launched missile with a range of 1725 miles reaching speeds up Mach 5 (that's five times the speed of sound—or from 3500 to 3800 mph). It's designed to reach targets very fast and deliver a payload effective against heavily defended targets. [IBID]. This request came in response to intel that Iran had moved some ballistic missile launchers beyond the range of the currently deployed U.S. Army Precision Strike Missiles. If this happens, it would be the first hypersonic Dark Eagle deployed in combat.¹¹ Let's see if we get the chance to watch this baby in action.

These movements can be interpreted as a plan to act on Trump's not so subtle threat to annihilate the Islamic Republic and turn power of the governance of Iran back into the hands of "The People." I have made my feelings known about all of this; it's really what Trump said at the beginning—regime change is something for the People to initiate, but our national security is something we can't sit around waiting for someone else to take care of. The Islamic Republic of Iran has demonstrated to the world that they can't be allowed to get a nuclear weapon, nor can they be trusted with the materials to produce one. And like Trump said, and others in his administration, if regime change occurs and the Iranian people get the chance to put together a Constitutional Republic premised on the great truth that all men are created equal and endowed by their creator with unalienable rights, and establish a Constitution the provides a check on government power abuse, securing the rights of the people, with fair elections free of any outside interference or internal manipulation—well, that would be a good thing!

Meanwhile, we have the battle at home. There are many doomers and gloomers, anti-Trump prophets who are betting their future on Trump failing, and whose efforts serve Obama's goal of transforming America into a God hating, America as founded despising antichrist Marxist State.

Okay, my friends, it's time for a break. Hold on; I'll be right back.

Segment.02 Hello. Welcome back! I'm Dr. Jerry Scheidbach, pastor at the Lighthouse, your brain masseur, and Paul Revere's lantern lighter, lighting the lamps in the church belfry arch, signaling the enemy is on the march—an enemy that would steal from us our liberty.

The Demoncrats have caved to Communism, which should have been anticipated. The first step was to shift responsibility from the people to the government for their welfare. The only “welfare” government can competently provide is the protection of our rights against enemies of our Constitution both foreign and domestic. God is the ordaining authority behind government, and He allows a people to consent to whatever government they desire.

On Sunday mornings at the Lighthouse, for the next four or five Sundays, I'll be preaching a series titled The Bible and the Constitution. I'm writing a new book titled *God and the Doctrine of Consent*. It shows that even GOD defers to the consent of the governed. If you pay attention, you'll see it all over the Bible, Romans 1:17-32 lays it out very clearly. Presently, I'm showing what sort of government God has ordained for the kingdom of man. Did you know that God created the nation of Israel from among the Gentiles? He gave them a form of government that was organized around Law, based on a written Constitution, and depended on

self-governance. While the heathen nations were ruled by a strong man, Israel was ruled by men God chose, whom the people accepted.

I can't spend too much time on this here, but let me give you one perfect example. God chose David to be the king over all Israel. He was picked by God to succeed Saul. When Saul died, David did not lead his small army of mighty men to march into Hebron and demand all Israel receive him as king because God said he was.

Instead, he prayed, "shall I go up." In other words, shall I go to my people and present my self to them? God said, "Go up." David then asked, "where shall I go up?" God told him to go to Hebron. When he arrived, the children of Judah, David's tribe, acknowledged God's call upon David to succeed Saul and anointed him to be their king. However, the rest of Israel did not acknowledge him as king, and followed a son of Saul as their king. It was more than six years later before Israel decided, before they exercised their right of consent, and made David king over all Israel.

There was no other nation that operated in that way. Every other heathen nation would transition through war and the victor would take the reign. They might go along with a dynasty succession, but this was a change from family, and from one tribe to another. Every other ruler would have imposed himself upon the people; he would not have waited for the people's "consent."

That's one of many examples — and there is much more to say about the covenant the people made with God which was also premised upon "consent."

Come on out this Sunday morning, you'll be blessed to learn what government looks like when it's designed by GOD.

We are going through a time of proving and exposing. God will give us the government we choose. We would do well to choose

wisely. Socialism is exactly what Lenin said it was, the door to communism. People on the left admit it in private—the goal is communism. Communism rejects God because it puts the people under a power that is above government. It puts the people over the government instead of under it. Those who call Trump fascist are the fascists, those who call him and MAGA patriots tyrants are the ones pushing tyrannical policies on our people, who used government to encroach on every one of our fundamental inalienable rights.

They hate Trump because he is leading the country back to its founding principles. Many of the Trump haters are deranged and deluded. I don't think there are enough people who actually think it's a bad idea to require proof of citizenship to register and proof of identity to vote. That's a 90-10 issue. There are not many people who actually believe men can be women, or that biological men should be allowed to compete in female sports: that's another 80-20 issue. Most Americans are not ready to buy into communism, or even socialism, but we'll see if Americans will stand up for the biblical economic model most closely represented by capitalism, against the satanic tyrannical model represented by Marxism in either of its expressions: socialism and communism. That's what will be settled in November. Will America throw out GOD and American patriotism, or will we rise up in force and overwhelm the enemy of our liberty by making this election TOO BIG TO RIG!

But what about the MAGA Patriots who are being tricked by once strong conservative voices into believing nonsense?

You should be careful about taking information from uninformed people. For example, the doomers who say stuff like "All it will take is one drone strike to stop the movement of oil through the Strait." The U.S. is providing effective cover for tanker transit, we knock out their drones, their ballistic missiles, we have removed their undersea mines, and neutralized their swift boat

attacks. The ships are getting through: something like 13-15 million barrels per day, and then with the Saudi pipe line that was created to circumvent dependency on Hormuz, it's very near the 20 million barrels per day pre-war levels — and the amount of Iranian oil passing through is 0, zilch, nada, none! Their currency is in free-fall: it looks a lot like the Soviet Union just before the Berlin Wall came down. Unless China and Russia, and perhaps some other countries we have yet to catch supporting Iran—watch France!

You've probably heard what's going on in France! If radical Islam takes France, they'll get their nuke. Are we going to have to deliver France from a Muslim invasion like we saved them from Germany? We can't let radicalized Islam get their hands on a nuke. The Western powers had better wake up!

Trump is typically ahead of everyone else and you can get a lot of insight into what's coming if you'll pay attention to what he says and what he does— you might have noticed that. He is now saying more oil is flowing right now than at any time before the war.

Probably the largest Tell that the IRGC is flailing in desperation, is the recent pathetic propaganda stunt pulled by the IRGC: The "OPEN LETTER TO THE AMERICAN PEOPLE."

The IRGC, represented by the Islamic Regime Brigadier General Hossein Mohebbi, did his Allahu Akbar introduction, then read their "OPEN LETTER to the HONORABLE PEOPLE of the United States of America."¹² — really? What about all the "honorable" American people you've killed over the past 47 years? Remember the U.S.S. Cole. Were you thinking about all the "honorable" American people when you marshaled your America

hating Muslims in the streets chanting “Death to America”? This letter opens with an outrageous insult to all Americans.

Only the most gullible among us believe the Iranians never wanted a nuclear bomb and have always had nothing but a desire for peace. The letter advances a litany of lies and hypocrisy that only Tucker and Candace could believe. Here’s a good one—“The war has claimed the lives of more than 3,600 Iranians.” [IBID] Sir, your regime slaughtered more than 10,000 of your own citizens in January alone, and the number exceeds 10s of thousands more: Trump accused the Islamic Republic of killing more than 72,000 of their own citizens this year alone.¹³

The Intifada by Taqiyya, and Mohammad’s saying enshrined in the Hadith - Al-harbu khud’ah. Taqiyya is the strategem of hiding one’s beliefs when facing persecution, coercion, or danger—or when attempting to win friends among the infidels to advance Islam. Mohammad’s saying, Al-harbu khud’ah means “War is deception.” The IRGC practice deception as a stratagem of warfare, and that’s what this IRGC General is doing.

For example, when the military Brigadier General in the Iranian Royal Guard explains the “Death to America” chant, he is lying through his teeth. But it’s so desperate; it is something he must have pulled out of a Wile E. Coyote ACME box: it’s likely to explode in the face of the IRGC.

After saying Death to America does not mean we want to kill Americans (you know, the Infidel), it’s like this, “Death to America’ is a prayer for the eradication of the diabolical ruling elite whose seat of power is the White House. It is a cry born of the pain of oppression.” Hummmmpf. What does “Death to Israel” mean? Ask the jihad headed wanna be martyr on the FlyDubai flight what it

means. Ask any Jew with hearts still torn by the October 7 massacre by Iran backed Hamas murdering, raping, and dashing infants upon rocks.

Hey, you lying devil, that cry you talked about, is that the same cry we hear from the Iranian people suffering under the your murderous oppression, the tyranny of the Mullahs and their army dedicated to their protection: the IRGC. Are you speaking for your Mullah Masters? The sort of demonic monsters that cannot abide protest, tyrants and murders who kill their own people to stop dissent. 72,000 in 2026 alone. Where does this 72,000+ estimate come from. The number has not been independently verified. The Islamic Republic certainly has not confirmed it. They say something like 3-5 thousand, but Iranian medical and government sources cited by Western reporting have produced estimates exceeding 30,000. The true number remains uncertain because of Iran's communications blackout and evidence that authorities concealed the scale of the killings. Much of this is taken from reports from the “ground,” meaning reports circulating among the people. Likely, Trump is taking intelligence reports he has received for ongoing murder of Iranian dissidents by the Islamic Republic.

Hey, Brigadier, you are a coward, who justifies killing your own citizens while pointing your lying and hypocritical accusations at America: you don't even make a believable Rabshakeh (*Rabshaw-kay*—2 Kings 18 and Isaiah 36), but I pray you will be humiliated as he was.

Can you believe these people? Oppressors who applaud when women are arrested, beaten, imprisoned, and flogged (that means whipped) for violating Islamic dress rules, speak of American's being oppressed by the White House. Parastoo Ahmadi and those who participated in producing and presenting the concert in which the popular Iranian female singer dared to perform in public not wearing the required hijab and received a sentence of 74 lashes with

a whip, a two-year prohibition against travel imprisoning her in Iran (they don't want anyone to see her wounds?), and a two year ban against performing.¹⁴ This is not an isolated incidence of brutality against women who refuse to wear their prison garments; check this report.¹⁵

The Mullah monsters of Iran target Christians, Jews, and even Muslims they disagree with, like the Sunnis and Sufis, and other religious minorities.¹⁶ In 2025, the power deranged Mullahs ordered the execution of five Sunni Muslim men.¹⁷ It's like the Communists in Russia back in the day, they also "recognized" the rights of certain religious groups, but watch out if one converts to Christianity. Some Muslims who convert to Christianity are forced into Islamic-reeducation programs.¹⁸

This lying representative of the tyrants of Iran pretends to sympathize with the oppressed people of America while Human Rights Watch documented more than 750 acts of persecution against Iranians practicing Bahai between June and November of 2025 alone: raiding their homes and businesses, and at least 110

arrests and detentions, property confiscations, and prison sentences ranging from 2 to 10 years.¹⁹

Even criticizing Islam can become a capital offense. In 2025, an Iranian singer named Amirhossein, affectionately called Tataloo, received the death penalty for insulting Mohammad. [IBID]. You just try insulting Jesus in America and see what you get.

The hubris of the IRGC and their “open letter to Americans” is repulsive. This broadcast, reading this vile tripe was released almost simultaneously with Prasatoo Ahmadi’s 74 lashes sentence being upheld by the Mullah-Iran court.
